3.3 *Tensile Strength.*—The average tensile strength of the fabric of the finished belting shall be not less than 6 25 kg. per mm. of width for warp and 3·04 kg. per mm. of width for weft.

3.4 *Adhesion.*—The adhesion between the plies should be such that the rate of separation shall be in no case greater than 25 mm. per minute under a load of 11 kg. for soft ducks and 9 kg. for hard ducks.

4. *Marking.*—The belting shall be marked at intervals of 5 to 10 metres with the maker's name, trade mark, if any, and the quarter and year of manufacture or the manufacturer's identifying code.

ANNEXURE III

Draft rules proposed to be made under section 17 of the Export (Quality Control and Inspection) Act, 1963

1. *Short title and commencement.*—(1) These rules may be called the Export of Rubber Beltings (Inspection) Rules, 1966.

(2) They shall come into force on 1st June, 1966.

2. *Definition.*—In these rules 'Rubber Beltings' mean [illegible] of the beltings mentioned in the Schedule to these rules made from woven [illegible] impregnated with rubber compound with or without rubber cover, the wh[illegible] vulcanized together in a uniform manner, and used for the purpose of [illegible] materials or power transmission.

3. *Basis of inspection.*—Inspection of rubber beltings for export shall be carried out with a view to seeing that rubber beltings conform to the specifications recognised by the Central Government under section 6 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), or as the case may be, any other stipulations stipulated in the export contract

4. *Procedure of inspection.*—(1) An exporter intending to export rubber beltings shall give intimation in writing of his intention so to do and submit along with such intimation a declaration of the specifications, stipulated in the contract relating to such export, to any one of the inspection agencies (hereinafter referred to as the Agency) recognised under section 7 of the Export (Quality Control and Inspection) Act, 1963 (22 of 1963), to enable it to carry out the inspection in accordance with rule 3.

(2) Every intimation and declaration under sub-rule (1) shall be given not less than fifteen days before the expected date of commencement of loading.

(3) On receipt of the intimation and declaration under sub-rule (2), the Agency shall inspect the consignment of rubber beltings with a view to seeing that the same conforms to the specifications recognised under section 6 of the Export (Quality Control and Inspection) Act, 1963 or, as the case may be, any other specifications stipulated in the export contract.

(4) If, after inspection, the Agency is satisfied that the consignment of rubber beltings to be exported complies with the requirements of rule 3, it shall, within fifteen days of the receipt of the intimation and declaration under sub-rule (2), issue a certificate to the exporter declaring the consignment to be export-worthy.

5. *Place of inspection.*—Every inspection under these rules shall be carried out either—

(a) at the premises of the manufacturer of such products, or

(b) at the premises at which the goods are offered by the exporter provided adequate facilities for the purpose exist therein.

6. *Inspection fee.*—Subject to a minimum of Rs. 75/- for each consignment, a fee at the rate of twenty paise for every one hundred rupees of invoice value of each such consignment shall be paid as inspection fee under these rules.

7. *Appeal.*—(1) Any person aggrieved by the refusal of the Agency to issue a certificate under sub-rule (4) of rule 4 may, within ten days of receipt of communication of such refusal by him, prefer an appeal to a panel of experts consisting of not less than three persons appointed for the purpose by the Central Government.

(2) The decision of the panel on such appeal shall be final.

(भारतीय कृषि अनुसंधान परिषद्)

संस्तव

नई दिल्ली, दिनांक 30 मार्च 1966

सं० 2-34/65- रीआर्ग० (सी० सी०)—भारतीय कृषि अनुसंधान परिषद् की जिम्मेदारियां और कार्यकलाप का निरीक्षण करने के उपरान्त, प्रथम भारत-अमरीकी दल (1955) इस निर्णय पर पहुंचा कि कृषि सम्बन्धी अनुसंधान कार्य में समन्वय लाने में परिषद् का नेतृत्व अप्रभावी रहा है अतः दल ने सिफारिश की है कि "परिषद् को विशेष समस्या वाले क्षेत्रों में विशेषज्ञों के एक सुगठित कर्मचारी वर्ग के रूप में विकसित किया जाए जिससे कि परिषद् अपने उप-प्रधान के अधीन विशेष परामर्शदाताओं अथवा सलाहकारों की एक प्रवर परिषद् के रूप में कार्य कर सके।" दल ने भारतीय कृषि अनुसंधान परिषद् और केन्द्रीय अनुसंधान संस्थानों के बीच अधिक ताल-मेल स्थापित करने की भी सिफारिश की जिसमें केन्द्रीय अनुसंधान संस्थान, परिषद् के परिचालन पक्ष (ओपरेटिंग विंग)

के रूप में कार्य करेंगे। द्वितीय भारत-अमरीकी दल (1959) ने अनुसंधान उत्तरदायित्वों की वर्तमान विषमताओं का अनुभव करके, पहले दल की सिफारिशों को अधिक जोरदार शब्दों में दोहराया। उन्होंने सिफारिश की है कि केन्द्रीय कृषि अनुसंधान कार्यक्रम को समेकित करने तथा उसमें पर्याप्त समन्वय लाने के लिए, समस्त केन्द्रीय अनुसंधान संस्थानों और पण्य समितियों को भारतीय कृषि अनुसंधान परिषद् के पूर्ण तकनीकी नियंत्रण में लाना चाहिए। 1963 में नियुक्त किये गये कृषि अनुसंधान पर्यवेक्षक दल ने उक्त सिफारिशों का जोरदार समर्थन किया है।

2. उक्त विशेषज्ञों के दल द्वारा की गई विभिन्न सिफारिशों की सावधानी से जांच करने के बाद, भारत सरकार ने भारतीय कृषि अनुसंधान परिषद् को पूर्ण स्वायत्तशासी संगठन के रूप में पुनर्गठित करने और समस्त अनुसंधान संस्थानों और प्रयोगशालायों जो कि अब खाद्य, कृषि, सामुदायिक विकास तथा सहकारिता मंत्रालय के प्रशासनिक नियंत्रण में हैं, को पुनर्गठित परिषद् के पूर्ण प्रशासनिक तथा तकनीकी नियंत्रण में लाने का निश्चय किया है। पुनर्गठित परिषद् के पहले ही अस्तित्व में आ जाने पर, भारत सरकार ने निम्नलिखित अनुसंधान संस्थानों, जिनमें उनके प्रादेशिक तथा उप-केन्द्र आदि भी सम्मिलित हैं, का पूर्ण प्रशासनिक नियंत्रण, संस्थानों के सामने लिखी तारीख से भारतीय कृषि अनुसंधान परिषद् सोसायटी को स्थानांतर करने का निश्चय किया है :—

(xiii)	केन्द्रीय समुद्री मात्स्यकी अनुसंधान संस्थान	
(xiv)	केन्द्रीय मात्स्यकी टैक्नोलोजी संस्थान	

3. सरकार ने ऊपर पैरा 2 में वर्णित संस्थानों की समस्त स्थावर तथा अस्थावर सम्पत्ति, परिसम्पत्ति (असेट) जिसमें दावे और अनुयोज्य (आक्शनेबल) दावे तथा ऋण और दायित्व भी सम्मिलित हैं, एक औपचारिक विलेख (डीड) अथवा विलेखों द्वारा, जो कि बाद में निष्पादित किये जायेंगे, भारतीय कृषि अनुसंधान परिषद् को स्थानांतर करने का निश्चय किया है।

4. भारत सरकार ऊपर लिखित पैराग्राफ 2 में वर्णित विभिन्न संस्थानों के क्रियाकलापों का खरच चलाने के लिए, भारतीय कृषि अनुसंधान परिषद् को आवश्यक वार्षिक सहायक-अनुदान देगी।

आदेश

आदेश है कि इस संस्ताव की प्रति समस्त राज्य सरकारों, संघ क्षेत्रों के प्रशासनों और भारत सरकार के समस्त मंत्रालयों, योजना आयोग, मंत्रीमंडल के सचिवालय, प्रधानमंत्री के सचिवालय, लोक सभा सचिवालय और राज्य सभा सचिवालय को भेजी जाये।

यह भी आदेश है कि यह संस्ताव जनसाधारण की सूचना के लिए भारतीय राजपत्र में प्रकाशित किया जाये।

पत्तन

संस्ताव

नई दिल्ली, दिनांक 1 अप्रैल 1966

सं० 17 पी० जी० (7)/66—भारत सरकार को 1964-65 की विशाखापत्तनाम पत्तन की रिपोर्ट मिल गई है। रिपोर्ट की उल्लेख योग्य बातें ये हैं :—

1. **वित्तीय परिणाम**

(क) **पत्तन फंड** : 1964–65 में पत्तन की राजस्व प्राप्तियां (कनहारी लेखा और विशेष प्राप्तियां छोड़कर) 253.16 लाख रुपये हैं। 1963–64 में यह प्राप्ति 216.96 लाख रुपये थी। आमदानी में वृद्धि का कारण यह था कि कच्चे लोहे और मैंगनीज की जहाजी लदान में वृद्धि हुई और मशीनरी भागों इत्यादि के अधिक आयात हुआ।

विचाराधीन वर्ष में व्यय (आरक्षित निधि के अंशदान, कनहारी लेखा में किये व्यय को छोड़ कर) 198.88 लाख रहा। 1963–64 में यह संख्या 155.08 लाख रुपये थी। अधिक व्यय का मुख्य कारण यातायात कर्मचारियों में वृद्धि और श्रम के विभागीकरण पर अधिक व्यय तथा यातायात में वृद्धि के कारण ठेकेदारों द्वारा कच्ची धातु का धरा उठाया जाना, अधिक महंगाई भत्ते की अदायगी, संभरण और निपटान के महानिदेशक और इंडिया सप्लाई मिशन, वाशिंगटन से प्राप्त स्टोर के लिये अग्रिम अदायगी, पहुंच मार्गों में निकर्षण और टगों तथा लांचों पर अधिक व्यय तथा ऋण प्रभार में वृद्धि होना है।

(ख) **कनहारी लेखा** : 1964-65 में कहनारी लेखा के अन्तर्गत कुल आमदनी और खर्च क्रमशः 3.34 लाख रुपया और 2.55 लाख रुपया रहा। 1963-64 में ये संख्यायें 3.09 लाख रुपये और 2.1 लाख रुपया थीं। 1964–65 में 0.79 लाख रुपयों का अधिशेष रहा। 1963–64 में यह संख्या 0.99 लाख रुपया थी।

(ग) **आरक्षित निधि** : वर्ष के अन्त में विभिन्न फंडों के बारे में स्थिति संतोषजनक थी।

2. **यातायात**

(क) **व्यापार** : 1964–65 में इस पत्तन से 19.10 लाख टन का आयात हुआ। पिछले वर्ष यह संख्या 18.49 लाख टन थी। इस प्रकार 0.61 लाख टन की वृद्धि हुई। इस वृद्धि का मुख्य कारण दवाइयों के अलावा रसायन पदार्थों (अमोनियम सल्फेट, गन्धक इत्यादि), खाद्यान्न, धातुओं, कच्ची धातुओं और रेलवे सामग्री के आयात में वृद्धि का होना है।

1964-65 में पत्तन से 19.63 लाख टन का निर्यात हुआ। पिछले वर्ष यह संख्या 16.72 लाख टन थी। इस प्रकार 2.91 लाख टन की वृद्धि हुई। वर्ष में जिन वस्तुओं के निर्यात में वृद्धि हुई उन में से मैंगनीज, लोहा और क्रोम की कच्ची धातुयें माइराबोलम और कच्ची धातुओं के अलावा अन्य धातु इत्यादि हैं।

(ख) **नौवहन** : 1964-65 में विदेशों को जाने वाले जहाज जो पत्तन में दाखिल हुए वे 23,31,909 कुल टन भार के 470 जहाज थे। पिछले वर्ष की ये संख्यायें 22,59,052 टन तथा 472 जहाज थी। विचाराधीन वर्ष में 8,60,575 कुल टन भार के 233 तटीय जहाज पत्तन में आये। 1963-64 में यह संख्या 7,93,839 कुल टन भार तथा 206 जहाज थी।

1964-65 में पत्तन में आने वाला सबसे लंबा जहाज, 21,000 कुल टन भार का तथा 633 फीट (ओ० ए०) की लंबाई का एम० वी० "देश बन्धु" था। विचाराधीन वर्ष में पत्तन में आने वाला यही सब से अधिक गहरे डुबाव का जहाज था; इसका डुबाव आगे का 33 फीट और पीछे का 33 फीट लंबाई 633 फीट (ओ० ए०) और कुल टन भार 21,000 था।

3. **श्रम** : 1964-65 में श्रमिकों से संतोषजनक संबंध रहे।

4. **पूंजीगत निर्माण कार्य** : इस वर्ष कुल मिला कर 87.84 लाख रुपये के मूल्य के निर्माण कार्य किये गये। इस से युद्धोत्तर वर्षों में सम्पूर्ण पूंजी उद्व्यय लगभग 943 लाख रुपया का हो गया। 1964–65 में पत्तन के पूंजी-गत कार्यक्रम द्वारा सब से अधिक महत्वपूर्ण कार्य जो प्रगति पर थे ये हैं :—

1. अतिरिक्त चार बर्थों की स्कीम,
2. धातुक लादनें का संयन्त्र,
3. दो पुल,
4. पनकट की विशेष मरम्मत, और
5. सूखी गोदी को लंबा और गहरा करना।

5. **कर्मचारियों को सुविधायें**

पोर्ट ट्रस्ट मंडल के कल्याणकारी उपायों में ये कार्य थे—खेलकूद, सांस्कृतिक-कार्यक्रम, कान्टीन और विश्राम कक्ष, क्लब, सहकारिता भंडार, निवासस्थान, बालकों के पार्क, सामान्य डाक्टरी देखभाल इत्यादि। सामान्यतया कर्मचारी कल्याणकारी निधि से जरूरतमंद कर्मचारियों, क्लबों इत्यादि को सहायता दी गई।

6. पोर्ट ट्रस्ट ने उपयोगी कार्य किया और 1964-65 में पोर्ट ट्रस्ट द्वारा किये गये कार्य की सरकार सराहना करती है।

MINISTRY OF FOOD, AGRICULTURE, COMMUNITY DEVELOPMENT & COOPERATION

RESOLUTION

New Delhi, the 30th March 1966

No. 2-34/65-Reorgn.(CC).—The First Joint Indo-American Team (1955), after examining the activities and responsibilities of the Indian Council of Agricultural Research came to the conclusion that its leadership in coordinating agricultural research, was ineffective, and accordingly recommended that "the development of the Council into a well rounded staff of specialists in the major problem fields to serve as a Senior Council of Special consultants or advisers under the Vice-President of the Council". The Team also recommended a closer working relationship between the Indian Council of Agricultural Research and the Central Research Institutes, in which the latter would function as an operating wing of the Council. The Second Joint Indo-American Team (1959), realising the prevalent diversity of research responsibilities, reiterated the recommendations of the First Team in even stronger terms. They recommended that in the interest of consolidating the Central Agricultural Research Programme and assuring adequate coordination, all the Research Institutes and Commodity Committees should be brought under the full technical and administrative control of the Indian Council of Agricultural Research. The Agricultural Research Review Team, appointed in 1963, has strongly supported the above recommendations.

2. After a very careful examination of the various recommendations made by the above Expert Team, the Government of India decided to reorganise the Indian Council of Agricultural Research as a fully autonomous organisation and bring under the full administrative and technical control of the reorganised Council, all the Research Institutions and Laboratories now under the administrative control of the Ministry of Food, Agriculture, Community Development & Cooperation. The reorganised Council having already come into *existence*, the Government of India have now decided to transfer the full administrative control of the following Research Institutes, including their Regional and Substations etc. to the Indian Council of Agricultural Research Society, with effect from the dates indicated there-againsts :—

(i) Indian Agricultural Research Institute; (ii) Indian Veterinary Research Institute; (iii) Central Rice Research Institute; (iv) Central Potato Research Institute; (v) National Dairy Research Institute; (vi) Central Arid Zone Research Institute; (vii) Indian Grassland and Fodder Research Institute; (viii) Central Sheep and Wool Research Institute; (ix) Central Tuber Crops Research Institute;	1st April 1966
(x) Sugarcane Breeding Institute; (xi) Indian Institute of Sugarcane Research; (xii) Central Inland Fisheries Research Institute; (xiii) Central Marine Fisheries Research Institute; (xiv) Central Institute of Fisheries Technology.	to be Specified later

3. Government have decided to transfer all moveable and immoveable property, assets including claims and actionable claims and debts and liabilities of the Institutes mentioned in para 2 above to the Indian Council of Agricultural Research by a formal deed or deeds of transfer to be executed later. The nature and the form of the deeds would be determined later.

4. The Government of India will give requisite annual grants in aid to the Indian Council of Agricultural Research for financing the activities of the various Institutes mentioned in paragraph 2 above.

ORDER

ORDERED that a copy of the Resolution be communicated to all State Governments, Administrations of Union Territories and Ministries of the Government of India, Planning Commission, Cabinet Secretariat, Prime Minister's Secretariat, Lok Sabha Secretariat and Rajya Sabha Secretariat.

ORDERED also that the Resolution be published in the Gazette of India for general information.

PORTS

RESOLUTION

New Delhi, the 1st April 1966

No. 17-PG(7)/66.—The Government of India have received the Administration Report of the Vishakhapatnam Port for the year 1964-65. The following are the noteworthy features in the Report :—

1. *FINANCIAL RESULTS*

(a) *Port Fund* : The revenue receipts of the port (excluding the Pilotage Account and Special receipts) during the year 1964-65, were Rs. 253.16 lakhs as compared with Rs. 216.96 lakhs during the year 1963-64. The increase in income was mainly due to the increase in shipments of iron ore, manganese ore, and also more imports of machinery parts, etc.

The expenditure (excluding contributions to Reserve Funds and expenditure charged to the Pilotage Account) during the year under review was Rs. 198.88 lakhs as against Rs. 155.08 lakhs in 1963-64. The larger expenditure was mainly due to increase in traffic staff and more expenditure on departmentalisation of labour and ore handling by contract due to increase in traffic, payment of increased dearness allowance, advance payments for stores obtained from the Director General of Supplies and Disposals and the India Supply Mission, Washington, more expenditure on dredging in approaches and on tugs and launches and increase in debt charges.

(b) *Pilotage Account* : The gross income and expenditure under the Pilotage Account during 1964-65 was Rs. 3.34 lakhs and Rs. 2.55 lakhs, respectively, as compared with Rs. 3.09 lakhs and Rs. 2.1 lakh, respectively, in 1963-64 with a surplus of Rs. 0.79 lakhs during the year 1964-65 as against a surplus of Rs. 0.99 lakhs in 1963-64.

(c) *Reserve Funds* : The position with regard to the balances in the various funds at the end of the year was satisfactory.

2. *TRAFFIC*

(a) *Trade* : The imports, which passed through the Port during the year 1964-65, was 19.10 lakh tonnes as against 18.49 lakhs tonnes in the previous year, registering an increase of 0.61 lakh tonnes. The increase was mainly due to increase in the import of chemicals other than medicines (Ammonium Sulphate, Sulphur, etc.), foodgrains, metals and ores, and Railway materials.

The exports during the year 1964-65, was 19.63 lakhs tonnes as against 16.72 lakhs tonnes in the previous year, registering an increase of 2.91 lakhs tonnes. Manganese, Iron and Chrome Ores, Myrabollams, and Metals other than ores etc. were the chief commodities the export of which increased during the year.

(b) *Shipping* : The number of foreign-going vessels, which entered the port during 1964-65, was 470 with a total tonnage of 23,31,909. The corresponding figures for the previous year were 472 and 22,59,052. 233 coastal vessels with a total tonnage of 8,60,575 visited the port during the year under review as against 206 with a total tonnage of 7,93,839 during 1963-64.

The M.V. "DESH BANDHU" of length 633′ 0″ (O.A.) with a gross registered tonnage of 21,000, was the longest vessel that entered the port during the year 1964-65. It was also the vessel with the deepest draft to enter the port during the year under review with draft forward 33′ and Aft. 33′ length 633′ (O.A.) and G.R.T., 21,000.

3. *LABOUR*

Relations with labour continued to be satisfactory during the year 1964-65.

4. *CAPITAL WORKS*

Capital Works of an aggregate value of Rs. 87.84 lakhs were carried-out during the year, bringing the total capital outlay during the post-war years to about Rs. 943 lakhs. The most important items covered by the Capital programme of the port in progress during 1964-65 were :—

(i) Additional Four Berths Scheme;
(ii) Ore loading Plant;
(iii) Two Bridges;
(iv) Special repairs to breakwater; and
(v) Lengthening and deepening of Dry Dock.

5. *AMENITIES TO STAFF*

The Port Trust Board's welfare measures covered activities, such as Sports, Cultural Programmes, Canteens and Rest Rooms, Clubs, Cooperative Stores, Housing, Children Parks, General medical attention, etc. As usual grants from the staff welfare Fund were given to needy employees, clubs etc.

6. *ACKNOWLEDGEMENT*

The Port Trust performed useful work and Government view with appreciation the work done by the Port Trust during the year 1964-65.

ORDER

ORDERED that a copy of the Resolution be communicated to all concerned.

ORDERED also that the Resolution be published in the Gazette of India for general information.

MINISTRY OF EXTERNAL AFFAIRS

New Delhi, the 1st April 1966

INTEGRATED GRADE II AND III OF THE GENERAL CADRE OF THE INDIAN FOREIGN SERVICE, BRANCH 'B', (LIMITED DEPARTMENTAL COMPETITIVE EXAMINATION) REGULATIONS, 1966

G.S.R. 544.—In pursuance of rule 20 read with clause (i) of sub-rule (2) of rule 13, of Indian Foreign Service, Branch 'B', (Recruitment, Cadre, Seniority and Promotion) Rules, 1964, the Central Government in the Ministry of External Affairs, hereby makes, in consultation with the Union Public Service Commission, the following regulations, namely:—

1. **Short title and commencement.**—(1) These Regulations may be called the Integrated Grade II and III of the General Cadre of the Indian Foreign Service, Branch 'B', (Limited Departmental Competitive Examination) Regulations, 1966.

((2) These shall come into force on the date of their publication in the Official Gazette.

2. **Definitions.**—(i) In these regulations, unless the context otherwise requires,

(a) "crucial date" means the first day of January, of the year in which the examination is held;

(b) "examination" means a limited departmental competitive examination held by the Commission for making the Select List for the Integrated Grade II and III of the General Cadre of the Indian Foreign Service, Branch 'B';

(c) "selection" means inclusion in the Select List for promotion to the Integrated Grade II and III of the General Cadre of the Indian Foreign Service, Branch 'B'.

(ii) All other words and expressions used in the regulations and not defined herein shall have the meanings respectively assigned to them in the Indian Foreign Service, Branch 'B', (Recruitment, Cadre, Seniority and Promotion) Rules, 1964.

3. **Holding of the examination.**—(i) The Examination shall be conducted by the Union Public Service Commission in the manner notified by the Central Government in the Ministry of External Affairs from time to time.

(ii) The dates on which and the places at which the examination shall be held shall be fixed by the Commission.

4. **Conditions of eligibility.**—Any permanent or temporary officer of the Indian Foreign Service, Branch 'B' belonging to Grade IV of the General Cadre, or Grade II of the Cypher Sub-Cadre or Grade II of the Stenographers' Sub-Cadre, shall be eligible to appear at the examination if, on the crucial date, he satisfies the following conditions, namely:—

(1) *Length of Service.*—He should have rendered a continuous service of not less than five years in any one or as the case may be, more than one, of the following posts in Indian Foreign Service, Branch 'B', namely:—

(i) Grade IV of the General Cadre;

(ii) Grade II of the Cypher Sub-Cadre;

(iii) Grade II of the Stenographers' Sub-Cadre.

(2) *Age.*—He should not be more than 40 years of age:

Provided that the upper age limit may be relaxed in respect of such categories of persons as may be specified in this behalf from time to time, by the Central Government in the Ministry of External Affairs, to the extent notified in respect of each category:

Provided further that for the first examination to be held under these Regulations, the upper age limit of 40 years specified in this regulation shall not apply.

(3) *Attempts at the examination.*—Unless covered by any of the exceptions notified by the Central Government in the Ministry of External Affairs from time to time in this behalf, he shall not be permitted to compete more than three times at the examination.

(4) *Fees.*—Subject to such exemption or concessions or both, as may be notified in this behalf by the Central Government in the Ministry of External Affairs from time to time, he shall pay the fees specified by the Commission.

NOTE I.—Officers belonging to Grade IV of the General Cadre or Grade II of the Cypher Sub-Cadre or Grade II of the Stenographers' Sub-Cadre who are on deputation to ex-cadre posts with the approval of the competent authority shall be eligible to be admitted to the examination, if they are otherwise eligible.

NOTE II.—Assistants of the Central Secretariat Service and Stenographers of the Central Secretariat Stenographers' Service who are on deputation to the Indian Foreign Service, Branch 'B', shall not be eligible for admission to the examination.

5. **Canvassing for candidature.**—Any attempt on the part of a candidate to obtain support for his candidature by any means may be held by the Commission to be a conduct which would disqualify him for admission to the examination.

6. **Decision as to eligibility.**—The decision of the Commission as to the eligibility or otherwise of a candidate for admission to the examination shall be final and no candidate to whom a certificate of admission has not been issued by the Commission shall be admitted to the examination.

7. **Results.**—(1) The names of the candidates who are considered by the Commission in their discretion to be suitable for selection on the results of any examination held after the commencement of these Regulations shall be arranged in order of merit and recommended for selection in that order upto the required number.

(2) The form and manner of communication of the results of the examination to individual candidates shall be decided by the Commission in their discretion, and the Commission shall not enter into correspondence with them regarding the results.

8. **Selections.**—(1) Success at the examination shall confer no right to selection unless the Central Government is satisfied, after such enquiry as may be considered necessary, that the candidate is eligible and suitable in all respects for selection:

Provided that the decision as to ineligibility for selection in the case of any candidate recommended for selection by the Commission shall be taken in consultation with the Commission.

(2) Subject to the provisions of sub-regulation (1) of this regulation, selection on the results of any examination held after the commencement of these Regulations shall be made to the extent required, in the order of merit of the candidates recommended by the Commission.

9. **Penalty for impersonation or other misconduct.**—A candidate who is or has been declared by the Commission guilty of impersonation or of submitting fabricated documents or documents which have been tampered with or of making statements which are incorrect or false or suppressing material information or otherwise resorting to any other irregular or improper means for obtaining admission to the examination, or of using or attempting to use unfair means in the examination hall or of misbehaviour in the examination hall, may in addition to rendering himself liable to criminal prosecution;

(a) be debarred permanently or for a specified period,

(i) by the Commission, from admission to any examination, or from appearance at any interview held by the Commission for the selection of candidates; and

(ii) by the Central Government from employment under it;

(b) be also liable to disciplinary action under the appropriate rules.

New Delhi, the 4th April 1966

S.O. 1160.—The following draft rules which the Central Government propose to make, in exercise of the powers conferred by section 3 of the Agricultural Produce (Grading and Marking) Act, 1937 (1 of 1937), are published for the information of all persons likely to be affected thereby as required by the said section, and notice is hereby given that the said draft will be taken into consideration on or after the 1st May, 1966.

Any objection or suggestion, which may be received from any person with respect to the said draft before the date aforesaid will be considered by the Central Government.

DRAFT RULES

1. **Short title and application.**—(1) These rules may be called the Bristles Grading and Marking Rules, 1966.

(2) They shall apply to bristles obtained from pigs, hogs and boars and produced in India.

2. **Grade designations.**—(1) Grade designations to indicate the quality of bristles as set out in column 1 of Schedules I to IX shall be known as "General Grades".

(2) In addition to the grade designations referred to in sub-rule (1), there shall also be "Special Grades" and "Select Grades" which shall satisfy the conditions specified in Schedules X and XI respectively.

3. **Definition of quality.**—The quality indicated by the various grade designations shall be as set out against each designation in columns 2, 3 and 4 of Schedules I to IX and in Schedules X and XI.

4. **Grade designation mark.**—The grade designation mark shall consist of a label bearing the design set out in Schedule XII specifying the grade designation and the colour of the label shall be the colour of the bristle.

5. **Method of marking.**—(1) A garde designation mark label shall be securely affixed to each case in a manner approved by the Agricultural Marketing Adviser to the Government of India

(2) In addition to the grade designation, the following particulars shall be clearly marked on the label:—

(i) Serial number.

(ii) Type of bristles, *i.e.*, soft stiff/semi-stiff or extra stiff.

(iii) Name of packing station.

(iv) Date of marking.

(v) Net weight.

(vi) General/Special/Selection.

6. **Method of packing.**—(1) (a) Bristles of the same grade designation shall be tied in bundles.

(b) A bundle (other than of shorts and riflings) shall not be more than 51 mm (2 inches) in diameter.

(2) The net contents of each case of bristles of all grade designations shall be 10 kg. or more, in multiples of 2 kg., subject to a maximum of 46 kg.

(3) Bristles of different grade designations of 121 mm. (4¾ inches) or below shall be packed in separate cases.

(4) Bristles of different grade designations of over 121 mm. (4¾ inches) may be packed in one case:

Provided that—

(a) the quantity of bristles of a particular grade designation shall be in multiples of 2 kg., and

(b) bristles of each grade designation shall be packed in distinct layers.

(5) If black and grey bristles are packed in the same case, the quantity of bristles of each these two colours shall be in multiples of 2 kg. and these shall be packed in distinct layers.

(6) (a) The container for packing shall be a wooden case, which shall be clean and dry.

(b) Card-board cartons and tin or aluminium cases may also be used for packing bristles for transit by air freight.

(7) The wooden cases and other containers shall be lined with water-proof paper and shall contain sufficient quantity of insecticide such as D.D.T. or naphthalene balls.

(8) Each case shall be securely strapped and sealed.

Explanation—In this rule the expression "net contents" shall mean "the weight of the bristles without any wrapping or other additions other than ties of cotton, hemp or other material."

7. **Repeal**—The Bristles Grading and Marking Rules, 1950, are hereby repealed.

3. At the hearing of this dispute today, the representatives of the parties noted above all stated that the dispute had been amicably settled on terms recorded in the terms of settlement dated 23rd February, 1966, reached between the parties before the Regional Labour Commissioner (Central) Hyderabad, and have prayed that the dispute be treated as settled and withdrawn in terms of the settlement thereof. A copy of the terms of settlement is annexed hereto and marked Annexure 'A'.

4. I, therefore, dispose of this dispute, which relates to the demand with regard to bonus for the year 1962, in terms relating thereto in Annexure "A" hereto, and allow the same to be withdrawn as settled.

(Sd.) SALIM M. MERCHANT,

Presiding Officer.

Memorandum of Settlement arrived at during Conciliation under Section 12 (3) of the Industrial Disputes Act, 1947 between the management of the Canara Banking Corporation Limited and the workmen of the Canara Banking Corporation Limited represented by All India Bank Employees' Federation/All India Bank Employees' Association in the matter of the claim for additional bonus for the year 1956 to 1964 (Both the years inclusive).

PRESENT

Shri N. D. Bodade, Regional Labour Commissioner (C), Hyderabad.

NAMES OF THE PARTIES:

Representing the Management — Shri K. Ramdas Nayak, M.A., General Manager.

Representing the workmen . . . (a) Shri A. L. Hebbar, President; (b) Shri V. R. Lobo, Vice President. — Bank Employees' Association South Kanara, on behalf of the All India Bank Employees' Federation.

(a) Shri Sathyanarayana, General Secretary, Mysore State Bank Employees' Federation.

(b) Shri S. B. Sanurkar, Vice President, Canara Banking Corporation Employees' Union.

(c) Shri M. K. Bhat, General Secretary, C.B.C.E. Union, On behalf of the All India Bank Employees' Association.

Short recital of the case

The workmen of the Canara Banking Corporation Limited represented by All India Banking Employees' Federation/All India Bank Employees' Association, referred to hereunder as 'Federation' and 'Association' have made claims for additional bonus for the years 1956 to 1961. A dispute with regard to the adequacy of the amount paid by way of bonus to the workmen for the year 1962 raised by them has been referred by order of the Government of India dated 5th September, 1964 to the Central Government Industrial Tribunal at Bombay for adjudication and the same is pending. The workmen have been paid bonus for the years 1963 and 1964 which they have accepted under protest and have demanded higher bonus. The parties have felt that all the disputes relating to payment of

bonus for the years 1956 to 1964 (both the years inclusive) should be amicably settled. After discussions between the parties, with a view to ensuring harmonious relationship between the management anad the employees leading to greater efficiency and benefit to both the parties, the matter is settled amicably on the terms indicated hereunder and further in consideration of such settlement and of the management agreeing to pay thereunder on an *ad hoc* basis an additional amount by way of bonus for the years 1959 to 1962 (both the years inclusive) which payment includes an *ad hoc* payment for the year 1962 as well the employees waiving their claims for the years 1956, 1957, 1958, 1963, and 1964 the aforesaid dispute relating to the year 1962 is also settled.

Terms of Settlement

1. It is agreed that this settlement has been entered into without prejudice to the Bank's contentions at law. It is further agreed that the employees accept the amout mentioned hereunder in full and final settlement of their claims for bonus for the year 1956 to 1964 (both the years inclusive) and undertake that they will not make any further demand or raise any dispute of bonus for the aforesaid years.

2. It was further agreed that if, in future, a dispute is raised by any of the employees of the Bank with regard to payment of additional or any bonus for any or all of the years from 1956 to 1964 (both the years inclusive,) it shall be open to the Bank to resist such a claim or claims on such grounds as are open to it including relevant provisions of the Bonus Award given by Mr. Justice K. T. Desai or the Banking Companies Act or any other law by which the matter may be governed.

3. The management agrees to pay the following amounts by way of additional bonus in respect of the years 1959 to 1962 (both years inclusive) in addition to what has already been paid to employees as bonus relating to the aforesaid years and the employees agree to waive their additional claims for the years 1956, 1957, 1958, 1963 and 1964.

Year	Bonus already paid	Additional bonus payable as per this settlement	Percentage of additional bonus payable to the amount already paid
	Rs.	Rs.	
1956	73,896	Nil	Nil
1957	23,000	Nil	Nil
1958	48,942	Nil	Nil
1959	62,026	20,675	33 1/3
1960	68,676	22,890	33 1/3
1961	86,290	28,765	33 1/3
1962	64,000	32,000	50
1963	83,000	Nil	Nil
1964	1,03,000	Nil	Nil
TOTAL	6,12,830	1,04,330	

4. The parties agree that the amount of additional bonus agreed to be paid under this settlement shall be payable at the same ates both to the workmen and the non-workmen who were in the service of the Bank in the relevant years and that the allotment of the amounts made in the settlement for payment as additional bonus for the years in question includes the amount payable to the non-workmen staff.

Provided, however, that in case of an employee who, at the date of this settlement is no longer in bank service, such payment shall be effected to him or if he died earlier, to his legal representative/representatives only on such employee or his legal representative/representatives making an application to the Bank within 12 (twelve) months from the date of this settlement. The Bank will be at liberty to refuse to entertain any claim received on or after 28th February, 1967.

5. The disbursement of bonus as per this settlement shall be made on or before 30th April, 1966.

6. The parties agree that this settlement shall not be treated as precedent or taken as the basis or govern the principles for the determination of bonus or the amount or rate of bonus in future years and shall not be admissible inevidence in any proceedings before any authority relating to bonus for any future years. The year 1965 and all subsequent years are future years within the meaning of this clause. This settlement, however, shall be final and binding on both the parties as regards the amount of bonus payable for the years 1956 to 1964, the qualification for eligibility and the procedure as set out hereinabove.

7. The Federation/Association hereby undertakes on behalf of the Bank Employees' Association South Kanara/Canara Banking Corporation Employees' Union and other constituent units to file an application before the Central Government Industrial Tribunal, Bombay for withdrawal of the dispute relating to the bonus for the year 1962 within 15 days from the date of this settlement.

STATE: Bihar. INDUSTRY: Coal.

Dhanbad, dated the 3rd February, 1966

AWARD

By its Order No. 2/29/63-LRII, dated the 25th July, 1963, Government of India, Ministry of Labour and Employment, referred under Section 10(1)(d) of the Industrial Disputes Act, 1947, to this Tribunal for adjudication an industrial dispute existing between the employers in relation to the management of Lakurka Colliery of Messrs Lakurka Coal Company Limited and their workmen in respect of the matters specified in the schedule attached to the order of reference which is reproduced below:

SCHEDULE

"1(a) Whether the retrenchment of the following workmen by the management of the Lakurka Colliery was legal and justified:

Sl. No.	Name of the workman	Designation
1	Shri Raja Ram Bilaspuri	Shot Firer
2	,, Sant Ram Bilaspuri	Do.
3	,, Mahadeo Pashi	Do.
4	,, Suku Kumhar	Explosive Carrier
5	,, Imamdi Mian	Do.
6	,, Gaur Kumhar	Do.
7	,, Kedar Rajwar	Do.
8	,, Juman Mian II	Do.

(b) If not, to what relief are they entitled?

2(a) Whether the offer of alternative work as miners to the following workmen of Lakurka Colliery was legal and proper:

Sl. No.	Name of the workmen	Designation
1	Shri Munwa Bilaspuri	Drill Mazdoor
2	,, Pati Ram Bilaspuri	Do.
3	,, Ful Singh Bilaspuri	Do.
4	,, Bhagat Bilaspuri	Drillman
5	,, Buthalu Bilaspuri	Do.
6	,, Tehari Bilaspuri	Dresser
7	,, Pakla Bilaspuri	Do.

(b) If not, to what relief are they entitled?"

2. Shri S. Das Gupta and Shri Shankar Bose, both Secretary, Colliery Masdoor Sangh, appeared for the fifteen workmen and filed a joint petition of compromise dated 2nd February 1966 signed by Shri S. Das Gupta representing the concerned workmen on behalf of the Colliery Masdoor Sangh and by Shri I. K. Karnani, Director of M/s Lakurka Coal Co., Ltd., Lakurka Colliery and prayed that this reference be disposed of in terms of the said compromise as this is the real compromise and the previous compromise filed on 15th February, 1965 was my mistake filed in Reference No. 56 of 1963 because in reality it was meant for Reference No. 24 of 1964 and not at all for Reference No. 56 of 1963 and that compromise was no settlement of the dispute between the parties in the present reference, and as such the previous award dated 15th February, 1965 should be ignored as it is ineffective.

3. Today in Reference No. 24 of 1964 the compromise dated the 15th February,, 1965 which was filed in Reference No. 56 of 1963, on the joint petition of the parties was taken out of the file of Reference No. 56 of 1963 after correcting the Reference No. and put on the file of Reference No. 24 of

1964 and on the basis of the same an award, as asked by both the parties, has been passed in terms thereof.

4. In these circumstances, as the present compromise dated 2nd February, 1966, filed to-day on 3rd February, 1966, is the real compromise of the dispute in the present reference, an award has to be passed on the basis of the same, as rightly asked for by both the parties.

5. I have read the compromise, and, in my opinion, the terms are quite fair and reasonable and, therefore, I accept the same and record the compromise.

6. The Reference is accordingly disposed of in terms of the compromise dated 2nd February, 1966 filed before the Tribunal on 3rd February, 1966, which is marked Annexure "A" and an award in terms of the said compromise is passed and the said Annexure "A" is made a part of it.

7. This is the award which I make and submit to the Central Government under Section 15 of the Act.

[No. 2/29/63-LRII.]

New Delhi, the 5th April 1966

S.O. 1184.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of Shri N. K. Chaddha, Arbitrator, in the industrial dispute between the employers in relation to the Khas Mehtadih Colliery of Messrs Khas Mehtadih Colliery Company, Post Office Katrasgarh, District Dhanbad, and their workmen, which was received by the Central Government on the 30th March, 1966.

ARBITRATION AWARD UNDER SECTION 10A OF THE INDUSTRIAL DISPUTE ACT, 1947

PARTIES

Management of Khas Mehtadih Colliery of M/s. Khas Mehtadih Colliery Co., P.O. Katrasgarh (Dhanbad)—*Representing Employers.*

Colliery Mazdoor Sangh, Dhanbad—Representing Workmen.

The above named parties by an agreement, dated 24th February, 1965, agreed to refer the dispute for arbitration under Section 10A of the Industrial Disputes Act to the undersigned during the course of conciliation proceedings held by the Conciliation Officer (Central), Dhanbad-I. The said agreement was published by the Government, Ministry of Labour and Employment under their order, dated 1st April, 1965. The terms of reference are:—

"(A) Whether the action of the management of Khas Mehtadih Colliery of M/s. Khas Mehtadih Colliery Company, P.O. Katrasgarh (Dhanbad) in retrenching the following five workmen with effect from 8th February, 1965, was legal and justified? If not, to what relief the workmen are entitled to?

Names of the workers

1. Sri Bishni Bhar, Bailing Mazdoor.
2. Sri Jivit Gope, Bailing Mazdoor.
3. Sri Azim Mian, Pump Khalasi.
4. Sri Ganiruddin Mian, Pump Khalasi.
5. Sri Judhisthir Rajwar, Pump Khalasi.

(B) Whether the management of Khas Mehtadih Colliery of M/s. Khas Mehtadih Colliery Company, P.O. Katrasgarh (Dhanbad) was justified in suspending Sri Sahadul Mian, Minor for 8 days with effect from 4th December, 1964? If not, to what relief the workman is entitled to?"

The hearing was fixed for 22nd April, 1965, but had to be postponed on the request of the management of M/s. Khas Mehtadih Colliery. Next date was fixed for hearing on 26th August, 1965, and on this date the evidence of the witnesses on the workers side was recorded. They examined four witnesses. Next date of hearing was fixed for 15th November, 1965, but had to be postponed due

to other urgent occupations. Another date was fixed for 10th December, 1965, which was changed to 14th December, 1965, on the request of the parties. The management has produced many documents but evidence of only one witness has been got recorded. The written comments of the parties in respect of their case were received from the Union under their letter, dated 17th April, 1965, on 20th April, 1965 and from the management under their letter, dated 17th August, 1965, received on 20th August, 1965.

The case of the Union is that the workmen involved in the dispute are their members. There is a recognised union in the establishment and the workmen being members of the union to dislike of the management have been victimised. Work was available and the retrenched workmen could have been absorbed and that there are other Junior workers in the category in which these workers are engaged. By category, union here refers to the category of workmen as given in appendix XII to the Award of All India Industrial Tribunal (Colliery Dispute). They claimed that the retrenchment is unjustified and *malafide* and in breach of the provisions of the Industrial Disputes Act.

In case of Sri Sahadul Mian it is stated that he was charge-sheeted on 4th December, 1964, for robbing pillers and was suspended pending enquiry. Witnesses were cited by the workman but were not examined by the Enquiry Officer. The workman was threatened during the enquiry and he had to run away. The enquiry was not conducted properly and the punishment given is unjustified and illegal. The whole idea is to crush the supporters of Colliery Mazdoor Sangh.

The case of the management in brief is that they do not know who are the active or ordinary members of the Colliery Mazdoor Sangh. Due to reduction in working faces retrenchment had to be affected and was affected according to seniority—principle of 'last come first go' was followed. In another case the Government of India has also come to the conclusion that there was a need for retrenchment.

Sri Sahadul Mian was found guilty of similar charge in the past also. The allegations and insinuations made by the Colliery Mazdoor are denied and it is affirmed that proper enquiry was held and having been found guilty he was given punishment which has been considered reasonable by them.

Sri Arjun Chamar produced by the union has reported that he is bailing water and cuts coal. He does not get extra wages for bailing water and is doing this work for last 8/9 months. He admits that when he was not bailing water he used to cut and load one tub of coal which he does now also and that he takes one hour for bailing before coal is cut Later on he says that he gets As. 4 per day for bailing water.

Sri Patiram Chamar another witness on behalf of the union has deposed that Asu Mian, fireman is now working as bailing mazdoor. He says that he does not know whether Asu Mian gets fireman wages or the wages of bailing mazdoor. He admits in cross-examination that miners do not bail water and that Asu Mian works as bailing mazdoor.

Sri Ganiruddin Mian another witness deposes that he was retrenched 5 or 6 months before and one Sri Bhudan, main Khalasi is working in his place and one Sri Haradhan who was haulage khalasi is working as Pump Khalasi. He admits when cross-examined that he does not know how long Bhudan was learning the work of Pump Khalasi.

Sri Jivit Gope admits that he was fitter mazdoor for 3 to 4 years and was then given bailing work. He was working on bailing for last 3 years. He was given proping mazdoor work after his retrenchment in 1963 at the instance of Conciliation Officer and then was retrenched. After his retrenchment a new proping mazdoor was appointed and that bailing mazdoors are appointed now without entering the names in the Register.

The management has produced papers connected with charge-sheet served on Sri Sahadul Mian in May 1964; failure report submitted by Conciliation Officer (Central), Dhanbad in a case of retrenchment in April, 1965 and papers connected with it and have got the evidence of Sri S. D. Pathak, Labour Welfare Officer recorded. He conducted the enquiry in the charge-sheet against Sri Sahadul Mian. He affirmed that no new persons are recruited as bailing mazdoor or pump khalasi after retrenchment and that six more bailing mazdoors were retrenched after the retrenchment of persons in dispute. He also states that he had found Sahadul Mian guilty of the charge and he did not know that he was a member of Colliery Mazdoor Sangh. He did not prevent Sri Sahadul Mian from

producing witnesses and that Sri Radha Mohan, Overman had threatened Sri Sahadul Mian during enquiry is false. He admits that pump khalasis are either in category III or category IV and he does not know which of the pump khalasis are in category III or category IV and the seniority list was not drawn separately for category III and IV. At present also they have 12 bailing mazdoors and about 15 or 16 pump khalasis and they have no work for more. No bailing work is being taken from miners and no extra payment is being made for such type of work. He also admits that charge of disobedience was not levelled in the charge-sheet but Sri Sahadul Mian was found guilty of this charge during the course of enquiry. Sri Sahadul Mian was present throughout the enquiry and he did not leave the enquiry as suggested by the union.

I have carefully gone through the records produced, evidence deposed by witnesses and have also considered the arguments put forth by both the parties.

I find that the workmen have been retrenched after following due provisions of law. The retrenchment had to be from the type of work on which workers are found surplus and the grade laid down in Coal Award cannot be considered as a group in effecting retrenchment. There are various job descriptions placed in the same category and it may not be possible for a man doing one type of job to do and be considered for other job. As it is seen from the record, there were genuine reasons leading to retrenchment and I do not find any justification to come to the conclusion that the retrenchment was not legal and justified.

There should have been separate lists for category III and IV pump khalasis which has not been done. It has not, however, been suggested that any grade III pump khalasi is being required to do the job of grade IV pump khalasi against rules. Keeping this in view this omission of drawing separate lists of seniority for the two grade of Pump Khalasi before effecting retrenchment does not lead me to hold that retrenchment was not properly done. The overall position appears to be that there was a surplus strength which has been retrenched, giving the concerned workers due benefit admissiable under law.

It has been seen that one of the witnesses says that no extra payment is being made for bailing work but subsequently he says annas -/4/- per day is being paid for doing this work. A witness has stated that the bailing work has to be done for about an hour, but the same witness admits that the out-put of the work has remained the same as it was when this type of work was not being done. In these circumstances it is difficult to place reliance on these testimonies. If it is the contention that the workmen were being required to do the work, which is not a part of the job, it would be for these workmen to raise the dispute. To me in the circumstances the retrenchment appears legal and justified. It has been suggested in argument on behalf of the union that the management has not produced records of workers who were working after retrenchment. They could have called for the same and to rely on this omission, if at all considered as omission, would not be justified. It is doubtful if the records would reveal another story for the witnesses produced by the Union themselves have deposed that workers are being engaged without entering their names on record. However, these issues are not before me. Even if it is not admitted that these workmen were the members of Colliery Mazdoor Sangh, to allege victimisation only on this account does not appear convincing. No motive has been brought about. If there is any recruitments subsequently in the categories, their rights are secured by the provisions of law. The subsequent retrenchment proves the need to reduce the strength. I, therefore, hold that the action of the management of Khas Mehtadih Colliery in retrenching 5 workmen with effect from 8th February, 1965 was legal and justified and the concerned workmen are not entitled to any relief.

The perusal of the Enquiry Officer's report and evidence recorded by him shows that Sri Sahadul Mian was present during the enquiry and cross-examined witnesses but refused to sign. The perusal of the enquiry proceedings held against the same man earlier in May, 1964 also shows that he adopted the same tactics and refused to sign. The employee had fair chance for enquiry and apparently no injustice has been done. The Union has correctly pointed out that though he was charged only for the offence of robbing pillar, the Enquiry Officer has found him guilty not only of the charge made but also of disobeying the instructions of superior. The Enquiry Officer has acted beyond the scope of enquiry in coming to the finding of disobedience of reasonable order of the superior but no patent injustice appears to have been done. The worker has been found guilty of the charge alleged and has also been found guilty of some other charge which could have been levelled against him. The manager in awarding punishment has also mentioned both the charges, including the charge which

did not find place in the charge sheet but so long charge in the charge sheet stands established no injustice can be inferred. In this, I have also to take note of the punishment awarded. The punishment in this case is suspension for 8 days. The workman having been found guilty of similar charge in the past was awarded two days suspension then. Looking to all the record, this technical flaw does not justify the conclusion that enquiry was irregular. I accordingly held that the management was justified in suspending Sri Sahadul Mian for 8 days with effect from 4th December, 1964 and he is not entitled to any relief.

(g) a *bona fide* displaced person from East Pakistan and has migrated to India on or after January 1, 1964; *or*

(h) an Indian National who has migrated from Kenya, Uganda and the United Republic of Tanzania (formerly Tanganyika and Zanzibar); *or*

(i) a repatriate from Ceylon who is an Indian Citizen.

Provided that, a candidate belonging to categories (c), (d), (e) and (g) shall be a person in whose favour a certificate of eligibility has been given by the Government of India and if he belongs to category (f), (h) or (i) the certificate of eligibility will be issued for a period of one year after which such a candidate will be retained in service subject to his having acquired Indian citizenship.

A candidate in whose case a certificate of eligibility is necessary may be admitted to the examination and may also be provisionally appointed subject to the necessary certificate being granted in his favour by the Government.

4. (a) No male candidate who has more than one wife living or who having a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life time of such spouse, shall be eligible for appointment on the result of this competitive examination unless the Government of India after being satisfied that there are special grounds for doing so exempt him from the operation of this rule.

(b) No female candidate whose marriage is void by reason of the husband having a wife living at the time of such marriage or who has married a person who has a wife living at the time of such marriage shall be eligible for appointment on the result of this competitive examination unless the Government of India after being satisfied that there are special grounds for doing so exempt her from the operation of this rule.

5. The decision of the Commissioner as to the eligibility or otherwise of a candidate for admission to the examination shall be final.

PART III—EDUCATIONAL QUALIFICATIONS

6. The minimum academic qualification is a Degree of a recognised University.

PART IV—AGE

7. The candidate must have attained the age of 19 and must not have attained the age of 23 on the 1st April 1966 *i.e.* he must have been born not earlier than the 2nd April 1943 and not later than the 1st April 1947.

Note :—The upper age limit prescribed above will be relaxable :—

(i) up to a maximum of five years if a candidate belongs to a Scheduled Caste or a Scheduled Tribe;

(ii) up to a maximum of three years if a candidate is a *bona fide* displaced person from East Pakistan and has migrated to India on or after January 1, 1964;

(v) up to a maximum of four years if a candidate is a resident of the Andaman and Nicobar Islands;

(vi) up to a maximum of three years if a candidate is an Indian citizen and is a repatriate from Ceylon;

(vii) up to a maximum of three years if a candidate is a resident of the Union Territory of Goa, Daman and Diu;

(viii) up to a maximum of three years if a candidate is of Indian origin and has migrated from Kenya, Uganda and the United Republic of Tanzania (formerly Tanganyika and Zanzibar);

(ix) up to the age of 30 years on the 1st April, 1966, in the case of Departmental candidates who entered the Income-tax Department on or before the 7th March, 1962, and

up to the age of 28 years on the 1st April, 1966, in the case of Departmental candidates who entered the Income-tax Department after the 7th March, 1962, but not later than the 1st April, 1964;

(x) up to a maximum of 5 years if a candidate is a *bona fide* displaced Goldsmith.

These concessions will be admissible also to the following categories of candidates :—

(a) persons who have come on deputation to the office of the Central Board of Direct Taxes from the Income-tax Department and are holding 'excluded' posts;

(b) the staff working in the Directorates of Inspection (Income-tax)/(Investigation)/(Research, Statistics and Publication);

A candidate belonging to category (a) above can avail of the concession only in his parent Income-tax charge.

N.B.—Candidates who are admitted in the examination under age concession admissible to departmental candidates, will not be eligible for appointment if, after submitting applications, they resign from service either before or after taking the examination.

PART V—STANDARD AND SYLLABUS OF THE EXAMINATION

8. The subjects of the examination, the time allowed and the maximum marks for each subject will be as follows :—

A.	Subject	Time allowed	Maximum Marks
1.	General English	3 hours	150 marks.
2.	General Knowledge ..	2 hours	150 marks.
3.	Arithmetic	2 hours	100 marks.
B.	Interview	—	100 marks.

9. The syllabus of the examination will be as follows :—

General English.—Candidates will be required to write an Essay in English on one of the several specified subjects, to write a precis and to draft letters, memorandum, etc., making use of given matters.

General Knowledge.—Knowledge of current events and such matters of every day observation and experience in their scientific aspects as may be expected of an educated person who has not made a special study of any scientific subject. The paper will also include questions on History of India and Geography of a nature which a candidate should be able to answer without special study.

Arithmetic.—Questions of matriculation standard.

10. All question papers will be answered in English.

11. Candidates shall write the papers in their own hand. In no circumstances will they be allowed the help of an amanuensis (Scribe) to write down answers for them.

12. Only candidates who secure the percentage of marks prescribed by the Directorate will be called for the interview.

PART VI—FEE

13. Candidates must pay the following fees :—

Application and examination fee of Rs. 7.50 P. (Rupees 1.87 P. in the case of candidates belonging to a Scheduled Caste or Scheduled Tribe) of which Re. 1.00 should be paid by Crossed Indian Postal Order when asking for application form and connected documents, and the balance in the form of CROSSED INDIAN POSTAL ORDER payable to the Commissioner concerned at his Headquarters. Fees once paid will not be refundable on any account.

PART VII—ADMISSION TO THE EXAMINATION

14. Candidates will have to choose one of the Charges of the Commissioner to which they wish to be nominated and they can compete for the vacancies arising in that Charge only. They will also have to choose a centre within the Charge of the Commissioner to which they wish to be nominated. No candidate will be admitted to the examination unless he holds a certificate of admission from the Commissioner, whose decision in the matter will be final.

15. A candidate found guilty of impersonation, or of submitting fabricated documents or documents which have been tampered with or of making statements which are incorrect or false or suppressing material information, or of using or attempting to use unfair means in the examination hall or otherwise resorting to any other irregular or improper means for obtaining admission to the examination may, in addition to rendering himself liable to a criminal prosecution, be debarred, either permanently or for a specified period, from employment under the Central Government.

16. No documents except those required in the application form will be taken into consideration. Any attempt on the part of a candidate to obtain support for his candidature by any means shall disqualify him for admission.

Note :—Applications from persons already in Government service and/or Public Undertakings etc. will be entertained only if they are routed through their present employers. Advance copies of such applications can be sent direct to the Commissioner concerned for his information so as to reach him positively before the prescribed date for the receipt of applications, but unless the original

application is received by the Commissioner through the proper channel well in advance of the date of commencement of the examination, the candidates will not be permitted to take the examination. The decision of the Commissioner in such cases will be final and the applications received very late will be rejected without entering into further correspondence with the candidates.

PART VIII—TRAVELLING ALLOWANCE

17. No travelling allowance would be admissible either for appearing in the examination or for the interview.

PART IX—APPOINTMENT OF SUCCESSFUL CANDIDATES

18. The Commissioner shall prepare a list of a suitable number of successful candidates of his charge in the order of their merit and in that order candidates up to the number of reserved and unreserved vacancies in that Commissioner's Charge will be offered appointment as Inspector in his Charge.

19. The candidates will in the first instance be appointed temporarily and will be on probation for a period of two years. During that period they will receive a fixed pay of Rs. 210 plus the usual allowances and will be required to pass a departmental examination. Inspectors of Income-tax who qualify in the Departmental Examination prescribed for them in full within one year of appointment, however, may be allowed to draw their first increment only on completion of one year's service in the grade of Inspector. An Inspector who does not qualify in the Departmental Examination in full within one year will be allowed the first increment only when he qualifies in the Examination in full. Passing in the Departmental Examination will be an essential condition for successful completion of the probation and those who fail to qualify in the Departmental Examination will be liable to be discharged without assigning any reasons.

Note.—Success in the Examination confers no right to appointment unless Government are satisfied, after such enquiry as may be considered necessary, that the candidate is suitable in all respects for appointment.

PART X—DOCUMENTS TO BE SENT ALONG WITH APPLICATION FORM

20. *Crossed Indian Postal Orders.*—All postal Orders should bear the signature of the issuing Post Master and a clear stamp of the Issuing Post Office. All Postal Orders should be CROSSED and made payable to the Commissioner concerned at the Post Office located at his headquarters. In no case will Postal Orders payable at any other Post Office be accepted. Defaced or mutilated Postal Orders will also not be accepted.

21. *A Certificate of Age.*—A copy duly attested by a Gazetted Officer who should give his name and designation in full, of the Matriculation Certificate or the Secondary School Leaving Certificate or a certificate recognised by an Indian University as equivalent to Matriculation or an extract from a Register of Matriculates maintained by a University, duly certified by the proper authority of the University, in support of age.

Note.—Displaced persons who have lost their original Matriculation Certificate in Pakistan, should obtain a duplicate certificate from the University concerned. If they are unable to obtain a duplicate Matriculation Certificate from the University, they should submit an extract from the University Gazette in which their results were published showing their date of birth and certified by the Registrar or the Headmaster.

22. *Testimonials.*—Candidates who are not already employed in Government service must submit copies of two testimonials of a recent date from two responsible persons not related to them. These copies should be attested by a Gazetted Officer. The signatory of the testimonials as well as the attesting Officer should give his name and designation in full.

23. *A Certificate of Educational Qualification.*—Candidates must submit a copy of a certificate or diploma showing that they possess the qualifications prescribed for the post, duly attested by a Gazetted Officer who should give his name and designation in full.

24. *Two Copies of Photograph.*—Candidates must submit two passport size copies of their recent photograph, one of which should be pasted on the first page of the application form and the other should be firmly attached with the application form. Each copy of the photograph should be signed in ink on the front by the candidate.

25. A candidate who claims to belong to one of the Scheduled Castes or Scheduled Tribes should submit in support of his claim a certificate, in original in the form given below, from the District Officer or the sub-Divisional Officer or any other competent Officer indicated thereunder of the district in which his parents (or surviving parent) ordinarily reside and if both his parents are dead, of the district in which he himself ordinarily resides otherwise than for the purpose of his own education if he is receiving education in a different district.

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

26th March 1966

104549. Shyamapada Mookerjee. Ticket perforating machine.

104550. The Tata Iron & Steel Company Limited. Process of plastic coating.

104551. Associated Electrical Industries Limited. Improvements in or relating to steam valves of or for use in steam turbine installations. (2nd April 1965).

104552. V. S. Vaidya. A device to measure weight/forces giving expanded/magnified indication within small/limited range which is elevated in reference to the minimum weight/force below the minimum indication of such range, such expanded scale providing also visual and/or remotely operated (such remote control being electrical and/or mechanical) singal/indication of the weight/force under measurement at one or more specified/desired points in the magnified/expanded scale of measurement.

104553. Knapsack Aktiengesellschaft. Process for the manufacture of vinyl acetate.

104554. Rhone-Poulenc S. A. Dibenzocycloheptatriene derivatives and their preparation.

104555. The Goodyear Tire & Rubber Company. Improvements in improved pick breaking apparatus.

104556. Calumet & Hecla, Inc. Method of and structure for pressurizing tube sections.

104557. Caterpillar Tractor Co. Improvements in bonding machines.

104558. Standard Oil Company. Chemical process. [Addition to No. 103153].

104559. United States Steel Corporation. Thermomechanical treatment of steel.

104560. Rotary Profile Anstalt. The profiling of annular workpieces.

28th March 1966

104561. Chandrakant P. Shah. Improved pump device for drawing out liquids like oils chemicals, or acids or the like from a container of the like.

104562. Navnitlal Manilal Shah. Outfit for blood collection/storage/transfusion.

104563. Navnitlal Manilal Shah. Infusion/transfusion set.

104564. K. C. Dhalla. Improvements in or relation to dining-*cum*-coffee table or the like piece of furniture.

104565. Shah, N. P. Shah and A. P. Shah. Improvement in and modification of grinding mill.

104566. Itek Corporation. Data storage media.

104567. Itek Corporation. Photographic developer systems.

104568. Itek Corporation. Data storage systems.

104569. Itek Corporation. Data storage system.

104570. General Electric Company. Lightning arrester.

104571. General Electric Company. Molten metal sampler.

104572. Hitachi Ltd. Triple-axle (A-I-A type) truck structure provided with means for varying loads on axles.

104573. Nauchno-Issledovatelsky Institut Avtomobilnogo Oborudovaniya. Semi-conductor thermobattery.

104574. Rizhsky Zavod Medpreparatov. Method of producing antiniotic olcandomycin.

104575. Zavod thazhelogo mashinostroeni ja im. Ordzhonikidze "Uralmashzavod". Self-propelled rail manding means.

104576. Rhone-Poulenc S. A. Process for the preparation of 4-hydroxybenzonitrile.

104577. Allied Chemical Corporation. Process for the preparation of cyclohexanone.

104578. Allied Chemical Corporation. Dehydrodimerisation process using metal oxide catalysts.

104579. Corning Glass Works. Alignment and centring arrangement for movable machine parts.

104580. Girling Limited. Improvements in and relating to differential pressure operated boosters. (30th March 1965).

104581. Eastman Kodak Company. Method for producing a cigarette with low tar yield.

104582. International Business Machines Corporation. Nondestructive memory array.

104583. Fisons Pharmaceutical Limited. Pharmaceutical compositions. (17th December 1965).

104584. Luwa AG. Suction device in a carding machine.

104585. Ciba Limited. Process for the manufacture of acylamino compounds.

104586. Ciba Limited. Manufacture of Tetrahydro pyrimidines.

104587. Ciba Limited. Manufacture of aralkylamines.

104588. Ciba Limited. Manufacture of 3-substituted 1-aryl-3-benzazepines.

104589. Ciba Limited. Manufacture of basically etherified disphenols.

104590. Sir Robert McAlpine & Sons Limited. Helically reinforced pressure vessel. (14th April 1965). [Addition to No. 82710].

104591. E. H. Green. Method of filling aerosol containers and aerosol valve structure adapted for such method.

104592. Merck & Co., Inc. Nitromidazoles and process.

104593. Aktiebolaget Svenska Flaktfabriken. A method of admixing dust precipitated in an electrostatic precipitator to a liquid.

104594. Her Majesty's Postmaster General. Improvements in or relating to telecommunication switching systems. (29th March 1965).

104595. Ciba Limited. Manufacture of bicyclic pyrazole compounds.

29th March 1966

104596. Dr. M. R. Chivate. A Better reagent for the separation of m-cresol-p-cresol mixtures by extractive crystallisation.

104597. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for the finishing of paraffin sulfonic acids.

104598. Ceskoslovenska akademie ved. Hydrogel contact lens.

104599. Veb Fotochemische Werke Berlin. Method for coating photographic emulsions or auxiliary layers from low viscose fluids onto paper or film base by means of the immersion process.

104600. A. C. Ahuja. A match stick lighter.

104601. Bristol-Myres Company. Chemical process.

104602. Bell Aerospace Corporation. Rotor Construction.

104603. Ciba Limited. Process for the manufacture of new diepoxy compounds.

104604. Ciba Limited. Process for the manufacture of inorganic chlorides.

104605. Vickers Seerdrum Limited. New and improved feeding device. (30th March 1965).

104606. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Sulfonamides and process for the manufacture thereof.

104607. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Pyridazine compounds and process for the manufacture thereof.

104608. N. V. Organon. Immunochemical reagents and process for their manufacture.

104609. Jaggy & Company. Improved flash-light.

104610. Hitachi Zosen Kabushiki Kaisha. A process of producing ethylene dichloride.

104611. Ciba Limited. Manufacture of acylamino-compounds.

104612. N. V. Philips Gloeilampenfabrieken. Improvements in and relating to acidic tin depositing baths.

104613. Vibrator Manufacturing Company. Fluid driven vibrator. [Addition to No. 97871].

104614. National Polychemicals, Inc. Phosphite-borate stabilizers for rubber polymerizates.

104615. Rexall Drug and Chemical Company. Polymerization process.

104616. Compagnie Des Freins Et Signaux Westinghouse. Quick release valve for vehicles such as railway vehicles.

104617. Girling Limited. Improvements in and relating to servo motors for vehicle brake systems. (30th March 1965).

104618. Titangesellschaft MBH. Process for producing a rutile pigment.

104619. United States Steel Corporation. Apparatus for treating metal.

104620. United States Steel Corporation. Tabular conduit.

104621. Sperry Rand Corporation. Electric dry shaver.

104622. Monsanto Company. Shaped articles and their manufacture.

30th March 1966

104623. Chandra Industries. Electrical switch.

104624. Shell Internationale Research Maatschappij N. V. Novel herbicidal derivatives of 2, 6-dichorothiobenzamide. (1st April 1965).

104625. Telcon-Magnetic Cores Limited. Transformer cores and method of making same.

104626. Bendix-Westinghouse Automotive Air Brake Company. Improvements in or relating to fluid pressure brake systems.

104627. Corn Products Company. Process for preparing dehydrated foodstuffs and the resulting products.

104628. William V. Karr. Water production.

104629. Allmanna Svenska Elektriska Aktiebolaget. Air blast circuit breaker.

104630. Shell Internationale Research Maatschappij N. V. Substituted benzimidazole-1-(thio) carboxylic acid esters.

104631. Sperry Rand Corporation. Electric dry shaver.

104632. Herbert H. Hall. An intrauterine pessary.

104633. Pyrotector, Incorporated. Devices for detecting particles in a fluid suspending medium.

104634. Ciba Limited. Manufacture of N-substituted isoquinolines.

104635. Ciba Limited. Manufacture of 1-cyclopentene-carboxylic acids.

104636. Foseco International Limited. Production of sand moulds and the like. (31st March 1965).

104637. Societe D'etudes Scientifiques Et Industrielles De L'ile-De-France. A process for the production of 4-amino-5-halo-2-substituted benzamide derivatives.

104638. Prof. G. C. Tandan. Improvement in Non-collapsible tube.

104639. Ibcon Private Limited. A process for concentration of any liquor by a cycle of evaporation and condensation.

31st March 1966

104640. Mrs. Joyce Pefeira. Improvements in or relating to fasteners for use in safety-belts and the like.

104641. Veb Elektrokohle Lichtenberg. Process and device for the manufacture of carbon and graphite moulds.

104642. Ciba Limited. Manufacture of 1-aryl-3-benzazepines.

104643. Sandoz Ltd. Improvements in or relating to organic compounds. (1st April 1965).

104644. W. H. W. Schuller. An apparatus for producing fibres from vitereous material.

104645. Amchem Products, Inc. Herbicidal compositions.

104646. The Goodyear Tire & Rubber Company. Improvements in compositions of matter.

104647. S. P. Amoils. Improvements relating to cyrosurgical instruments. (13th April 1965).

104648. Metalastik Limited. Improvements in or relating to resilient devices.

104649. Armco Steel Corporation. Metal coating method and apparatus for use therewith. (13th August 1965).

104650. Sealed Power Corporation. Improvements in oil ring expanders.

104651. Licentia. Ekman & Brundin. Improvement in false ceilings.

104652. Cumberland Chemical Corporation. Vinyl acetate copolymers and process of making same.

104653. Cumberland Chemical Corporation. Paper coating compositions and products formed therefrom.

104654. Cumberland Chemical Corporation. Paint composition.

1st April 1966

104655. D. L. Shah. Improvements in or relating to flush type electric switches and the like.

104656. D. L. Shah. Improvements in or relating to flush type fuse-holder device.

104657. S. R. Nanavati. An advertising apparatus.

104658. Porous Plastics Limited. Improvements relating to porous materials. (1st April 1965).

104659. Painter Brothers Limited. Improvements in metal lattice structures. (14th January 1966).

104660. Lansing Bagnall Limited. Improvements in or relating to industriel trucks. (12th April 1965).

104661. International Business Machines Corporation. Record card verifying machine.

104662. Girdler Corporation. Catalyst for the steam reforming of naphtha and related hydrocarbons.

104663. Vereinigte Osterreichische Eisen-und Stahlwerke Aktiengesellschaft. Stationary, refractory-lined reaction vessel and steel making plant comprising such reaction vessel.

104664. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of polyene compounds.

104665. Verta Pertrix-Union Gesellschaft Mit Beschrankter Haftung. Galvanic Dry Cell. (3rd August 1965).

104666. Varta Pertrix-Union Gesellschaft Mit Beschrankter Haftung. Galvanic cell. (3rd August 1965).

Alteration of Date

104367. Anti-dated to 29th June 1964 under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of the Gazette of India give notice to the Patents office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8 Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specifications together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

94252. M. R. Rao Testing apparatus. Accepted on 15th March 1966.

Wherein a earphone is provided in the circuit between the tube and capacitor, the measurement of the electrical quantity being determined by the frequency of the sound heard from the earphone, frequency of sound being celibrated into electrical units.

94339. C. S. Lazcano. A stabilising composition for polyvinyl chloride and other halogen-containing resins. Accepted on 19th March 1966.

Comprises salts of Zn and Ca; zinc and Ba; zinc and Mg and the like and/or combinations of three salts such as Zn, Ba and Sr, Zn, Ba and Ca and the like, salts being formed from compounds such as maleic acid, itaconic acid and the like or its semi and partial esters or condensation products and/or free acids given above with or without a polyalcohol.

94400. Dana Corporation. Improvements in or relating to a clutch. Accepted on the 23rd March 1966.

Comprising driving means, drive means a stationary housing a pressure plate a rotatable housing and resilientmeans.

94416. Owens-Corning Fiberglas Corporation. Film faced firbous body. Accepted on 24th March 1966.

Having a body of mineral fibres, a layer of scrim material and adhesive means adhering the scrim material to the fibrous body.

94417. Deutsche Akademie der Wissenschaften zu Berlin, Process for chemical fixation of dyestuffs on natural or regenerated cellulose. Accepted on 24th March 1966.

Reacting dyestuffs containing one or more groups into which alkyl groups can be introduced dissolved in alkaline dye-bath with fixatives i.e. polyfunctional quaternary ammonium compounds.

94421. Societe Anolyme Des Usines Chausson. Fin or fin plate for cooling radiator core. Accepted on 24th March 1966.

Having a number of passage openings for tubes corresponding to the number of tubes that the core must comprise further characterised in that there is made in the fins at least one rectilinear cut whose slope in relation to the leading edge corresponds to the slope that the tubes must have.

94422. Miag Muhlenbau und Industrie G.m.b.H. Improvements in or relating to apparatus for continuously treating granular and/or powdered material. [Addition to No. 86480]. Accepted on 24th March 1966.

Characterized in that part of the pipe between tank and extractor is vertically adjustable and projects into the tank.

94434. P. Niederwemmer. Improvements in equipment for irrigating dry areas. Accepted on 26th March 1966.

Comprising channel-shaped arcuate plastic foils positioned in the ground, and a semi-tubular water supply element having holes.

94442. Aktiengesellschaft Der Von Moos' Schen Eisenwerke, and Concast A. G. Improvements in or relating to continuous casting plant. Accepted on 26th March 1966.

Arcuately curved oscellable permanent mould attached to the end of a lever and cooled with a coolant, at least one pipe for carrying an operational fluid being located in or on the lever.

94455. Rexall Drug and Chemical Company. Process for polymerizing α-olefins. Accepted on 28th March 1966.

Polymerising α-olefin in an inert diluent with a catalyst formed by contacting a reducible metal halide of Groups IVa, Va and VI with a reducible metal compound of Groups Ia and II.

94458. Rexall Drug and Chemical Company. Improvements in or relating to the process for producing polyethylene. Accepted on 28th March 1966.

Comprises applying and maintaining pressure on the liquid containing the initiator, greater than the maximum operating pressure extent in the reaction zone and continuously controlling the volume of liquid injected.

94466. Vereinigte Osterreichische Eisen-und Stahlwerke Aktiengesellschaft. Releasable bearing for refining vessels such as crucibles or converters. Accepted on 26th March 1966.

Providing a closed carrier body arranged to surround the vessel, on which carrier body the vessel remains supported by supporting means, the shape of the said body approximating a triangle, a square or a polygon.

94468. National Distillers and Chemical Corporation. Alfin catalysts and use thereof in polymerization. Accepted on 29th March 1966.

Mixing methyl-n-alkyl carbinol with excess metallic sodium to form sodium compound of carbinol intruducing alkyl halide into reaction mixture to form sodium halide and alkyl sodium finally reacting the alkyl sodium dilevinyl monoolefin to form sodium compound of vinul monoolefin.

94487. Stamicarbon N. V. Method and apparatus for determining the oxygen content of a gas. Accepted on 29th March 1966.

A gas mixture is introduced into a reaction chamber with an oxidisable substance, the accompanying heat effect being taken as a measure of the oxygen content.

94512. Indian Oxygen Limited. Method of and apparatus for refining molten ferrous metal. (2nd July 1963). Accepted on 26th March 1966.

The step of using the hot-waste gases leaving the converter to pre-heat a charge of solid ferrous scrap contained in a second top-blown converter, prior to its melting and refining in the second converter.

94523. N. P. Industries. Improvements in or relating to torches operated by one or more batteries. Accepted on 30th March 1966.

At least two independent metallic contact strips are provided which extend in opposite directions along the inner surface of the container, a switch being provided to establish contact between said metal strips.

94545. E. K. Cole Limited. Improvements in or relating to an I. F. amplifier for radio receivers. (6th July 1963). Accepted on 30th March 1966.

Comprises two separate sections, having a first filter disc which has as overtime frequency, and other section having a second filter disc either one of the said section is connected into the input circuit and output circuit.

94591. The Ensign-Bickford Company. Safety fuse particularly for mining operation. Accepted on 26th March 1966.

Having a protective sheath of synthetic plastic material with a generally internal cellular or foamed structure.

94601. Morgardshammars Mek. Verkstads Aktiebolag. Improvements in a rolling mill. Accepted on 29th March 1966.

Comprising a roughing mill, cooling bed and/or coiler means being characterized by one or a plurality of finishing rolling mills comprising a suitable number of rolling mill stands.

94639. Amta Industries (India). Triple lift mechanical jack. Accepted on 28th March 1966.

Triple lift mechanical jack, vertical ram, 3 telescopic ram-section, external and internal teeth base/bed plate.

94707. Veb Fotochemische Werke. Berlin. Gelatine coatings containing triglycidyl-iso-cyanurate as hardener. Accepted on 29th March 1966.

Triglycidyl-iso-cyanurate is used as a hardener.

94713. Magyar Hajo Es Darugyar. Jib crane, especially whipping crane with balancer. Accepted on 29th March 1966.

The inclined path slopes against the centre line of gravity of the crane for which purpose at least one sleave being provided for the guide of the jib cable.

94734. Siemens & Halske Aktiengesellschaft. Device for amplifying and/or modulating electrical waves. (1st April 1964). Accepted on 29th March 1966.

At least one emissive diode forming the input and at least one photo diode forming the output, are optically coupled with one another, although physically separated.

94765. Allied chemical Corporation. Amino aryl compounds and process for their preparation. Accepted on 25th March 1966.

Aminoaryl compounds are prepared by reacting an aromatic amine containing at least one hydrogen atom in a position ortho or para to the amino group with a corresponding compound in the presence of as catalyst, an acid activated clay.

94767. Council of Scientific and Industrial Research. An improved cast iron pot for the melting and holding of non-ferrous molten metal in general, and aluminium and zinc in particular, Accepted on 26th March 1966.

Having cast-in or welded on vertical rectangular internal fins on the inner four sides of the melting pot.

94775. International Business Machines Corporation. Improvements relating to printed circuit micromodules. Accepted on 30th March 1966.

Includes printing on a substrate a conductive pattern embracing holes through said substrate firing the substrate and securing terminals.

94849. D. Fisher. Designs producing instruments or apparatus.' (25th July 1963). Accepted on 26th March 1966.

Comprising an internally toothed primary member, and an externally toothed secondary member, the teeth of the members being in mesh, and aperture/s on the secondary member for accommodating pen, pencil or the like.

95016. Dow Corning Corporation. Silicon polyimides. accepted on 28th March 1966.

By reacting an aromatic compound having atleast three carboxylic group per molecule with a silicone amine.

95065. Sparkler Manufacturing Company. Apparatus for use in filtering fluids. Accepted on 30th March 1966.

Comprises a vessel comprising a tank and a cover reciprocally move to each other but adapted to fit together and conduit means reciprocally movable within the vessel.

95237. Johns-Manville Corporation. Method and apparatus for the manufacture of pipe. Accepted on 31st March 1966.

An electric current is passed through the pipe and the conductive surface of the mandrel, prior to the end of the forming cycle, to loosen the bound between the pipe and the mandrel.

95308. J. L. Lewis, R. B. Browne and J. M. Browne. Improved pump. Accepted on 26th March 1966.

Comprising a second rotor positioned within a first rotor to define a space between the rotors, means carried by at least one of the rotors to divide the space into compartments and means to selectively connect inlet and outlet ports to the compartments during rotation of the rotors.

95420. Council of Scientific and Industrial Research. Improvements in or relating to soldering of aluminium cables. Accepted on 30th March 1966.

A flux composition is having for its ingredients an organic aliphatic amine as the solvent base.

95438. Standard Telephones and Cables Limited. Improvements in or relating to transducer assemblies. (8th October 1963). Accepted on 31st March 1966.

Comprises the steps of supporting diaphragm in a die applying a and to said diaphragm, and moving said rod relating to said diaphragm.

95481. The English Electric Company Limited. Improvements in or relating to electrical insulation for electrical commutators and commutators incorporating such insulation. (9th September 1963). Accepted on 30th March 1966.

Electrically insulated ring, commutator, commutator segments, clamping means mica material resin bonded fibrous material.

95578. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to storage devices. Accepted on 8th March 1966.

Comprising two transistors having their control electrodes connected through high resistors, the source electrodes being connected to voltage points.

95579. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to identification apparatus. Accepted on 8th March 1966.

Comprises means for absorbing energy means for feeding this energy to an oscillator, means to drive a motor producing a pulse sequence.

95585. The Goodyear Tire & Rubber Company. Improvements in improved promoted cracking process for olefins. Accepted on 30th March 1966.

In presence of 0.005 mol/mol of one cracking promotor formed by reaction of the mole of hydrogen sulphide and one or two mols of amine to cleave carbon-to-carbon single bond in position beta to double bond of olefin.

95636. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Water-soluble metalliferous monoazo dyestuffs and process for preparing them. Accepted on 29th March 1966.

1-aminobenzene or aminonaphthalene-β-hydroxy or haloalkyl sulfone is diazotised and coupled with a coupling component of the resorcinol series.

95725. Westinghouse Brake and Signal Company Limited. Brake distributor apparatus. (3rd October 1963). Accepted on 21st March 1966.

A control reservoir charging valve, a quick service valve and actuator means for controlling the quick service availability substantially simultaneously with the opening and closing of the control reservoir charging valve.

95731. Dow Corning Corporation. A new process for making siloxane polymers from silanes. Accepted on 21st March 1966.

Comprises hydrolysis of halosilanes with an aqueous solution of a basic material at a PH of 7-11, in the absence of solvents, the product consisting of over 90% of non-cyclic hydroxylated siloxanes.

95742. Administrator Trust. Improved apparatus for handling barrels. Accepted on 21st March 1966.

Comprising a support unit for the barrel and a unit for rolling the barrel which may be secured to the unit for supporting the barrel, the supporting unit having telescopic arms with locking means for co-operating with the projecting edge of the barrel.

95743. J. R. M. Michielsen. Process and apparatus for the preparatory grinding of the rough conical shape of precious stones. Accepted on 21st March 1966.

Starting off urin two stones precut in round shape and having eventually also the table precut disposed in such a manner that their longitudinal axes are located in one place.

95748. Monsanto Chemicals Limited. Production of moulds. Accepted on 22nd March 1966.

Coat fusible pattern with a slurry (acid PH) containing fine refractory filler and silicious binding agent, place coated pattern in a chamber in which ammonia is injected.

95774. Aktiengesellschaft der von Moos'schen Eisenwerke and Concast AG. Continuous casting apparatus. Accepted on 23rd March 1966.

Comprising guide means including secondary cooling equipment and bearing means.

95780. The Bendix Corporation. Improvements in or relating to a motion transmitting system. Accepted on 23rd March 1966.

Comprises a servo-motor dependent on the motion of the input member and its power member operatively connected to the output member, and a feedback device for exerting onto the control member an action balancing the action of the input member thereon.

95789. Shell Internationale Research Maatschappij N. V. Lubricant composition containing phosphorus compounds. Accepted on 24th March 1966.

A lubricant composition comprising a hydrocarbon lubricant and an oil soluble carbamoyl or thiocarbamoyl phosphorous compound.

95795. H. B. Leong. Improvements in or relating to waste liquid traps. (26th March 1964). Accepted on 25th March 1966.

Having a partition dividing the body member into an upper chamber and a lower chamber, the partition being spaced from the outlet of the body member and continuing above the normal level of liquid in the trap.

95825. Shell Internationale Research Maatschappij N. V. Vessel for collecting matter floating on the water. Accepted on 28th March 1966.

Characterised by a pair of booms floating on water, which can form an angle with each other and of which one end is attached to the vessel, a vortex inlet attached to the vessel and communicating with an inlet compartment consisting of separating tank (s) and means for discharging the impurities and water from the tanks.

95832. Icpetit S.p.A. Material of high absorbent power and high specific surface and procedure for its manufacture. Accepted on 28th March 1966.

Consisting of treating the ash of half burnt rice husks with aqueous clay suspension, to obtain granulate and baking it in furnace at 1100°C and finally sieving the cold mixture and sub-dividing the product into granulometric types.

95859. Kurashiki Rayon Kabushiki Kaisha. Auxiliary packing appliance of the rayon cake. Accepted on 28th March 1966.

Having at least two legs on the outside of a cylinder which has the inside diameter slightly larger than the outside diameter of the rayon cake and has a height greater than that of the rayon cake, the said legs being rotatively and symmetrically attached to the outside surface of the cylinder.

95860. Kurashiki Rayon Kabushiki Kaisha. Cone packing machine. Accepted on 28th March 1966.

Comprising a round base plate provided at its centre with a circular projection and a cone guide at its edge and a piston moving vertically downward above the centre of the base plate.

95863. Fuji Iron & Steel Company, Limited. Method and apparatus for manufacture of H-section steel having surface projections. Accepted on 30th March 1966.

Manufacturing H-section steel with projections by rough rolling to H section first and then by rolling with rolls having notches on their contacting surface.

95876. R. N. Singh. Improvements in or relating to a birth control appliance. Accepted on 30th March 1966.

Comprises a passary provided with a hollow stem S adapted to enter the opening.

95879. Veb Schaumglaswerk Taubenbach, Schmiedefield Kreis Nunaus am Rennweg. Process for the fabrication of foam glass. Accepted on 25th March 1966.

The glass with a high content of SO_3 or another C-carrier is ground up in the presence of water or steam and the powdery mass is heated to 200°C first and then to 800° to 900°C.

95912. Imperial Chemical Industries Limited. Process for the manufacture of aniline and other primary monoamino mononuclear aromatic compounds. Accepted on 25th March 1966.

By liquid phase catalysed hydrogenation of mononitro mononuclear aromatic hydrocarbons.

95971. Kabushikikaisha Yokogawa Denki Seisakusho. Taut band suspension instrument. Accepted on 25th March 1966.

Tension sparing, slot, resilient sheet stop pin, suspension band suspending moving element.

95986. A. Favaro. Improvements in or relating to the wickets for letter box. Accepted on 31st March 1966.

Witket for letter box element of the battery type, is provided with a horizontal H-section iron, the upper part of which is formed to retain a cylindrical bar fixed at the 2 ends of the battery, allowing the opening of the wicket by adjustable resistance.

96013. Aktiebolaget Kamyr. Container for the bleaching of cellulosic pulp. Accepted on 30th March 1966.

The bottom of the container forms a mixing chamber provided with agitating means in which the chamber the pulp can be mixed thoroughly at a comparatively low consistency with bleaching agents and which chamber is separated from the rest of the container by a screen body having open areas for the passage of the pulp.

96050. Toyo Rayon Kabushiki Kaisha. Process of solution polymerization of acrylonitrile, polymer obtained by said process, and filaments thereof. Accepted on 30th March 1966.

Solution polymerizing acrylonitrile using dimethyl sulphoxide as solvent, an azobis compound as catalyst and a hydroxylamine salt.

96058. A. D. Settembrini. Improvements in or relating to machines for manufacturing plastic containers. Accepted on 26th March 1966.

Characterized in that extrusion axis is offset with respect to the joint plane of the fixed half-mould by a distance at least equal to half the diameter of the extruded tubular blank.

96079. Birfield Engineering Limited. Improvements in or relating to rotary seals. (21st October 1963). Accepted on 31st March 1966.

Roller for a rotary member comprising a sealing ring mounted on its end surrounding axis of rotation and an annular resilient wiper ring mounted on the groove on radial face of sealing ring engaging end face of rotary member.

96131. Veb Elektro-Apparate-Werke Berlin-Treptow. Arrangement for the control of the release of a bimetallic relay. Accepted on 28th March 1966.

Transmission link, adjusting leg, bimetallic strips, two arm levers, adjusting screws, control rod.

96136. E. Merck Aktiengesellschaft. Alumina-based chromatographic adsorbents. Accepted on 30th March 1966.

Comprising a particulate component consisting of a member of the Al_2O_3, H_2O system having a particle size of less than 1 micron, and a conventional particulate adsorbent alumina.

96167. Westwing Developments Limited. Improvements in or relating to air driven turbines. (24th October 1963). Accepted. on 30th March 1966.

Comprising a rotor, a head piece on said rotor of greater diameter than the rotor, characterised by the means for maintaining an air bearing film between the head piece and the thrust bearing surface.

96168. Indian Oxygen Limited. Improvements in profile cutting machines. Accepted on 25th March 1966.

Cross beam being provided with guide pulleys between which is held a flexible substantially inextensible element in the form of a taut loop with its two strands extending along the beam.

96184. Standard Telephones and Cables Limited. Measuring apparatus. (8th November 1963). Accepted on 31st March 1966.

Comprises means for making a series of marks, means for detecting pairs of said marks, means for conveying said article, means for measuring each difference, means for recording the algebraic sum and means for counting the marks detected.

96193. E. H. Green. Variable spray pressurized valve mechanism. Accepted on 26th March 1966.

Characterized by a plurality of circumferentially spaced vertical grooves, each groove being of different cross sectional area.

96315. Prakash Agricultural Implements Manufacturing Co. Improvements in or relating to seeder device. Accepted on 28th March 1966.

Has (i) *a box-like structure mounted on a chassis frame, a seed-box, one or more disc wheels mounted on a horizontal shaft passing through the side members of the box-like structures and having spaced apart half-round slots; inlet holes in the top plate of the box-like structure registering with the half-round slots in the disc wheels a sheep-foot wheel; an endless chain or like gear mechanism between the shaft and the sheep-foot wheel.*

96355. Hienrich Koppers Gesellschaft Mit Deschrankter Haftung. Process for the production of gases of high calorific value. Accepted on 30th March 1966.

A mixture of finely divided fuel and hydrogen is introduced in a reaction chamber and made to react at temperature in the range 700° to 900°C.

96397. Potasse Et Engrais Chimiques. Process for recovering oxides of nitrogen. Accepted on 26th March 1966.

Comprising the steps of scrubbing said gaseous effluents with an aqueous suspension of calcium hydroxide and adding sulfuric acid whereby the nitrite present in solution is oxidised and nitric oxide is evolved.

96399. Siemens & Halske Aktiengesellschaft. Improvements in or relating to voltage regulators. (18th September 1964). Accepted on 26th March 1966.

Including a.d.c. source connected to the load via transistor gate and measuring means to provide a control signal dependent upon the voltage supplied to the said load.

96597. Allied Chemical Corporation. Stabilised composition of isocyanuric acid derivatives. Accepted on 25th March 1966.

Consists of trichloroisocyanuric acid, dichlorisocyanuric acid or an alkali metal dichloroisocyanurate, or two or more of these and a solid non-ionising aromatic compound which has at least two aromatic and is a solid at 25°C.

96668. Sir James Farmer Norton & Co. Limited. Improvements in or relating to dyers' jiggers. (28th November 1963). Accepted on 20th March 1966.

In which at least one of the draw rollers is hollow and perforated and means is provided for supplying wash liquor or other treating fluid.

96680. The British Petroleum Company Limited. Process for the production of detergent alkylate. Accepted on 26th March 1966.

Dimerising propylene in presence of a catalyst consisting a cobalt supported on active carbon, separating n-hexenes, dimerising said n-hexenes in presence of a catalyst in a second dimerisation stage and condensing the product with an aromatic hydrocarbon.

96688. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing glass articles having a high mechanical strength. Accepted on 29th March 1966.

Immersing glass articles in a bath of molten potassium nitrite characterises in that stannic oxide, metallic tin or metallic aluminium is added to the bath of potassium nitrite.

96916. Standard Telephones and Cables Limited. Electrical lead connections. (31st January 1964). Accepted on 22nd March 1966.

Conductive core; dielectric coating; an electrode, insulating material.

97081. Allmanna Svenska Elektriska Aktiebolaget. Transformer differential protection. Accepted on 26th March 1966.

Includes a pulse generating device arranged to give an output signal in the form of pulses as long as the absolute value of the difference magnitude is at least as great as the absolute value of a reference magnitude and both magnitudes at the same time have the same polarity, the length of the pulses being determined by the time during which the instantaneous values of the difference magnitude exceeds the reference magnitude.

97242. I. Jeifetz. A tool for cutting and unhusking sugarcane or any similar plant. Accepted on 25th March 1966.

A hollow handle, tapered cutter, cutter blade.

104367. National Distillers and Chemical Corporation. An improved process for the controlled polymerization of unsaturated organic compounds. [Divisional date 29th June 1964]. Accepted on 29th March 1966.

Polymerizing two conjugated diolefinic hydrocarbons and styrene in presence of an alfin catalyst consisting of sodium alkoxide, sodium alkenyl compound and alkali metal halide and in presence of a dihydro aromatic hydrocarbon such as 1,2-dihydrobenzene.

Opposition Proceedings

(1)

The opposition entered by Arya Kumar Mitra to the grant of a patent on application No. 80768 made by Ranjit Kumar Sen Gupta, as notified in Part III, Section 2, of the Gazette of India, dated the 26th October 1963, has been allowed.

(2)

The opposition entered by The Gateside Mills Company Limited to the grant of a patent on application No. 86417 made by Hindusthan Bobbin Industries, as notified in Part III, Section 2, of the Gazette of India, dated the 10th October 1964, has been treated as abondoned.

(3)

An opposition has been entered by The Dow Chemical Company to the grant of a patent on application No. 88083 made by Pittsburgh Plate Glass Co.

Correction of Clerical Errors

(1)

Under Section 62, of the Indian Patents and Designs Act, 1911, certain clerical error occuring in the application, specification and drawings in respect of patent No. 87289 was corrected on 25th March 1966.

(2)

Under Section 62, the Indian Patents and Designs Act, 1911, certain clerical errors occuring in the specification in respect of patent application No. 87664 was allowed on 30th March 1966.

(3)

Under Section 62, of the Indian Patents and Designs Act, 1911, certain clerical errors occuring in the specification in respect of patent application No. 88874 was corrected on 26th March 1966.

(4)

Under Section 62, of the Indian Patents and Designs Act, 1911, certain clerical errors occuring in the application and specification in respect of patent application No. 91090 was corrected on 23rd March 1966.

Amendment Proceedings

Notice is hereby given under Section 17, of the Indian Patents and Designs Act, 1911, that J. T. Baker Chemical Company, a corporation organised under the laws of the State of New Jersey, United States of America, of Phillipsburg, State of New Jersey, United States of America, seek leave to amend the description in the specification in respect of patent application No. 93429. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

The amendment proposed by Jeco Company Limited in respect of patent application No. 90248 as advertised in the Gazette of India Part III, Section 2, dated the 18th December 1965, has been allowed.

(3)

The amendment proposed by Russell Pearce Heuer in respect of Patent application No. 90717 as advertised in Part III, Section 2, of the Gazette of India dated the 25th December 1965, has been allowed.

Rectification of the Register of Patents

Notice is hereby given that an application has been made under Section 64, of the Indian Patents and Designs Act, 1911, for rectification of the Register of Patents in respect of Patent No. 85004. The application may be inspected free of charge at the Patent Office and copies thereof may be obtained from the Patent Office on payment of Rs. 2 only. Any person desirous of

opposing this application should leave a notice on form 6 of the Indian Patents and Designs Rules, 1933 at the Patent Office, 214, Lower Circular Road, Calcutta-17 on or before the 28th May 1966.

तीस हजार या उससे अधिक जनसंख्या वाली नगर पालिकाओं की जन्म तथा मृत्यु दरें नीचे दी हैं। ये दरें वर्ष के अन्त तक प्राप्त किए आंकड़ों पर निर्धारित हैं। समय-समय पर जो साप्ताहिक आंकड़े इस परिशिष्ट में प्रकाशित हुए हैं उन पर निर्धारित 1962, 1963 और 1964 की वार्षिक दरें भी दी हैं। संभवतः इन दरों से वर्तमान प्रवृत्तियों का अनुमान लगाने में उपयोग किया जा सकता है। अगर किसी नगर के आंकड़े प्राप्त नहीं थे तो उसकी जनसंख्या भी दर निकालने में छोड़ दी गई है। कुछ प्रदेशों की दरें इसलिए नहीं दी गई हैं कि वे बहुत ही अपूर्ण हैं। जिन प्रदेशों का विवरण भी दिया है उनकी दरें भी कहीं अधिक, कहीं कम अपूर्ण हैं। इनको पूर्ण करने के लिए प्रयत्न करना होगा।

अन्तिम व साप्ताहिक आंकड़ों में कितना भेद है इसका अनुमान उन पर निर्धारित वार्षिक दरों से किया जा सकता है। केवल गुजरात, पंजाब और उड़ीसा के दोनों दर बहुत कुछ मेल खाते हैं। परन्तु अन्य सभी प्रदेशों की दरों में बहुत कुछ अन्तर है। अन्यथा संयोजित आठ प्रदेशों की दरें बहुत कुछ मिलती-जुलती हैं। जिससे यह प्रतीत होता है कि यदि प्रदेशों के आंकड़ों को पूर्ण करने के लिए प्रयत्न किया जाए तो साप्ताहिक आंकड़े भी वर्तमान प्रवृत्तियों के अध्ययन करने में उपयोगी हो सकते हैं।

(The table given below shows the annual vital rates for each of the years 1959—62 for all municipal towns, each with population 30,000 and over based on the final yearly data. The corresponding annual rates for 1962, 1963 and 1964 compiled from the weekly figures, which were published from time to time in this Supplement, are also shown to draw attention to their possible use in tracing current trends.

Appropriate adjustments in the population base were made in cases, where the data for any town could not be included. The rates for States not shown are much too deficient for being presented. Even the data for States, which are shown are deficient to a varying degree. Efforts have to be made to improve the completeness.

The two sets of rates for 1962—one based on the annual returns and the other on weekly returns—are presented to give an idea of the extent of variation between the final and the weekly figures. The two agree closely in the case of Gujarat, Punjab and Orissa only, otherwise for other States the difference is quite appreciable. However, the rates for all the eight States combined agree fairly well showing that, perhaps with emphasis on the improvement of the completeness of State figures, they may help in a study of current trends.)

REPORT OF THE SELECT COMMITTEE

I, the Chairman of the Select Committee to which the Bill* to provide for the constitution of a High Court for the Union territory of Delhi, for the extension of the jurisdiction of that High Court to the Union territory of Himachal Pradesh and for matters connected therewith was referred, having been authorised to submit the report on their behalf present their report, with the Bill as amended by the Committee annexed thereto.

2. The Bill was introduced in Lok Sabha on the 6th December, 1965. The motion for consideration of the Bill was moved by Shri Jaisukhlal Hathi, the Minister of State in the Ministry of Home Affairs, on the 9th December, 1965. On the 15th February, 1966, Shri Hathi moved a motion for reference of the Bill to a Select Committee which was adopted on the same day.

3. The Committee held five sittings in all.

4. The first sitting of the Committee was held on the 16th February, 1966, to draw up a programme of work. The Committee at this sitting decided to hear evidence from associations, etc., desirous of presenting their views before the Committee and to issue a press communique inviting memoranda for the purpose. The Committee also decided to hear the views of the concerned Bar Associations, if they so desired.

5. The report of the Committee was to be presented by the 28th February, 1966. As this could not be done, the Committee, at their first sitting held on the 16th February, 1966, decided to ask for extension of time for presentation of their report upto the 4th April, 1966. Necessary motion was brought before the House and adopted on the 22nd February, 1966. At their third sitting held on the 1st April, 1966, the Committee decided to ask for further extension of time upto the 18th April, 1966 which was granted by the House on the 4th April, 1966.

6. Eleven memoranda/representations/resolution on the Bill were received by the Committee from different Bar Associations/associations/individuals.

*Published in the Gazette of India, Extraordinary, Part II, Section 2, dated the 6th December, 1965.

7. At their second and third sittings held on, the 14th March and 1st April, 1966, the Committee heard the evidence given by the representatives of two associations, namely P C.S. (Judicial Branch) Association, Punjab and Delhi, New Delhi and the District Bar Association, Gurgaon, respectively.

8. The Committee have decided that the evidence given before them should be laid on the Table of the House *in extenso.*

9. The Committee considered the Bill clause by clause at their third and fourth sittings held on the 1st and 5th April, 1966.

10. The Committee considered and adopted the report on the 11th April, 1966.

11. The observations of the Committee with regard to the principal changes proposed in the Bill are detailed in the succeeding paragraphs.

12 *Clause* 1 *and enacting formula.*—The changes made therein are of a consequential nature.

13. *Clause* 4—The Committee feel that since there will be no Chief Justice of the Delhi High Court in office before the "appointed day", the provision in Article 217 of the Constitution regarding consultation with the Chief Justice of the High Court by the President should not be made applicable to appointment of other Judges of the High Court before the "appointed day".

Sub-clause (1) (a) of the clause has been amended accordingly.

14 *Clause* 9.—The amendment is of a drafting nature

15 *Clause* 16—The Committee are of the opinion that on the coming into being of the Delhi High Court, all proceedings in respect of suits the value of which exceeds twenty-five thousand rupees and which are pending before subordinate courts in the Union territory of Delhi should stand transferred to the Delhi High Court

The clause has been substituted accordingly

16. *Clause* 17—Consequent upon the amendment made in clause 16, a corresponding provision has been made in sub-clause (7) with regard to the Union territory of Himachal Pradesh.

17. *Clause* 18.—The amendments made in the clause are of a drafting nature.

18. *Clause* 20.—The Committee are of the view that the orders made by the Central Government under this clause should be laid before each House of Parliament and they should be subject to modification, if any, by Parliament. Necessary provision has been made for this purpose by adding new sub-clause (2).

19. The Select Committee recommend that the Bill as amended be passed.

NEW DELHI.
The 11*th April*, 1966.

S. V. KRISHNAMOORTHY RAO,
Chairman,
Select Committee.

MINUTES OF DISSENT

I

According to the Constitution (Art. 241) there can be established a High Court for a Union territory and Art. 241(4) declares that "Nothing in this article derogates from the power of Parliament to extend or exclude the jurisdiction of a High Court for a State to, or from, any Union territory or part thereof" which means that the jurisdiction of a High Court for a State can be extended to a Union territory or a part thereof but it is clear that the jurisdiction of a High Court cannot be extended, so as to include any other Union territory. Here in this Bill both Delhi and Himachal are Union territories. This requires amendment of the Constitution and it cannot be deemed to have been done by this Bill by itself.

2. The areas surrounding and near Delhi are Districts Hissar, Mohindergarh, Gurgaon, Rohtak, Karnal and Ambala of Punjab. It is well established principle of justice that it should be efficiently and cheaply available. It is in the interest of public and in consonance with the principle that there should be a common High Court for these Districts of Hariana and Delhi (which is in common parlance called old Delhi Territory—with custom and law common to them since times immemorial). The Bar Associations of these areas have also demanded it and submitted memoranda and led evidence. If clause 4 of the Bill amounts to amendment of Constitution, it can be also to same effect if these Districts are also in the extended jurisdiction of Delhi High Court and amendment can be made.

3. Himachal Pradesh area is 200 miles to 500 miles away from Delhi, with Hariana area of Punjab intervening, while the areas of Hariana mentioned above only 15 to 80 miles away and contiguous. On grounds of justice, convenience, good of public there should be common High Court for these areas of Hariana Prant and Delhi.

4. Now that it has been declared that there is to be Punjabi Suba and Hariana Pradesh or Prant and also some material changes in Himachal Pradesh *i.e.*, inclusion of Kangra, Kullu, Lahaul and Spiti Districts in that Pradesh, another Bill shall have to be brought

to include these areas under the High Court of Delhi and constitutional amendments would be necessary. This process is being expedited and boundary commission is being appointed for demarcation and at the latest, these States are to be established by October, 1966. It is also not certain whether new Himachal Pradesh is to be a State or a Union territory and, therefore, very many changes shall be necessary, including those of the Constitution. Further, the assurance that there should be a permanent Bench at Simla, would cause huge unnecessary expenditure to the States and the Centre.

5. In view of what has been stated above, it is advisable and in public interest and to avoid complications and difficulties, that till the question of further division of Punjab by metes and bounds is decided, this Bill be kept in abeyance, as it would require amendments in the light of delimitation of Punjabi Suba, Hariana Prant and Himachal Pradesh.

The point that it would delay this matter is not very material or valid ground, since this Bill cannot be passed till monsoon session of Parliament and by that time the Bill for creation of Punjabi Suba etc. would also be passed and in summer the High Court remains closed for about two months.

6. When the division of Punjab and creation of Punjabi Suba, Hariana Prant and Himachal Pradesh is established and there would be clear picture for enacting the law and there would be no constitutional difficulty or doubts, as there can be, rather there shall be High Court for a State and thus there can be a High Court for Hariana Prant (State) and its jurisdiction can be according to Art. 241 of the Constitution extended to Delhi (Union) territory and even Himachal Pradesh if it remains a Union territory. There is no prohibition according to Constitution that the seat of the High Court be at Delhi with a common High Court for Hariana Prant and Delhi (also Himachal Pradesh).

7. Considering all the aspects it is desirable that it be kept in abeyance, as stated above or in the alternative be amended so as to have its jurisdiction over Hariana Prant area and clause (4) may be deemed as amendment of the Constitution, with this provision.

NEW DELHI; GAJRAJ SINGH RAO.

The 11th April, 1966.

II

When the Delhi High Court Bill was on the anvil of Parliament, and was being considered by a Select Committee of the House, a decision was taken by Government to reorganize the State of Punjab on a linguistic basis. This decision should have induced second thoughts on the part of Government with regard to this Bill.

With Punjabi Suba and Haryana State in the offing which will probably affect the status of Himachal Pradesh as a separate entity, the Bill should either have been withdrawn or kept in abeyance.

Clause 17 of the Bill seeks to extend the jurisdiction of the High Court of Delhi to the Union territory of Himachal Pradesh. The future of Himachal Pradesh is now in the balance. Moreover, it would be practicable to have a common High Court for Haryana State and Delhi, but it would be impossible, constitutionally, to extend the jurisdiction of the High Court of Delhi (Union territory) to Haryana (State). The extension of the jurisdiction of the High Court of Haryana to Delhi would, however, be possible, and even desirable.

3. The vicissitudes of this Bill have amply vindicated the plea, which I have often made in the House, that all Bills, except those of a routine or minor character, should invariably be referred to a Joint Committee of both Houses or a Select Committee of the House.

NEW DELHI; H. V. KAMATH.
The 15th April, 1966.

III

The Bill is, as I conceive the matter, unconstitutional since according to Article 231 of the Constitution, there cannot be a common High Court for two Union Territories and according to Article 241, though the jurisdiction of a State High Court can be extended to a Union

Territory or a part of a Union Territory, the jurisdiction of a High Court in a Union Territory cannot be extended to another Union Territory.

The State of Punjab is to be reorganised in the immediate near future and Punjabi-speaking and Haryana Prant States are to be demarcated and reorganised, and also, some parts, Kangra etc. are likely to be included in H.P. Union Territory, and thus the Bill, even if passed, would require multiple amendments consequent upon the reorganisation of these States which is likely to be affected by the beginning of October, 1966. The Haryana State, when formed, can, according to Article 214, have its own High Court and its jurisdiction can then be extended to the Delhi Union Territory which would be as convenient as in public interest as well as in the interest of justice for both these territories. The Punjabi-speaking State can have its own High Court, and considering the basic principle of convenience of dispensing justice, the proposed Haryana State and Delhi should have a common High Court.

The clause in the Bill, by itself, even if enacted, cannot have the effect of amending the Constitution, and amending of the Constitution, in any case, is absolutely necessary, and Article 368 of the Constitution requires a special procedure and special voting for amendment of the Constitution. Therefore, it is appropriate and expedient that this Bill be kept in abeyance till the new proposed States are formed and come into existence, as this would save a great many complications which are otherwise most likely to arise.

NEW DELHI; KAPUR SINGH.

Bill No. 90A of 1965

THE DELHI HIGH COURT BILL, 1965

(AS REPORTED BY THE SELECT COMMITTEE)

(Words underlined or side-lined indicate the amendments suggested by the Committee.)

A

BILL

to provide for the constitution of a High Court for the Union territory of Delhi, for the extension of the jurisdiction of that High Court to the Union territory of Himachal Pradesh and for matters connected therewith.

BE it enacted by Parliament in the Seventeenth Year of the Republic of India as follows:—

Short title and commencement.

1. (1) This Act may be called the Delhi High Court Act, 1966.

(2) Section 17 shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint; and the remaining provisions of this Act shall come into force at once.

Definitions.

2. In this Act, unless the context otherwise requires.—

(a) "appointed day" means the date appointed under section 3;

(b) "notified order" means order notified in the Official Gazette.

3. (1) As from such date as the Central Government may, by notification in the Official Gazette, appoint, there shall be a High Court for the Union territory of Delhi (hereinafter referred to as the High Court of Delhi). High Court.

(2) The principal seat of the High Court of Delhi shall be at Delhi or at such other place as the President may, by notified order, appoint.

(3) Notwithstanding anything contained in sub-section (2), the Judges and Division Courts of the High Court of Delhi may sit at such other place or places other than its principal seat as the Chief Justice may, with the approval of the President, appoint.

4. (1) The provisions of Chapter V of Part VI of the Constitution shall, in their application to the High Court of Delhi, have effect subject to the following exceptions and modifications, namely:— Exceptions and modifications subject to which the provisions of Chapter V of Part VI of the Constitution apply to the High Court of Delhi.

(a) in article 217, the words "the Governor of the State" shall be omitted and in relation to appointments to be made under sub-section (2), that article shall be construed as if the words "and, in the case of appointment of a Judge other than the Chief Justice, the Chief Justice of the High Court." had also been omitted;

(b) in article 219, the reference to the Governor of the State, and in the proviso to clause (3) of article 227, the reference to the Governor, shall be construed as a reference to the administrator of the Union territory of Delhi;

(c) the provisions of article 225 shall not apply;

(d) in article 229,—

(i) the references to the Governor of the State shall be construed as references to the administrator of the Union territory of Delhi;

(ii) the references to the State Public Service Commission, the Legislature of the State and the Consolidated Fund of the State shall be construed, respectively, as references to the Union Public Service Commission, Parliament and the Consolidated Fund of India;

(e) the provisions of article 230 shall apply subject to the modifications that—

(i) in clause (1) thereof, for the words "High Court" in both the places where they occur, the words "High Court for a Union territory" and for the words "any Union territory", the words "any other Union territory" shall be substituted;

(ii) for clause (2) thereof, the following clause shall be substituted, namely:—

"(2) Where the High Court for a Union territory exercises jurisdiction in relation to another Union territory, the reference in article 227 to the administrator of the Union territory of Delhi shall, in relation to any rules, forms or tables for subordinate courts in that other Union territory, be construed as a reference to the administrator of that other Union territory.".

(2) Between the coming into force of this section and the appointed day, the President may, after consultation with the Chief Justice of India, appoint the Chief Justice of the High Court of Delhi and as many other Judges of the said High Court as he thinks fit, and any appointments so made shall take effect as from the appointed day.

Jurisdiction of High Court of Delhi.

5. (1) The High Court of Delhi shall have, in respect of the territories for the time being included in the Union territory of Delhi, all such original, appellate and other jurisdiction as, under the law in force immediately before the appointed day, is exercisable in respect of the said territories by the High Court of Punjab.

(2) Notwithstanding anything contained in any law for the time being in force, the High Court of Delhi shall also have in respect of the said territories ordinary original civil jurisdiction in every suit the value of which exceeds twenty-five thousand rupees.

Power to enrol legal practitioners, etc.

6. (1) The High Court of Delhi shall have like powers to approve, admit, enrol, remove and suspend legal practitioners, and to make rules with respect to them, as are, under the law in force immediately before the appointed day, exercisable by the High Court of Punjab.

(2) The right of audience in the High Court of Delhi shall be regulated in accordance with the like principles, as, immediately before the appointed day, are in force with respect to the right of audience in the High Court of Punjab:

Provided that subject to any rule made or direction given by the High Court of Delhi in the exercise of the powers conferred by this section, any person who immediately before the appointed day is an advocate entitled to practise or an attorney entitled to act in the High Court of Punjab shall be recognised as an advocate or an attorney entitled to practise or act, as the case may be, in the High Court of Delhi.

7. Subject to the provisions of this Act, the law in force immediately before the appointed day with respect to practice and procedure in the High Court of Punjab shall, with the necessary modifications, apply in relation to the High Court of Delhi and accordingly the High Court of Delhi shall have all such powers to make rules and orders with respect to practice and procedure as are immediately before the appointed day exercisable by the High Court of Punjab and shall also have powers to make rules and orders with respect to practice and procedure for the exercise of its ordinary original civil jurisdiction:

Practice and procedure in the High Court of Delhi.

Provided that any rules or orders which are in force immediately before the appointed day with respect to practice and procedure in the High Court of Punjab shall, until varied or revoked by rules or orders made by the High Court of Delhi, apply with the necessary modifications in relation to practice and procedure in the High Court of Delhi as if made by that High Court.

8. The law in force immediately before the appointed day with respect to the custody of the Seal of the High Court of Punjab shall, with the necessary modifications, apply with respect to the custody of the Seal of the High Court of Delhi.

Custody of the Seal of the High Court of Delhi.

9. The law in force immediately before the appointed day with respect to the form of writs and other processes used, issued or awarded by the High Court of Punjab shall, with the necessary modifications, apply with respect to the form of writs and other processes used, issued or awarded by the High Court of Delhi.

Form of writs and other processes.

10. (*1*) Where a single Judge of the High Court of Delhi exercises ordinary original civil jurisdiction conferred by sub-section (*2*) of section 5 on that Court, an appeal shall lie from the judgment of the single Judge to a Division Court of that High Court.

Powers of Judges

(*2*) Subject to the provisions of sub-section (*1*), the law in force immediately before the appointed day relating to the powers of the Chief Justice, single Judges and Division Courts of the High Court of Punjab and with respect to all matters ancillary to the exercise of those powers shall, with the necessary modifications, apply in relation to the High Court of Delhi.

11. The law in force immediately before the appointed day relating to appeals to the Supreme Court from the High Court of Punjab and the Judges and Division Courts thereof shall, with the necessary modifications, apply in relation to the High Court of Delhi.

Procedure as to appeals to Supreme Court.

Transfer of proceedings from the High Court of Punjab to the High Court of Delhi.

12. (1) Except as hereinafter provided, the High Court of Punjab shall, as from the appointed day, have no jurisdiction in respect of the Union territory of Delhi.

(2) Such proceedings pending in the High Court of Punjab immediately before the appointed day as are certified, whether before or after that day, by the Chief Justice of that High Court having regard to the place of accrual of the cause of action and other circumstances to be proceedings which ought to be heard and decided by the High Court of Delhi, shall, as soon as may be after such certification, be transferred to the High Court of Delhi.

(3) Notwithstanding anything contained in sub-sections (1) and (2) of this section and in section 5, but save as hereinafter provided, the High Court of Punjab shall have, and the High Court of Delhi shall not have, jurisdiction to entertain, hear or dispose of, appeals, applications for leave to appeal including leave to appeal to the Supreme Court, applications for review and other proceedings where any such proceedings seek any relief in respect of any order passed by the High Court of Punjab before the appointed day:

Provided that if after any such proceedings have been entertained by the High Court of Punjab, it appears to the Chief Justice of that High Court that they ought to be transferred to the High Court of Delhi, he shall order that they shall be so transferred, and such proceedings shall thereupon be transferred accordingly.

(4) Any order made by the High Court of Punjab—

(a) before the appointed day, in any proceedings transferred to the High Court of Delhi by virtue of sub-section (2);

(b) in any proceedings with respect to which the High Court of Punjab retains jurisdiction by virtue of sub-section (3),

shall for all purposes have effect, not only as an order of the High Court of Punjab, but also as an order made by the High Court of Delhi.

Right to appear or to act in proceedings transferred to the High Court of Delhi.

13. Any person who, immediately before the appointed day, is an advocate entitled to practise or an attorney entitled to act, in the High Court of Punjab, and was authorised to appear or to act in any proceedings transferred from that High Court to the High Court of Delhi under section 12, shall have the right to appear or to act, as the case may be, in the High Court of Delhi in relation to those proceedings.

Interpretation.

14. For the purposes of sections 12 and 17,—

(a) proceedings shall be deemed to be pending in a court until that court has disposed of all issues between the parties, including any issues with respect to the taxation of the costs of

the proceedings and shall include appeals, applications for leave to appeal to the Supreme Court, applications for review, petitions for revision and petitions for writs;

(b) references to a High Court shall be construed as including references to a Judge or Division Court thereof, and references to an order made by a court or a Judge shall be construed as including references to a sentence, judgment or decree passed or made by that court or Judge.

Savings.

15. Save as provided in section 4, nothing in this Act shall affect the application to the High Court of Delhi of any provisions of the Constitution, and this Act shall have effect subject to any provision that may be made on or after the appointed day with respect to that High Court by any Legislature or other authority having power to make such provision.

Pending proceedings before subordinate

16. All proceedings pending immediately before the appointed day in any subordinate court in the Union territory of Delhi in or in relation to any such civil suit as is referred to in sub-section (2) of section 5 shall on that day stand transferred to the High Court of Delhi which shall proceed to try, hear and determine the matter as if it had been pending therein.

Courts in Delhi Extension of the Jurisdiction of the High Court of Delhi

17. (1) As from such date as the Central Government may, by notification in the Official Gazette, appoint (hereinafter referred to as the prescribed date), the jurisdiction of the High Court of Delhi shall extend to the Union territory of Himachal Pradesh.

(2) As from the prescribed date the Court of the Judicial Commissioner for Himachal Pradesh shall cease to function and is hereby abolished:

Provided that nothing in this sub-section shall prejudice or affect the continued operation of any notice served, injunction issued direction given, or proceedings taken before the prescribed date by the Court of the Judicial Commissioner for Himachal Pradesh abolished by this sub-section.

(3) The High Court of Delhi shall have, in respect of the territories for the time being included in the Union territory of Himachal Pradesh,—

(a) all such original, appellate and other jurisdiction as under the law in force immediately before the prescribed date, is exercisable in respect of the said territories by the Court of the Judicial Commissioner for Himachal Pradesh; and also

(b) ordinary original civil jurisdiction in every suit the value of which exceeds twenty-five thousand rupees, notwithstanding anything contained in any law for the time being in force.

(4) All proceedings pending in the Court of the Judicial Commissioner for Himachal Pradesh before the prescribed date shall stand transferred to the High Court of Delhi.

(5) Any order made before the prescribed date by the Court referred to in sub-section (4) shall for all purposes have effect not only as an order of that Court but also as an order of the High Court of Delhi.

(6) For the removal of doubts, it is hereby declared that the provisions of sections 6 to 11 and 13 shall, with the necessary modifications, apply to the High Court of Delhi in the exercise of jurisdiction conferred upon it by this section.

(7) All proceedings pending immediately before the prescribed date in any subordinate court in the Union territory of Himachal Pradesh in or in relation to any such civil suit as is referred to in clause (b) of sub-section (3) shall on that date stand transferred to the High Court of Delhi which shall proceed to try, hear and determine the matter as if it had been pending therein.

Rule of construction.

18. (1) References in any law in force in the Union territory of Delhi to the High Court of Punjab shall, as from the appointed day, be construed in relation to that Union territory as references to the High Court of Delhi.

(2) References in any law in force in the Union territory of Himachal Pradesh to the High Court of Punjab or to the Court of the Judicial Commissioner for that territory shall, as from the prescribed date, be construed in relation to that Union territory as references to the High Court of Delhi.

Amendment of certain laws.

19. The laws specified in the Schedule shall be amended in the manner and with effect from the date specified therein.

Power to remove difficulties.

20. (1) If any difficulty arises in giving effect to the provisions of this Act, the Central Government may, by notified order, make such provision as appears to it to be necessary or expedient for the removal of the difficulty.

(2) Every order made under this section shall be laid as soon as may be after it is made before each House of Parliament while it is in session for a total period of thirty days which may be comprised in one session or in two successive sessions, and if, before the expiry of the session in which it is so laid or the session immediately following, both Houses agree in making any modification in the order or both Houses agree that the order should not be made, the order shall thereafter have effect only in such modified form or be of no

effect, as the case may be; so, however, that any such modification or annulment shall be without prejudice to the validity of anything previously done under that order.

Power to adapt laws.

21. For the purpose of facilitating the application of any law in relation to the Union territory of Delhi or Himachal Pradesh, the Central Government may, before the expiration of two years from the appointed day in relation to the Union territory of Delhi and before the expiration of two years from the prescribed date in relation to the Union territory of Himachal Pradesh, by order, make such adaptations and modifications of the law, whether by way of repeal or amendment, as may be necessary or expedient to give effect to the provisions of this Act and thereupon every such law shall have effect subject to the adaptations and modifications so made until altered, repealed or amended by a competent Legislature or other competent authority.

Zone VII—The States of Andhra Pradesh, Madras, Mysore and Kerala and the Union territory of Pondicherry."

[No. 204(IZWO)(1)/876/66-PY.]

G.S.R. 613.—In exercise of the powers conferred by section 3 of the Essential Commodities Act, 1955 (10 of 1955), the Central Government hereby makes the following Order, namely:—

1. **Short title, extent and commencement.**—(1) This Order may be called the Gram Zone (Movement Control) Order, 1966.

(2) It extends to the States of Punjab, Uttar Pradesh and the Union territories of Delhi and Himachal Pradesh.

(3) It shall come into force at once.

2. **Definitions.**—In this Order, unless the context otherwise requires,—

(a) "export" means to take or cause to be taken, by any means whatsoever, out of any place within the Zone to a place outside it.

(b) "external border area" means the area within a ten mile belt all along the border lying within the State of Punjab, adjoining the territory of West Pakistan;

(c) "import" means to take or cause to be taken, by any means whatsoever, into any place within the Zone from a place outside it;

(d) "State Government" means the Government of any State included in the Zone and includes the Administrator of the Union territory;

(e) "gram" means Bengal gram and includes gram dal (husked or unhusked), gram flour and gram besan but does not include gram chilka;

(f) "Zone" means the area comprising the States of Punjab and Uttar Pradesh and the Union territories of Delhi and Himachal Pradesh;

(g) "zonal border area" means the area within a five mile belt all along the border of the zone.

3. **Prohibition of Export and Import of Gram.**—(1) No person shall export or attempt to export or abet the export of gram except under and in accordance with a permit issued by the Central Government or by the Government of the State from which such gram is to be exported or by an officer authorized in that behalf by the Central Government or, as the case may be, by the Government of the State.

(2) No person shall import or attempt to import or abet the import of gram except under and in accordance with a permit issued by the Central Government or by the Government of the State into which such gram is to be imported or by an officer authorized in that behalf by the Central Government or, as the case may be, by the Government of that State:

Provided that nothing contained in sub-clause (1) or sub-clause (2) shall apply to the export or import of gram—

(i) not exceeding one Kg. in weight in the aggregate by a *bona fide* traveller as part of his luggage;

(ii) on Government account;

(iii) under and in accordance with Military Credit Notes;

(iv) by and under the authority of the Food Corporation of India established under the Food Corporations Act, 1964.

4. **Restrictions on the movement of gram to or within the External Border Area or Zonal Border Area.**—No person shall move, attempt to move, or abet the movement of gram—

(a) to any place in the external border area or, as the case may be, zonal border area from any place outside the area; or

(b) from any place in the external border area or, as the case may be, zonal border area to any other place in that area, except under and in accordance with a permit issued by the State Government having jurisdiction in this behalf or by an officer authorized in that behalf by that Government;

Provided that nothing contained in this clause shall apply to the movement of gram—

(i) under clause 3, across the external border area or, as the case may be, the zonal border area;

(ii) not exceeding one kilogram in weight in the aggregate by a *bona fide* traveller as part of his luggage;

(iii) on Government account;

(iv) under and in accordance with Military Credit Notes;

(v) by or under the authority of the Food Corporation of India established under the Food Corporations Act, 1964;

(vi) within the same town or village in the external border area or of zonal border area;

(vii) not exceeding twenty kilograms in weight in the aggregate at one time by a *bona fide* resident of the external border area or of zonal border area for domestic consumption;

(viii) from a village in the external border area or of zonal border area to the nearest grain market (mandi) for the purpose of sale whether such market is within or outside any such area.

5. **Power of entry, search, seizure etc.**—(1) Any Police Officer not below the rank of a Head Constable or any other person authorised in this behalf by the Central Government or the State Government having jurisdiction, with a view to securing compliance with this Order or to satisfying himself that this Order has been complied with—

(a) stop and search, or authorize any person to stop and search any person or any boat, motor or other vehicle or any receptacle used or intended to be used for the export, import or transport of gram;

(b) enter and search or authorize any person to enter and search any place;

(c) seize or authorize the seizure of any gram in respect of which he suspects that any provision of this Order has been, is being or is about to be contravened along with the packages, coverings or receptacles, in which such gram is found, or the animals, vehicles, vessels,

boats or other conveyances used in carrying such gram and thereafter take or authorize the taking of all measures necessary for securing the production of the packages, coverings, receptacles, animals, vehicles, vessels, boats or other conveyances so seized, in a court and for their safe custody pending such production.

(2) The provisions of sections 102 and 103 of the Code of the Criminal Procedure, 1898 (5 of 1898), relating to search and seizure shall, so far as may be, apply to searches and seizures under this clause.

MINISTRY OF FOOD, AGRICULTURE, COMMUNITY DEVELOPMENT AND COOPERATION

(Department of Agriculture)

New Delhi-1, the 16th April 1966

RESOLUTION

No. 6-1/65-Reorgn.(CC).—The Second Joint Indo-American Team, appointed in 1959, to review the position of Agricultural Education, Research and Extension in India, recommended that in the interest of consolidating the Central Agricultural Research Programme and assuring adequate coordination, all Central Institutes and Commodity Committees should be brought under the full technical and administrative control of the Indian Council of Agricultural Research. This recommendation was strongly supported by the Agricultural Research Review Team, appointed in 1963. The Government of India have examined the above recommendations in the light of the actual functioning of the Central Commodity Committees during the past years and recently decided that the Commodity Committees should be abolished and the research work being conducted by them be integrated with the Indian Council of Agricultural Research, which should be suitably reorganised and strengthened, so as to enable it to develop and administer a National Programme of Agricultural Research, commensurate with the needs of the country. Accordingly, the Indian Central Oilseeds Committee was dissolved on 31st March, 1966 and its research activities have been assumed by the Indian Council of Agricultural Research, with effect from 1st April, 1966.

RESOLUTION

PORTS

New Delhi, the 12th April 1966

No. 6-*PG*(58)/65.—The Government of India have received the Administration Report of the Port of Cochin for the year 1964-65. The salient features of the Report are given below :—

(1) *Financial Results*

(a) *Port Fund.*—The revenue receipts of the port (excluding the Pilotage Account and Special Receipts) during the year were Rs. 191.90 lakhs as compared to Rs. 167.38 lakhs during 1963-64. The rise in income was mainly due to increase in receipts under "Wet Docks and Wharves" and "Interest and Miscellaneous".

The expenditure (excluding that charged to the Pilotage Account and contributions to the Reserve Funds and Capital Account) during the year under review was Rs. 141.49 lakhs as against Rs. 125.14 lakhs in 1963-64. The increase in expenditure occurred under the heads "Lands and Buildings", "General Charges" and "Debt Charges".

A contribution of Rs. 25 lakhs was made to the Capital Account and the following contributions to various Reserve Funds :—

	Amount (Rs. in lakhs)
Revenue Reserve Fund	1.00
Accident Fund	0.99
Renewals and Replacements Fund	2.98

(b) *Pilotage Account.*—The gross income and expenditure during 1964-65 were Rs. 6.88 lakhs and Rs. 4.69 lakhs, respectively the corresponding figures for 1963-64 being Rs. 7.19 lakhs and Rs. 5.06 lakhs, respectively resulting in a surplus of Rs. 2.19 lakhs for 1964-65 as against a surplus of Rs. 2.13 lakhs for 1963-64. The closing balance of the Fund at the end of 1964-65 was Rs. 42,338 in cash and Rs. 12.50 lakhs in Fixed Deposits with the State Bank of India.

(c) *Reserve Funds.*—The position with regard to the balances in the various funds at the end of the year was satisfactory.

(d) *Debt.*—The aggregate of debt charges during the year under review amounts to Rs. 26.78 lakhs as against Rs. 23.88 lakhs in the preceding year. The outstanding debt of the port at the close of the financial year stood at Rs. 329.58 lakhs out of which a sum of Rs. 278.31 lakhs was due to the Government of India and the balance to the Government of Kerala.

2. *Traffic*

(a) *Trade.*—The total dead weight tonnage of imports, which passed through the port during the year 1964-65, was 22.61 lakh tonnes as against 20.34 lakh tonnes in the previous year, registering an increase of 2.27 lakh tonnes or 11.12 per cent over the previous year. The increase was mainly in foodgrains, mineral oil, salt and machinery, hardware etc.

The exports during the year 1964-65 amounted to 4.51 lakh tonnes as against 4.22 lakh tonnes in the previous year, showing an increase of 0.23 lakh tonnes or 5.4 per cent over the previous year. The increase was mainly accounted for by exports of Cashew kernels, cashew shell oil, Rubber, Prawns, Coconut, Copra and Coconut oil.

(b) *Passenger Traffic.*—The total number of passengers who embarked and disembarked during the year under review, was 2816 and 3221 respectively as against 1446 and 1892 during the previous year.

(c) *Shipping.*—The number of vessels, excluding sailing vessels, which entered the port during 1964-65 was 1358 with tonnage of 48.26 lakhs. The corresponding figures for the previous year were 1356 vessels and 46.48 lakh tonnes. 99 sailing vessels with a tonnage of about 11.468 visited the port during the year as against 113 with a tonnage of about 13,007 during 1963-64.

I.N.S. Vikrant of 704' O.A. was the longest Naval Vessel which entered the Port during the year. S.S. "President Coolidge" of 564' O.A. was the longest and M.T. "Hon Crusader" of 13,294 G.R.T. was the biggest and S.S. "Phoenix" of 31' was the deepest of the Merchant Vessels that entered the port during the year.

3 *Labour and Welfare Measures*

Sixty-six scholarships were granted to the children of the employees during the year. The amenities already provided such as library and reading room, indoor and outdoor games, medical aid, etc., were continued as usual. These amenities were extended to the porterage labour also.

Labour relations continued to be satisfactory.

4 *Capital Works*

The following works, which were in progress during the previous year, were completed during the year under report :

(1) Dredging in front of Ernakulam Wharf.
(2) Laying of pipe line for bunkering Oil to ships.
(3) Construction of Section Office for Customs Department.

MINISTRY OF RAILWAYS

(Railway Board)

New Delhi, the 11th April 1966

G.S.R. 587.—In exercise of the powers conferred by section 84 of the Indian Railways Act, 1890 (9 of 1890) and in supersession of the rules published with the Notification of the late Railway Department (Raliway Board) No. 1926-T, dated the 19th March, 1930, the Central Government hereby makes the following rules, namely:—

1. **Short title.**—These rules may be called the Railway (Notices of and Inquiries into Accidents) Rules, 1966.

Notices

2. **Particulars to be given in the notices.**—The notices mentioned in section 83 of the Indian Railways Act, 1890 (9 of 1890), referred to as "the Act", shall contain the following particulars, namely:—

(i) kilometrage, or station or both, at which the accident occurred;

(ii) time and date of the accident;

(iii) number and description of the train or trains;

(iv) nature of the accident;

(v) number of people killed or injured, as far as is known;

(vi) cause of the accident, as far as is known;

(vii) probable detention to traffic.

3. **Responsibility for sending notices—to whom to be sent and mode thereof.**—When any accident such as is described in section 83 of the Act occurs in the course of working a railway, the station master nearest to the place at which the accident has occurred, or, where there is no station master, the railway servant in charge of the section of the railway on which the accident has occurred, or, any other station master in charge of a section of a railway to whom the report of the accident is made, shall give notice of the accident by telegraph to the Additional Commissioner of Railway Safety, the District Magistrate and the District Superintendent of Police of the district in which the accident has occurred or such other Magistrate or police officer as may be appointed in this behalf by the State Government concerned and by telegraph, telephone or through special messenger or such other quick means as may be available, to the Superintendent of Railway Police and to the officer-in-charge of the police station within the local limits of which it has occurred.

Explanation.—For the purpose of this rule accidents of a description usually attended with loss of human life are meant to include all accidents to passenger trains like collisions, derailments, train-wrecking, or attempted train-wrecking, cases of running over obstructions placed on the line, of passengers falling out of trains or of fires in trains, in which no loss of life or grievous hurt as defined in the Indian Penal Code, or serious damage to railway property of the value exceeding Rs. 50,000 has actually occurred but which by the nature of the accident might reasonably have been expected to occur; and also cases of landslides, or of breaches by rain or flood, which cause the interruption of any important through line of communication for atleast 24 hours.

4. **Mode of sending notices to the State Government.**—The notice of accidents required by section 83 of the Act to be sent without unnecessary delay by the railway administration to the State Government shall be sent—

(a) by telegram in the case of—

(i) accidents deemed under the Explanation to rule 7 to be serious by reason of loss of human life;

(ii) accidents by reason of which the permanent way is likely to be blocked for more than twenty-four hours; and

(iii) train-wrecking or attempted train-wrecking; and

(b) by letter in all other cases.

Duties of railway servants

5. **Railway servants to report accidents.**—Every railway servant shall report, with as little delay as possible, every accident occurring in the course of working the railway which may come to his notice. Such report shall be made to the nearest station master, or, where there is no station master, to the railway servant in charge of the section of the railway on which the accident has occurred.

6. **Station master or railway servant in charge of the section to report accidents.**—The station master, or the railway servant in charge of the section, shall report the accident in accordance with the rules laid down by the railway administration concerned for the reporting of accidents.

Duties of Divisional Superintendents and District Traffic Superintendents.

7. **Railway administration to report serious accidents.**—Whenever a serious accident occurs, the railway administration concerned shall, as soon after the accident as possible, by telegraph supply to the Press such particulars, as are mentioned in rule 2 and as are till then available, supplementary telegrams, if necessary, being despatched immediately further information is available. A copy shall be sent simultaneously by "Express" telegram to the Railway Board, the Additional Commissioner of Railway Safety of the circle concerned and the Commissioner of Railway Safety. In stating the cause of the accident the railway administration shall avoid making any statement the correctness of which may subsequently be questioned.

Explanation.—For the purpose of this rule—

(i) every accident to a train (whether carrying passengers or not) which is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious damage to railway property of the value exceeding Rs. 50,000, and every accident, such as a landsilde, breach by rain or flood or derailment which causes the interruption of any important through line of communication for at least twenty-four hours, shall be deemed to be a serious accident; and

(ii) cases of trespassers run over and injured or killed through their own carelessness or of passengers injured or killed through their own carelessness shall not be deemed to be serious accidents.

Duties of the Additional Commissioner of Railway Safety [Inspector of Railways appointed under sub-section (1) of section 4 of the Act].

8. **Enquiry into a service accident by the Additional Commissioner of Railway Safety.**—(1) (a) Whenever the Additional Commissioner of Railway Safety receives notice under section 83 of the Act of the occurrence of an accident which he considers of a sufficiently serious nature to justify such a course he shall, as soon as may be, notify the Railway Board and the Head of the Railway Administration concerned of his intention to hold an inquiry and shall, at the same time, fix and communicate the date, time and place for the inquiry. He shall also issue a Press note in this behalf inviting the public to tender evidence at the inquiry or send information relating to the accident to his office address.

(b) While notifying his intention to hold an inquiry as aforesaid, the Additional Commissioner of Railway Safety shall also advise the District Magistrate and the Superintendent of Police of the district concerned.

(2) For the purpose of this rule, every accident to a train carrying passengers which is attended with loss of human life, or grievous hurt as defined in the Indian Penal Code to a person or persons in the train or with serious damage to railway property of the value exceeding Rs. 50,000 and any other accident which in the opinion of the Commissioner of Railway Safety or the Additional Commissioner of Railway Safety requires the holding of an inquiry shall be deemed to be as accident of such a serious nature as to require the holding of an inquiry.

(3) Where the Commissioner of Railway Safety considers the holding of an inquiry into an accident necessary, he may either hold the inquiry himself or direct the Additional Commissioner of Railway Safety to do so.

Explanation.—The inquiry by the Additional Commissioner of Railway Safety shall be obligatory only in those cases where the passengers killed or grievously hurt were travelling in the train. If a person travelling on the foot-board or roof of a passenger train is killed or grievously hurt or if a person is run over at a level crossing or elsewhere on the railway track, an inquiry by the Additional Commissioner of Railway Safety shall not be obligatory. Similarly, if in

a collision between a road vehicle and a passenger train at a level-crossing no passenger in the train is killed or grievously hurt the Additional Commissioner of Railway Safety shall not be obliged to hold an inquiry. For the purpose of this rule, workmen's trains or ballast trains carrying workmen shall also be treated as passenger trains and in the event of a workman getting killed or grievously hurt as a result of an accident to the train, an inquiry by the Additional Commissioner of Railway Safety shall be obligatory.

(4) When an accident requiring the holding of an inquiry occurs at a station where the jurisdictions of two or more Additional Commissioners of Railway Safety meet. the duty of complying with this rule shall devolve on the Additional Commissioner of Railway Safety within whose jurisdiction the railway working such station lies.

(5) If, for any reason, the Additional Commissioner of Railway Safety is unable to hold an inquiry at an early date after the occurrence of such an accident, the Head of the Railway Administration concerned shall, on request by the Additional Commissioner of Railway Safety, forward to him, with as little delay as possible, the proceedings of the joint inquiry which has been made under rule 19. The Additional Commissioner of Railway Safety shall advise the Railway Board of the reason why an inquiry has not been held by himself. If the Additional Commissioner of Railway Safety, after examination of the joint inquiry proceedings, considers that an inquiry should be held by himself, he shall, as soon as possible, notify the Railway Board and the Head of the Railway Administration concerned, of his intention to hold an inquiry and he shall at the same time fix and communicate the date, time and place for the inquiry.

(6) (a) Where, having regard to the nature of the accident, the Central Government has appointed a Commission of Inquiry to inquire into the accident under the Commissions of Inquiry Act, 1952 (60 of 1952), or has appointed any other authority to inquire into it and for that purpose has made all or any of the provisions of the said Act applicable to that authority, the Additional Commissioner of Railway Safety to whom notice of the accident has been given shall not hold his inquiry and where he has already commenced his inquiry he shall not proceed further with it. and shall hand over the evidence, records or other documents in his possession relating to the inquiry to such authority as may be specified by the Central Government in this behalf.

(b) If, as a result of the police investigation a regular case is lodged in a criminal court by the police, the Additional Commissioner of Railway Safety shall discontinue his inquiry.

9. **Additional Commissioner of Railway Safety to submit a brief preliminary narrative report.**—Where the Additional Commissioner of Railway Safety has held an inquiry in respect of any of the accidents described in sub-rule (3) of rule 8 he shall submit a brief preliminary narrative report to the Commissioner of Railway Safety and the Railway Board simultaneously. The report shall be factual and shall not contain any reference to persons implicated.

10. **Additional Commissioner of Railway Safety to submit a report.**—Whenever the Additional Commissioner of Railway Safety has made an inquiry under rule 8, or when in pursuance of sub-rule (5) of rule 8, an inquiry is held by a committee of railway officers in accordance with the provisions of rule 19, he shall submit a report in writing to the Commissioner of Railway Safety and shall forward a copy of the report each to—

(i) the Railway Board;

(ii) the railway administration concerned;

(iii) in the case of a railway under the control of a State Government or Local Administration, to such Government or administration also;

(iv) if a magisterial inquiry is being made, to the Magistrate making the inquiry; and

(v) if the Additional Commissioner of Railway Safety finds that the accident was caused by sabotage or train wrecking, to the Director, Intelligence Bureau, Ministry of Home Affairs, Government of India.

11. **Publication of reports.**—Recommendations in regard to the publication of reports shall be made by the Commissioner of Railway Safety to the Central Government.

12. **Additional Commissioner of Railway Safety to assist the Magistrate or the Commission of Inquiry etc. in clarifying technical matters.**—The Additional Commissioner of Railway Safety shall, as far as possible, assist any Magistrate making a judicial inquiry or an inquiry under rule 23 or a Commission of Inquiry appointed under the Commissions of Inquiry Act, 1952 (60 of 1952), or any other authority appointed by the Central Government to which all or any of the provisions of the said Act have been made applicable, whenever he may be called upon to do so for the purpose of clarification of any technical matters.

13. **Powers of the Additional Commissioner of Railway Safety.**—Nothing in these rules shall, except to the extent provided in sub-rule (6) of rule 8, be deemed to limit or otherwise affect the exercise of any of the powers conferred on Additional Commissioner of Railway Safety (Inspector) by section 5 of the Act.

Duties of the Head of the Railway Administration and of the Head of the Department concerned

14. **Facility for reaching the site of accident.**—Whenever any accident has occurred in the course of working a railway, the Head of the Railway Administration concerned shall give all reasonable aid to the District Magistrate or the Magistrate appointed or deputed under rule 23, to the Commission of Inquiry appointed under the Commissions of Inquiry Act, 1952 (60 of 1952), or any other authority to which all or any of the provisions of the said Act have been made applicable, and to the Additional Commissioner of Railway Safety, medical officers, the police, and others concerned to enable them to reach the scene of the accident promptly, and shall also assist those authorities in making inquiries and in obtaining evidence as to the cause of the accident.

15. **Medical aid to the persons grievously hurt in accidents.**—Whenever any accident, occurring in the course of working a railway, has been attended with grievous hurt as defined in the Indian Penal Code, it shall be the duty of the Head of the Railway Administration concerned to afford medical aid to the sufferers, and to see that they are properly and carefully attended to till they are removed to their homes or handed over to the care of their relatives or friends. In any such case, or in any case in which any loss of human life or grievous hurt as defined in the Indian Penal Code, has occurred, the nearest available local medical officer shall be sent for if such medical officer is nearer at hand than the railway medical officer.

16. **Arranging attendance of railway servants at the place of inquiry.**—When an inquiry under rule 8 or rule 23 or a judicial inquiry is being made, the Head of the Railway Administration concerned shall arrange for the attendance, as long as may be necessary, at the place of inquiry, of all railway servants whose evidence is likely to be required at such inquiry; and if the inquiry is to be held by the Additional Commissioner of Railway Safety under rule 8, the Head of the Railway Administration concerned shall cause notice of the date, hour and place at which the inquiry will begin to be given to the officers mentioned in clauses (a) and (c) of sub-rule (1) of rule 20. He shall also arrange for the attendance of the divisional or district officers at the inquiry.

17. **Action to be taken by Head of the Railway Administration on receipt of the report.**—Whenever the Head of the Railway Administration concerned receives a copy of the report of the Additional Commissioner of Railway Safety under rule 10, he shall at once acknowledge its receipt. If he differs from the views expressed in the report, he shall at the same time submit his remarks thereon, or, if he is not able to do so immediately, he shall, in his acknowledgement of the report, inform the Additional Commissioner of Railway Safety of his intention to submit his remarks later. If the Head of the Railway Administration concerned considers the prosecution of any person or persons desirable, he shall immediately forward a copy of the report together with a statement of such persons to the District Magistrate of the district in which the accident occurred, or to such other officer as the State Government may appoint in this behalf and to the concerned police authorities. On receipt of the findings of the Additional Commissioner of Railway Safety, the police authorities shall, as soon as possible, intimate the Head of the Railway Administration concerned about their decision regarding launching of any prosecution.

18. **Head of the Railway Administration to offer remarks on the suggestions made in the report.**—Whenever the report of the Additional Commissioner of Railway Safety points to the necessity for or suggests a change in any of the rules or in the system of working of the railway, the Head of the Railway Administration concerned shall, when acknowledging the report, intimate the action

which has been taken, or which it is proposed to take, to prevent a recurrence of similar accidents or shall inform the Additional Commissioner of Railway Safety of his intention to report further on the proposals contained in the report of the Additional Commissioner of Railway Safety.

19. **Joint inquiry when dispensed with.**—(1) Whenever an accident, such as is described in section 83 of the Act, has occurred in the course of working a railway, the Head of the Railway Administration concerned shall cause an inquiry to be promptly made by a committee of railway officers (to be called a "joint inquiry") for the thorough investigation of the causes which led to the accident:

Provided that such inquiry may be dispensed with—

(a) if any inquiry is to be held by the Additional Commissioner of Railway Safety or a Commission of Inquiry appointed under the Commissions of Inquiry Act, 1952 (60 of 1952) or any other authority appointed by the Central Government to which all or any of the provisions of the said Act have been made applicable under rule 8; or

(b) if the accident has not been attended with loss of human life or with grievous hurt, as defined in the Indian Penal Code, or with serious damage to railway property of the value exceeding Rs. 50,000; or

(c) if there is no reasonable doubt as to the cause of the accident; or

(d) if any department of the railway administration concerned intimates that it accepts all responsibility in the matter.

(2) Where such inquiry is dispensed with under any of the clauses (b), (c) or (d) of the proviso to sub-rule 1, it shall be the duty of the Head of the department of the railway administration responsible for the accident to make such inquiry (to be called a "departmental inquiry") as he may consider necessary and, if his staff or the system of working is at fault, to adopt or suggest such measures as he may consider necessary for preventing a recurrence of similar accidents.

20. **Notice of joint inquiry.**—(1) Whenever a joint inquiry is to be made, the Head of the Railway Administration concerned shall cause notice of the date and hour at which the inquiry will commence to be given to the following officers, namely:—

(a) the District Magistrate of the district in which the accident occurred, or such other officer as the State Government may appoint in this behalf, the Superintendent of the Railway Police and the District Superintendent of Police;

(b) the Additional Commissioner of Railway Safety for the section of the railway on which the accident occurred; and

(c) the head of the Railway Police having jurisdiction at the place where the accident occurred or, if there are no Railway Police, the officer-in-charge of the police station having jurisdiction at such place.

(2) The date and hour at which the inquiry will commence shall be fixed so as to give the officers mentioned in sub-rule (1) sufficient time to reach the place where the inquiry is to be held.

21. **Report of the joint or departmental inquiry to be sent to the Head of the Railway Administration and action to be taken thereon.**—(1) As soon as any joint or departmental inquiry has been completed, the President of the committee of railway officers or the Head of the department, as the case may be, shall sent to the Head of the Railway Administration concerned a report which, in the case of all accidents of the nature described in the explanation to rule 7, shall contain—

(a) a brief description of the accident;

(b) a description of the locality of the accident;

(c) a detailed statement of the evidence taken;

(d) the conclusions arrived at together with a note of dissent, if any;

(e) reasons for conclusions arrived at;

(f) the nature and extent of the damage done;

(g) when necessary, a sketch illustrative of the accident;

(h) the number of railway servants killed or injured;

(i) the number of passengers killed or injured;

(j) an appendix containing extracts of the rules violated by the staff responsible for the accident.

(2) The Head of the Railway Administration concerned shall forward, with his remarks as to the action it is intended to take in regard to the staff responsible for the accident or for the revision of the rules or the system of working, a copy of the report referred to in sub-rule (1)—

(a) to the Additional Commissioner of Railway Safety for the section of the railway on which the accident occurred;

(b) if no inquiry or investigation has been made under rule 23 or if a joint or departmental inquiry has been held first, to the District Magistrate or the officer appointed under clause (a) of sub-rule (1) of rule 20; and

(c) if any judicial inquiry is being made, to the Magistrate making such inquiry.

(3) The copy of the report aforesaid shall be accompanied,—

(a) in the case referred to in clause (b) of sub-rule (2), by a statement of the persons involved in the accident whose prosecution the Head of the Railway Administration concerned considers to be desirable;

(b) in the case referred to in clause (c) of the said sub-rule, by a copy of the evidence taken at the inquiry.

22. **Reports of inquiries into accidents not covered by section 83 to be forwarded to Additional Commissioner of Railway Safety.**—A copy each of reports of inquiries held on accidents not of the nature specified in section 83 of the Act, such as averted collisions, technical accidents, or breaches of block rules, shall be forwarded to the Additional Commissioner of Railway Safety for the section of the railway on which the accident occurred.

Duties of Magistrates

23. **Magisterial inquiry.**—Whenever an accident, such as is described in section 83 of the Act, has occurred in the course of working a railway, the District Magistrate or any other Magistrate who may be appointed in this behalf by the State Government, may, either—

(a) himself make an inquiry into the causes which led to the accident; or

(b) depute a subordinate Magistrate, who, if possible, should be a Magistrate of the first class, to make such an inquiry; or

(c) direct investigation into the causes which led to the accident, to be made by the police:

Provided that where, having regard to the nature of the accident, the Central Government has appointed a Commission of Inquiry to inquire into it under the Commissions of Inquiry Act, 1952 (60 of 1952), or has appointed any other authority to inquire into it and for that purpose has made all or any of the provisions of the said Act applicable to that authority, a Magistrate or a police officer shall not make his inquiry or investigation under this rule and, where he has already commenced his inquiry or investigation, shall not proceed further with it; and such Magistrate or police officer shall hand over the evidence, records or other documents in his possession relating to the inquiry or investigation to such authority as may be specified by the Central Government in this behalf.

24 **Notice of magisterial inquiry.**—(1) Whenever it is decided to make an inquiry under clause (a) or clause (b) of rule 23, the District Magistrate or other Magistrate appointed as aforesaid or the Magistrate deputed under clause (b) of rule 23, as the case may be, shall at once advise the Additional Commissioner of Railway Safety, the Head of the Railway Administration concerned and the Divisional Superintendent or the District Traffic Superintendent concerned, by telegraph, of the date and hour at which the inquiry will commence so as to enable the railway administration to summon the requisite expert evidence. After sending such advice, he shall proceed to the scene of the accident and conduct the inquiry there.

(2) **District Magistrate or his representative to attend the inquiry conducted by Additional Commissioner of Railway Safety.**—Where no inquiry is being made under clause (a) or (b) of rule 23 and the Additional Commissioner of Railway Safety decides to make an inquiry under rule 8, the District Magistrate shall, as far as possible, attend such inquiry personally or depute some other officer to represent him at the inquiry.

25. **Judicial inquiry.**—A Magistrate, making an inquiry under rule 23, may summon any railway servant,, and any other person whose presence he may think necessary, and, after taking the evidence and completing the inquiry, shall, if he considers there are sufficient grounds for holding a judicial inquiry, take the requisite steps for bringing to trial any person whom he may consider to be criminally liable for the accident. Whenever technical points are involved, the Magistrate shall call for the opinion of the Additional Commissioner of Railway Safety or other professional persons.

26. **The result of magisterial inquiry to be communicated to the Head of the Railway Administration.**—The result of every inquiry or investigation made under rule 23 shall be communicated by the Magistrate who has held such inquiry or investigation, to the Head of the Railway Administration concerned and to the Additional Commissioner of Railway Safety.

27. **Procedure for summoning the Additional Commissioner of Railway Safety and railway servants to assist the Magistrate holding judicial inquiry.**—(1) If, in the course of any judicial inquiry into an accident occurring in the course of working a railway, the Magistrate holding such inquiry desires the assistance of the Additional Commissioner of Railway Safety or of the Head of the Railway Administration concerned, or the attendance of any officer of the railway to explain any matter relating to railway supervision, management or working, he shall issue a requisition to the Commissioner of Railway Safety or the Head of the Railway Administration concerned, as the case may be, for the attendance in the court, of the Additional Commissioner of Railway Safety or other railway officer competent to explain such matter, stating at the same time the nature of the assistance required. In summoning railway servants, the Magistrate shall take care not to summon on the same day so large a number of the employees, especially of one class, as to cause inconvenience to the working of the railway. In the case of very serious accidents it will generally be advisable for the Magistrate to obtain reports from both the Additional Commissioner of Railway Safety and the Head of the Railway Administration concerned in regard to the accident, before finally concluding the judicial inquiry.

(2) The Magistrate conducting the judicial inquiry shall, as far as possible, avoid summoning the Additional Commissioner of Railway Safety, if in the report submitted under rule 10, the opinion of the said Additional Commissioner on technical matters which required explanation has already been expressed.

28. **Communication of the decision of judicial inquiry to the Railway Administration, Additional Commissioner of Railway Safety and the State Government.**—On the conclusion of the judicial inquiry the Magistrate shall send a copy of his decision to the Head of the Railway Administration concerned and to the Additional Commissioner of Railway Safety, and shall, unless in any case he thinks it unnecessary to do so, report the result of the inquiry to the State Government.

Duties of Police

29. **Police investigation—when to be dispensed with.**—(1) The Railway Police may make an investigation into the causes which led to any accident occurring in the course of working a railway and shall do so—

(a) whenever any such accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious damage to railway property of the value exceeding Rs. 50,000, or has *prima facie* been due to any criminal act or omission; or

(b) whenever the District Magistrate or the Magistrate appointed under rule 23 has given a direction under clause (c) of that rule:

Provided that no such investigation shall be made when an inquiry has been commenced or ordered under clause (a) or clause (b) of rule 23:

Provided further that where, having regard to the nature of the accident, the Central Government has appointed a Commission of Inquiry to inquire into it under the Commissions of Inquiry Act, 1952 (60 of 1952), or has appointed any other authority to inquire into it and for that purpose has made all or any of the provisions of the said Act applicable to that authority, the Railway Police shall not make an investigation under this rule, and, where they have already commenced their investigation, shall not proceed further with it; and shall hand over the records or other documents in their possession relating to the investigation to such authority, as may be specified by the Central Government in this behalf.

(2) **Railway Police to report every accident involving loss of life or grievous hurt or serious damage to railway property.**—The Railway Police shall report, with as little delay as possible to the nearest station master or, where there is no station master, to the railway servant in charge of the section of the railway on which the accident has occurred, every accident which may come to their notice occurring in the course of working a railway attended with loss of human life, or with grievous hurt as defined in the Indian Penal Code, or with serious damage to railway property of the value exceeding Rs. 50,000, or which has *prima facie* been due to any criminal act or omission.

30. **Status of police officer investigating the accident.**—(1) Whenever an investigation is to be made by the Railway Police—

(a) in a case in which an accident is attended with loss of human life or with grievous hurt as defined in the Indian Penal Code, or with serious damage to railway property of the value exceeding Rs. 50,000; or

(b) in pursuance of a direction given under clause (c) of rule 23,—

the investigation shall be conducted by head of the Railway Police of the area in which the accident has occurred, or if that officer is unable to conduct the investigation himself, by an officer to be deputed by him.

(2) The officer deputed under sub-rule (1) shall ordinarily be the senior officer available, and shall whenever possible be a Gazetted Officer, and shall in no case be of rank lower than that of an Inspector:

Provided that the investigation may be carried out by an officer-in-charge of a police station—

(i) in a case such as is referred to in clause (a) of sub-rule (1), if no loss of life or grievous hurt has been caused to more persons than one or no damage to railway property of value exceeding Rs. 50,000, has been caused or there is no reason to suspect that any servant of the railway has been guilty of neglect of any rule relating to the working of the railway; or

(ii) in the case referred to in clause (b) of sub-rule (1), if the District Magistrate so directs.

31. **Notice of police investigation.**—The Officer who is to conduct an investigation in pursuance of rule 30 shall at once advise the Head of the Railway Administration concerned and the Divisional Superintendent or District Traffic Superintendent by telegraph of the date and hour at which the investigation will commence so that, if possible, the presence of a railway official may be arranged for to watch the proceedings and to aid the officer making the investigation. After sending such advice, he shall proceed without delay to the scene of the accident and conduct the investigation there. The absence of a railway official shall not, however, be allowed to delay the investigation which shall be conducted as soon as possible after the accident has taken place.

32. **Assistance by the District police.**—(1) In every case to which rule 30 applies, immediate information shall be given by the Railway Police of the area to the District Police, who, if so required, shall afford all necessary assistance and shall, if occasion arises, carry the investigation beyond the limits of the railway premises But the Railway Police of the area shall primarily be responsible for carrying on the investigation within such limits.

(2) Subject to the provisions contained in these rules, the further prosecution of the case, on the conclusion of the police investigation, shall rest with the Railway Police.

33. **Communication of the result of police investigation.**—The result of every police investigation shall be reported at once to the District Magistrate or other officer appointed in this behalf by the State Government, to the Head of the Railway Administration concerned or other officer appointed by him, and to the Additional Commissioner of Railway Safety.

34. **District Police to discharge duties of Railway Police.**—Where there are no Railway Police in the area, the duties imposed by rules 29, 30 and 31, sub-rule (2) of rule 32, and rule 33 on the Railway Police of the area, or on the head of such Railway Police, shall be discharged by the District Police or by the District Superintendent of Police, as the case may be.

35. **District Superintendent of Police or his representative to attend the inquiry conducted by Additional Commissioner of Railway Safety.**—Where an inquiry is being held by the Additional Commissioner of Railway Safety under rule 8, the District Superintendent of Police shall, as far as possible, attend such inquiry personally or depute some other officer to represent him at such inquiry.

MINISTRY OF COMMERCE

New Delhi, the 11th April 1966

G.S.R. 590.—In exercise of the powers conferred by section 26 of the Khadi and Village Industries Commission Act, 1956 (61 of 1956), the Central Government hereby makes the following rules further to amend the Khadi and Village Industries Commission Rules, 1957, namely:—

1. These rules may be called the Khadi and Village Industries Commission (Amendment) Rules, 1966.

2. In the Khadi and Village Industries Commission Rules, 1957, after Chapter V, the following Chapter shall be inserted, namely:—

"CHAPTER VA.—*Recovery of Monies due to the Commission.*

25A. *Notice of proposal for recovery of monies due as arrears of land revenue.*—(1) Where any sum is payable to the Commission under any agreement, express or implied, or otherwise howsoever, the Commission may cause a notice to be served on the person liable to pay the sum directing him to pay the sum stated therein.

(2) Where the person on whom a notice is served under sub-rule (1) disputes his liability to pay the sum stated in the notice, he may, within thirty days of the receipt of the notice, make a representation to that effect to the Commission.

(3) If, within the period referred to in sub-rule (2), the person on whom a notice is served under sub-rule (1) neither pays the sum stated in the notice nor make a representation to the Commission under sub-rule (2), the Commission may request the Collector within whose jurisdiction its office is situated to take such action as may be necessary for recovering the sum as arrears of land revenue.

(4) If in the course of proceedings taken against a person for recovery of any sum requested to be recovered under sub-rule (3), such person denies his liability to pay the sum or any part thereof, the authority before whom such proceedings are pending shall forthwith send a notice of such denial to the Commission.

25B. *Request for constitution of a Tribunal under section 19B and for reference of question as to denial of liability to such Tribunal.*—(1) On receipt of a representation under sub-rule (2), or a notice under sub-rule (4), of rule 25A, the Commission shall forward a copy of such representation or, as the case may be of the notice to the Central Government with a request that a Tribunal may be constituted for determining the question as to denial of liability to pay to the Commission made in such representation or referred to in such notice.

(2) On receipt of a request under sub-rule (1), the Central Government may constitute a Tribunal in accordance with the provisions of section 19B of the Act and refer the question mentioned in such request to the Tribunal for decision.

(3) The Tribunal so constituted shall, after making such inquiry as it may deem fit and after giving to the person denying liability and the Commission a reasonable opportunity of being heard and after considering such evidence as may be produced by such person and the Commission, decide the question whether, and if so, what sum is payable by such person to the Commission.

(4) A copy of the decision of the Tribunal shall,—

(a) where it is in respect of a representation made under sub-rule (2) of rule 25A, be forwarded to the Commission and if the decision declares any sum as payable to the Commission, the Commission may take action for having the sum recovered as an arrear of land revenue;

(b) where it is in respect of denial of liability referred to in a notice under sub-rule (4) of rule 25A, be forwarded to the authority by whom such notice was issued, for disposal of the proceedings concerned in accordance with such decision.

PLANNING COMMISSION

(Programme Evaluation Organisation)

New Delhi, the 11th March 1966

G.S.R 610.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the recruitment and conditions of service of persons to the posts of Investigator (Grade I) in the Programme Evaluation Organisation of the Planning Commission, namely:

1. **Short Title.**—(1) These rules may be called the Programme Evaluation Organisation (Non-Secretariat posts) Recruitment Rules, 1966.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. **Application.**—These rules shall apply to the posts specified in column 1 of the Schedule hereto annexed.

3. **Number of posts, Classification and scales of pay.**—The number of posts, their classification and the scales of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. **The method of recruitment, age limit and other qualifications.**—The method of recruitment, age limit, qualifications and other matters connected therewith shall be as specified in columns 5 to 13 of the Schedule aforesaid.

Provided that the upper age limit prescribed for direct recruitment may be relaxed in the case of persons belonging to any Scheduled Caste or Scheduled Tribe or other special category of persons in accordance with the orders issued from time to time by the Central Government.

5. **Disqualifications.**—No person, who has more than one wife living or who, having a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life time of such spouse, shall be eligible for appointment to any of the posts; and no woman, whose marriage is void by reason of her husband having a wife living at the time of such marriage or who has married a person who has a wife living at the time of such marriage, shall be eligible for appointment to any of the posts.

Provided that the Central Government may, if satisfied that there are special grounds for so doing, exempt any person from the operation of this rule.

6. **Power to relax.**—Where the Central Government is of opinion that it is necessary or expedient so to do, it may by order, for reasons to be recorded in writing and in consultation with the Union Public Service Commission, relax any of the provisions of these rules in respect of any class or category of persons.

MINISTRY OF IRON AND STEEL

New Delhi, the 14th April 1966

S.O. 1222.—The following notification No. ESS/COMM/Iron and Steel-15(1) and 27(1) dated 14th April, 1966, issued by the Iron and Steel Controller under Sub-clause (1) of Clause 15 and Sub-clause (1) of Clause 27 of the Iron and Steel (Control) Order, 1956 is published in Part II, Section 3(ii) of the Gazette of India dated 23rd April, 1966, for general information.

"NOTIFICATION

In exercise of the powers conferred by Sub-clause (1) of Clause 15 and Sub-clause 1 of Clause 27 of the Iron and Steel (Control) Order, 1956 as amended from time to time and with the approval of the Central Government, the Iron and Steel Controller hereby notifies the following amendment to the extras as per Appendix I notified under Ministry of Steel, Mines and Fuel, New Delhi notification No. S.O. 2249-ESS. COMM/Iron and Steel-15(1) and 27(1) dated 18th October, 1958, published in Part II, Section 3(ii) of the Gazette of India dated 1st November, 1958, as amended from time to time. The extras mentioned in the notification dated 1st November, 1958, as amended from time to time, which are not being superseded now will remain in force as before.

Amendment

APPENDIX I—Extras List.

(A) SCHEDULE OF EXTRAS

1. Electric Furnace Steel Extra . . . . . Rs. 80/- per tonne.
2. Bottom Pouring extra . . . . . Rs. 46/- per tonne.
3. Special Discard extra. . . . . ..

Special discard at primary mill stage	20% from top, 5% from bottom	33-1/3% top, 5% from bottom	40% from top, 5% from bottom
Special discard extra as % of (base price + other extras for method of manufacture and analysis)	7·5%	15%	22·5%

4. Chemical Analysis:

4·1 Carbon extra

% C. max specified in the LSA.	Semis	Plates	Sheets
	Carbon extra in Rs./tonne		
Less than 0·10 max		By negotiation	
0·10 max	27	27	27
0·15 max	Nil	Nil	Nil
0·20 max	Nil	Nil	17
0·25 max	Nil	Nil	17
0·30 max	31	45	45
0·35 below 40%	34	47	50

Any Carbon range narrower than 10 points (inclusive of limits) will attract an additional extra at the rate of Rs. 2 per tonne per point of restriction.

Wherever the maximum of the carbon range specified or implied falls between two maxima specified in the table, the higher carbon maximum will determine the applicable extra.

Wherever a maximum carbon content is specified in the check analysis, that LSA maximum will be taken to be 0·03 per cent lower than that specified in the check analysis for the purpose of assessing the applicable extra.

4.2. Manganese extra.

Percentage manganese maximum in the L.SA.	Manga extra Rs./tonne
Over 0·70 to 1·00	13·00
Over 1·00 to 1·20	33·00
Over 1·20 to 1·50	53·00

Any managanese range narrower than twenty points when the maximum of the range is not over 1·00 per cent and narrower than thirty points when the maximum of the range is over 1·00 per cent will attract an extra at the rate to be negotiated between the producer and the buyer.

4.3. Sulphur and Phosphorus extra.

(a) For Steels made other than in Electric Furnace:

% P. max. Specified in the LSA	% S. max. Specified in the LSA					
	0·060	0·050	0·045	0·040	0·035	0·030
	Extra in Rs./tonne					
0·060 . . .	0	5	8	14	37	64
0·050 . . .	4	7	9	16	43	71
0·045 . . .	6	8	11	19	48	78
0·040 . . .	8	10	12	21	53	85
0·035 . . .	9	11	13	23	56	92
0·030 . . .	11	13	15	26	61	98

(b) For Steels made in the Electric Furnace:

% P max. specified in the LSA	% S max. specified in the LSA					
	0·060	0·050	0·045	0·040	0·035	0·030
	extra in Rs./tonne					
0·060 . . .	Nil	Nil	Nil	Nil	11	35
0·050 . . .	Nil	Nil	Nil	Nil	18	42
0·045 . . .	Nil	Nil	Nil	Nil	22	49
0·040 . . .	Nil	Nil	Nil	Nil	27	56
0·035 . . .	Nil	Nil	Nil	Nil	32	63
0·030 . . .	Nil	Nil	Nil	Nil	37	70

If the sulphur and phosphorus max. are specified for check analysis the extra for the next step lower by 0·005 per cent is to be levied.

When sulphur and phosphorus levels specified fall in between the steps shown in the above schedule, the extra applicable for the lower step is to be levied.

When the combined maximum of sulphur and phosphorus is specified in addition to the individual maximum of each of these two elements, then the extra for half of the combined maximum stipulated or the extra for the individual elements stipulated, whichever in higher will be levied.

4·4 Killed steel extra.

	Extra in Rs./tonne
Si or Al killing . . .	60·00
Al-Si killing	110·00

4·5 Rimming Steel extra . . . . . Rs. 50/- per tonne

4·6 Copper extra

% Cu max. in the LSA	Copper extra Rs./tonne
Upto 0·35	35·00
Over 0·35 to 0·50 . . .	65·00

Whenever only the maximum copper is specified, then 0.15 per cent is to be added to the 20 per cent Cu. specified to arrive at the maximum limit of copper for the purpose of assessing the applicable extra.

5. Physical Properties.

5.1. Tensile extra for restricted carbon content

Max. tensile strength specified in Kgf/mm²	Percentage carbon maximum in the LSA						
	0·16	0·18	0·20	0·22	0·25	0·28	0·30
	Rs./tonne.						
36 . .	13	..	..	..	..	..	..
38 . .	20	..	..	..	..	..	..
40 . .	26	..	..	..	..	..	..
42 .	33	13	..	..	..	..	..
44 . .	40	20	..	..	..	..	..
46 . .	46	26	..	..	..	..	..
48 . .	53	33	13	13	..	..	..
50 . .	*	40	20	20	..	..	..
52 .	*	46	26	26	..	..	..
54 . .	*	53	33	33	..	..	..

*These extras are to be negotiated between the producer and the buyer.

Where tensile extra for restricted carbon is derived from the above table, manganese extra will not be applicable in addition.

When a range of carbon and or tensile is specified, the maximum limits of carbon and tensile will determine the applicable extra.

When a minimum tensile is specified, 12 Kgf/mm² is to the added to the specified tensile to assess the applicable extra.

When the maximum of the carbon range falls in between the steps shown in the above schedule, the extra applicable for the lower step is to be levied. Similarly, whenever intermediate tensile levels are specified the higher step of tensile in the table will determine the applicable extra.

Wherever a maximum carbon content is specified in the check analysis the LSA (max) will be taken to be 0·03 per cent lower than the specified in the check analysis, for the purpose of assessing the applicable extra.

For restriction of every one point in tensile range (in kgf/mm²) below 12 kgf/mm² an extra of Rs 3 per tonne is applicable.

5.2. High Tensile extra:

(b) High Tensile extra for Sheets:

Max. tensile specified in kgf/mm2.			
38 to 42	Over 42 to 46	Over 46 to 50	Over 50 to 54
Tensile extra in Rs./tonne			
24	64	71	72

When carbon and tensile are both specified either the carbon extra or high tensile extra whichever is higher will determine the applicable extra.

When a range of tensile is specified, the maximum limit of tensile range will determine the applicable extra.

When a minimum tensile alone is specified, 12 kgf/mm² is to be added to the specified tensile to assess the applicable extra.

When the maximum of the tensile range specified falls in between the steps shown in the above schedules, the extra applicable for the higher step is to be levied.

For restriction of every one point in tensile range (in kgf/mm²) below 12 kgf/mm², an extra of Rs. 3/- per tonne is applicable.

5.3. Percentage Elongation extra:

Percentage elongation specified in excess of the normal percentage elongation	Extra Rs./tonne
Upto 3%	4
Over 3% upto 5%	8
Over 5%	16

The percentage elongation normally allowed for various tensile ranges is given below:—

Tensile strength	% elongation normally allowed	
	Plates	H.R. Sheets
Below 38 kgf/mm²	25%	18%
Above 38 below 42 kgf/mm²	24%	16%
Above 42 below 46 kgf/mm²	23%	15%
Above 46 below 50 kgf/mm²	22%	14%
Above 50 below 54 kgf/mm²	21%	13%

5·4 Grain Size Control	Rs. 15/- per tonne.
6·0 Surface Conditioning extra	
6·1 Chipping extra	Rs. 15/- per tonne.
6·2 Cold Scarfing extra.	Rs. 30/- per tonne·
6·4 Cold Skinning extra	Rs. 45/- per tonne.
6·4(a) Hot Scarfing extra.	Rs. 35/- per tonne.
6·5 Hot Skinning/Hot Deseaming extra.	Rs. 50/- per tonne.

7. Finishing Extras:

(A) Finishing extras for Plates:

7·1 Cold flattening extra	Rs. 10/- per tonne.
7·2 Normalising extra.	Rs. 30/- per tonne.
7·3 Gas Cutting extra.	Rs. 46·50 per tonne.

(Over 25 mm. for all thicknesses)

(B) FINISHING EXTRAS FOR SHEETS:

7.4. Stretcher levelling/flattening extra (including end-shearing)—Rs. 38 per tonne.

7.5. Packing extra:

Envelope weight	Packing extra Rs./tonne.
1 tonne envelope	66·00
2 tonne envelope	33·00
3 tonne envelope	22·00

These extra are for standard packing approved by JPC. Extras for any other special packing will have to be negotiated.

(C) FINISHING EXTRA FOR ALL CATEGORIES INCLUDING PLATES AND SHEETS

7·6 Laying out extra (for independent inspection . . . . Rs. 10/- per tonne.

This extra is to be charged only when independent inspection is involved. Actual charges for independent inspection will be in addition to the above.

7.7. Re-shearing to tolerances closer than 10 mm—Rs. 32 per tonne.

7.8. Close tolerance extra.

Percentage of base rolling tolerances	Close tolerance extra (for all categories including plates and sheets).
	Rs/tonne.
Over 90%	Nil.
Over 75% upto and including 90%	5
Over 50% upto and including 75%	9
Over 30% upto and including 50%	17
30% and below.	20

8. Tests:

8 ·1 Tensile and Bend Test extra:

A. For products other than Sheets.	Tensile Test extra Rs/tonne	Bend Test extra Rs/tonne.
One test per 20 tonnes	0·70	..
One test per 15 tonnes	1·40	..
One test per 10 tonnes	2·10	..
One test per 5 tonnes	2·80	1·40
One test per plate	4·20	2·10
One test per each end of plate	5·60	2·80
One test per slab	5·60	2·80
One test per bloom	5·60	3·50
One test per bar	6·30	4·90
B. For Sheets.		
One test per 25 tonnes	0·70	..
One test per 10 tonnes	1·40	..
One test per 5 tonnes	3·50	1·40
Two tests per 5 tonnes	7·00	2·80

8·2 Temper Bend test extra.

	Bend test extra Rs./tonne.
One test per 10 tonnes	1·40
One test per 5 tonnes	2·80
One test per plate	4·20
One test per each end of plate	6·30
One test per bar	7·00

8·3 Homogeneity test extra.

One test per 10 tonnes	1·05
One test per 5 tonnes	2·10
One test per plate	3·15
One test per each end of plate	4·90
One test per bar	4·90

8·4 Impact test extra at OoC . . . . . Rs. 35·00 per test or Rs. 1·40 per tonne whichever is lower.

8·5 Weldability test extra' . . . . . Rs. 35·00 per test or Rs. 1·40 per tonne whichever is lower.

8·6 Hardness test extra. . . . . Rs. 7·70 per tonne

8·7. Erichsen test extra . . . . . Rs. 17·50 per test or Rs. 0·70 per tonne whichever is lower.

8·8 Strain-aging test extra. . . . . Rs. 35·06 per test or Rs. 1·40 per tonne whichever is lower.

8·9 Metallographic test extra.	Rs./test
(a) Macro etch test	7·00
(b) Micro etch test	10·50
(c) Sulphur print test	7·00
(d) Hot etch test	7·00
(e) Mc Quid Ehn test.	10·50
8·10 Proof Stress extra.	14·00
8·11 Resilience test extra.	10·50
8·12 Drift test extra.	3·50
8·13 Dump test extra.	1·40

This is not to be levied in addition, in respect of forging quality, up-ending quality, cold forging quality/cold heading quality unless more than one test per heat is required by the customer/specification.

8·14 Compression/Shear/Torsion test.

One test per 10 tonnes and over. . . . . Rs. 1·40 per test.

0·060	21·50	36·50	67·50	101·50

All applicable fundamental extras except that for surface conditioning, but including extras for sulphur, phosphorus and electric furnace steel, will be additive to the above.

Where only flanging quality is specified, the extra applicable for hot flanging only will be charged and materials supplied accordingly.

10. Dead soft quality extra.

Where steel is required to be supplied in dead soft quality implying a low carbon content of not less than 0.10 per cent max (LSA) carbon, the applicable carbon extra *viz.*, Rs. 38·00 per tonne will be charged. This extra is also chargeable when steel is ordered stipulating a tensile strength of 44·1 Kgf/mm^2 or lower implying a carbon content of not less than 0·10 per cent max (in the LSA). All applicable fundamental extras except that for carbon, will be additive to the above.

11. Impact proof quality extra—Rs. 100·00 per tonne.

All applicable fundamental extras except those for surface conditioning and grain-size control will be additive to the above.

12. Extras for coiling, bundling, controlled cooling, bending, slitting etc.

(i) Bundling with Wire (other than P/41) . . . . . Rs. 5·00 per tonne
(ii) Packing P/41 as laid down by Railways . . . . Rs. 1·00 per tonne
(iii) Slitting extra for coils wider than 325 mm. . . . Rs. 20·00 per tonne
(iv) Deoxidation extra for Sheets. . . . . Rs. 7·00 per tonne.

This notification will come in force w.e.f. the date of its publication in the Gazette of India.

MINISTRY OF PETROLEUM AND CHEMICALS

New Delhi, the 12th April 1966

S.O. 1223.—Whereas it appears to the Central Government that it is necessary in the public interest that for the transport of petroleum between Barauni Refinery in Bihar State and Haldia Port in Calcutta in West Bengal State, pipelines should be laid by the Indian Oil Corporation Limited and that for the purpose of laying such pipelines, it is necessary to acquire the right of user in the land described in the Schedule annexed hereto,

2. Now, therefore, in exercise of the powers conferred by sub-section (1) of section 3 of the Petroleum Pipelines (Acquisition of Right of User in Land) Act, 1962 (50 of 1962), the Central Government hereby declares its intension to acquire the right of user therein.

3. Any person interested in the said land may, within 21 days from the date of this notification, object to the laying of the pipelines under the land to the competent authority, 9, Syed Amir Ali Avenue, Calcutta—17 in the office of the Indian Oil Corporation Limited. Every person making such an objection shall also state specifically whether he wishes to be heard in person or by a legal practitioner.

Dated at Bombay this 19th day of March, 1966.

INDUSTRY—Lime-stone Mining STATE—Madhya Pradesh.

AWARD

1. The Central Government, by the Ministry of Labour and Employment's Order No. 22/40/62-LRII, dated 16th March 1963, made in exercise of the powers conferred by clause (d) of sub-section (1) of section 10 of the Industrial Disputes Act, 1947 (Act XIV of 1947), was pleased to refer the industrial dispute between the parties above-named in respect of the subject-matter specified in the following schedule to the said order, to me for adjudication:

SCHEDULE

"Whether the management of Barari Lime Stone Quarry of Messrs Gupta Lime Works, Katni, were justified in asking Sarvashree Pardeshi, Lime-stone Checker, and Prahlad Bhagat Tripathi, Quarry Munshi, to work as Truck Conductor and Store-keeper respectively? If not, what relief are the workmen entitled to?"

After the reference was made and the usual notices were issued on the parties, the written statement of claim, dated 19th April 1963 was filed by Shri R. K. Sharma, General Secretary, Chuna Mazdoor Congress (hereinafter referred to as the Union), in which he has made the following statements:—

(2) That the workmen concerned in this reference, namely, Sarvashree Pardeshi, Lime Stone Checker (hereinafter referred to as Pardeshi) and Prahlad Bhagat Tripathi (hereinafter referred to as Tripathi) were employees of Messrs Gupta Lime Works, Katni, which owns the Barari Lime Stone Quarry; that they were members of the Chuna Mazdoor Congress which is the Union of the workers employed in the said Lime-stone quarry.

(3) With regard to Pardeshi, the Union has stated that he was employed as Lime-stone Checker and had worked as such uptil the first week of September, 1962, when he was asked to work as a Truck Conductor, on the assurance that the new work which he was asked to do was very much like his first work; that in order to please the management and to maintain good relations, Pardeshi "tried to find out the nature of the job", but found that the work of Truck Conductor was not only different from the work of Lime-stone Checker, to which he was appointed, but was also more strenuous and difficult. The Union has urged that Pardeshi was not given any notice of change, as required by Section 9A of the Industrial Disputes Act, 1947 (hereinafter referred to as the Act) when this change was made in his service condition, nor was he offered any explanation for this change; that his request to be allowed to do his original work was refused; that Pardeshi did not accept this arbitrary and illegal change in his service condition, and continued reporting himself for work at the work-place every day, but the management refused him employment. The Union has argued that the refusal of the management to give Pardeshi his original work and its insistence on his working as a Truck Conductor amounted to an illegal and unjustified lockout, and he was, therefore, entitled to be appointed to his original post of Lime-stone Checker with full back-wages.

4. With regard to Tripathi, the Union has, in its said statement of claim stated that he had worked as a Quarry Munshi uptil 8th November 1962, on which date the management required him to work as a Store-keeper. No notice as required under the Act was served by the management upon him, and no reason was given for effecting so drastic a change in his work; that as a Quarry Munshi, Tripathi was required to work in all scheduled working hours, but as Store-keeper he would be required to work all the hours and he would also have to shoulder the responsibility of looking after the store materials; that Tripathi was not in the good books of the management, in view of some past conflicts with the management, and he apprehended that the change sought to be introduced would in all probability lead to reports and charges against him. The Union has urged that in any case the workman "does not find himself capable of shouldering the responsibility of a Store-keeper". In regard to Tripathi also, the Union had stated that he has been reporting for duty every day, but the management has refused to give him work, and has not paid him any wages and that the insistence of the management in asking him to work as Store-keeper and to refuse him employment as long as he does not accept such a change, amounted to an illegal lockout, which was arbitrary and unjustified.

5. The Union, in para 9 of its said statement of claim has urged that both these workmen, Pardeshi and Tripathi, are important members of the Union, and it was

felt that the action of the management against them was nothing but their victimisation for their legitimate trade union activities; that both of them had been out of employment since then, and therefore, were entitled to full wages for the entire period of their forced unemployment. In conclusion, the Union has stated that conciliation proceedings were held by the Conciliation Officer (C) Jabalpur, with the management and the Union in this dispute, on 6th and 7th November, 1962, but no settlement could be reached due to the adamant attitude of the management, and upon failure of conciliation this reference was made by the Central Government.

6. Shrimati Rukmani Bai, as the Employer-Proprietor of the Gupta Lime Works, Katni, has filed a written statement dated 10th May, 1963, in reply to the Union's statement of claim in this case, in which it has been stated as follows:—

7. That Pardeshi and Tripathi were employed by Messrs Gupta Lime Works, Katni (hereinafter referred to as the Management), but not in the Barari Limestone Quarry. With regard to Pardeshi, it is stated that he was employed at the Lime-Manufacturing factory of the management, where he was doing general work; that, to the Management's show-cause notice, dated 14th September 1962 Pardeshi in his reply, dated 15th September 1962 had admitted that he was working at the factory as a Station-Peon; that his statement in the said reply that he was on and from 1st January 1961 transferred to supervise the working of the Bhata and to work as a Munshi, is totally false, as he is illiterate and incompetent to perform the duties of a Munshi; the management have further contended that this written reply of Pardeshi clearly establishes that he was all along working at the lime-kiln of the management at Barari, and not at the quarry, as contended by the Union.

8. With regard to Tripathi, the management has stated that he was employed as a Munshi and was entrusted with the work of supervising the unloading and loading of lime wagons, and unloading of some coal received from the collieries; that his appointment was essentially and specifically for the purposes of working as a Munshi at the lime-kilns of the management so as to supervise the loading of lime wagons to be despatched to the buyers; that during the period there was no work at the factory Tripathi was doing alternative jobs at the Barari Quarry, but his original work and appointment was at the factory of the management. The Company has specifically stated that the Union, in its letter, dated 25th October 1962, addressed to the management, had accepted that he was working as a Munshi for wagon loading The management has stated that they were not aware whether Pardeshi and Tripathi were members of the Union; that both these persons were employed at the factory, and their dispute does not relate to their work at the lime-stone quarry, of the management; that the Union had failed to furnish to the management a list of protected persons who were its members.

9. In para 2 of the written statement, the management has categorically stated that Pardeshi was at no time employed at the mine of the management. It has further urged that the management received several complaints from their Manager, about Pardeshi's unsatisfactory work, but the management did not take action against him, because it wanted to give him every possible opportunity to improve his work; that thereupon, Pardeshi had expressed his wish to under-study the work of Conductor of a Truck belonging to the management, and engaged in transporting lime-stone and lime at their works, and that it was at the request of Pardeshi that the management permitted him to under-study the work of Conductor of the Truck: that he worked as such for a period of eighty days and on 14th September 1962, the Driver of the truck reported to the management that Pardeshi had thereafter refused to work on the Truck, that as Pardeshi had voluntarily offered to under-study the work of the Conductor, the proposal for his joining the new assignment had come from him. The management had denied the Union's statement that the management have assured Pardeshi that his new assignmnet was very much like his first one. The management has stated that Pardeshi very well knew that the nature of his new job was quite different from the job he was doing at the factory; that thereafter, the management had served a show-cause notice dated 14th September 1962 upon Pardeshi for his refusal to work and asked him to show-cause why the management should not take action against him for wilful disobedience; that in his letter dated 15th September 1962, Pardeshi had deliberately avoided replying to the allegations made against him in the said show-cause notice, because he had joined the new assignment voluntarily and out of free will. In the reply, he expressed his inability to under-study the work of Conductor, and further pointed out that he was not keeping good health; thereafter, the management asked him to carry on his duties in his new post, but he did not attend to his duties after 14th September 1962, and therefore, a fresh notice was served on him dated 1st October 1962, asking his explanation as to why he was not working in

the job entrusted to him; that Pardeshi's statement in his reply dated 2nd October 1962, that he was attending to his duties was false, as Pardeshi never attended to his duties as under-study for the work of Conductor of the Truck on and from 14th September 1962; that the management had informed the Assistant Labour Commissioner of this by its letter dated 18th October 1962, copy of which was sent to the Union; that since Pardeshi had continuously absented himself from duty from 14th September 1962 without sufficient cause, and in wilful disobedience of the reasonable and lawful orders of the management, he was deemed to have ceased to be an employee of Gupta Lime Works, Katni, with effect from 14th September 1962.

10. With regard to para 3 of the written statement of claim of the Union, the management has stated that as the change in the nature of duties of Pardeshi was effected by the management at his own request, no notice of change under Section 9A of the Act was necessary, the more so as at the time the change was effected, it was specifically made clear to Pardeshi that his new assignment was altogether a different one, and that he would lose all his rights over his present employment, and that he had readily agreed to this; that as a matter of fact, the management had afforded him all reasonable opportunities to fit himself in his new job, instead of taking action against him for his incompetent and unsatisfactory work; that Pardeshi had never approached the management and asked for a return to his original duties; and that the decision in the matter was within the discretion of the employers; with reference to paras 4 and 5 of the Union's statement of claim, the management has stated that Pardeshi having once accepted the terms and conditions of the new appointment, he had lost all his rights on his original appointment; that Pardeshi had accepted the new appointment in the hope of better prospects, and that if he could not carry on the new duties, he had only himself to blame, and that by his wilful absence, Pardeshi had ceased to be an employee of the lime-kiln. It has further denied that the action of the management had amounted to an illegal and unlawful lockout, and that Pardeshi was entitled to be appointed in his original duties; the management has denied that Pardeshi was a lime-stone checker, and has stated that he was working in the lime-kilns of the management since the date of his appointment, and had never worked on the Quarry,; it has denied that he is entitled to any benefits, much less to the same with back wages.

11. With regard to Tripathi, the Company has stated that he was appointed as Munshi at the factory, and his duties were to supervise the loading of the wagons of lime, which work was of a responsible nature requiring his personal attention, so that there may be no complaint about the quality and quantity of goods despatched to the buyers; that he was found negligent in his duties, as the management had received complaints of shortage in loading from the customers and he was by notice dated 30th August 1962 asked to explain the shortage. He failed to give a satisfactory reply to the charges levelled against him, as in his reply dated 11th September 1962 he had stated that he was unable to explain the shortage. On 15th October 1962 one Ram K. Shukhla, the Munshi at the factory left his service, and the Management decided to appoint Tripathi in his place, as the duties of the new post were similar to those performed by him. The new appointment required looking after store materials, which was comparatively less responsible work than the work of supervising the loading of lime into wagons. There was similarity in the work inasmuch as as loading Munshi he had to keep an account of the lime loaded into wagons and to supervise the loading and his new job of Store-keeper related to the keeping of accounts of stores. As both these jobs were similar in nature, notice of change was not necessary. The management has denied that there was any change in the working hours. It has pointed out that as Store Munshi, Tripathi was required to work in all the scheduled hours and it has denied that this new job involved working during all hours. The management has denied that Tripathi was not in the good books of the management; that the management's action was in the best interests of the administration of its business; that the apprehension expressed by the Union that this change would result in reports and charges against Tripathi was unjustified; that this was a case of wilful insubordination and disobedience of the reasonable and lawful orders of the management, and shirking responsibility of the new job entrusted to him as Store-keeper. The Management has stated that Tripathi wanted to continue in employment without accepting any responsibility of the job entrusted to him; that the refusal of Tripathi to take up his new job amounted to wilful insubordination and disobedience of the reasonable and legal orders of the management, and therefore, amounted to misconduct; that by virtue of his continuous absence with effect from 15th October 1962 without reasonable cause, and his wilful disobedience to lawful orders, Tripathi was deemed to have been dismissed from the service of the management with effect from 15th October 1962, and is therefore, no longer an employee of the management. The management has

denied that Tripathi was reporting himself every day, and that, in fact, he had by his letter. dated 24th October 1962, refused to join his new duties, which clearly amounted to wilful disobedience of lawful orders, and amounted to insubordination, and he was, therefore, deemed to have been dismissed from service with effect from 15th October 1962, and that the action of the management, in the facts and circumstances of the case, was justified and proper. It has denied that the action of the Management had amounted to illegal lockout, as alleged by the Union.

12. In para 8 of its written statement, the Management has denied that both these workmen were important members of the Union, or that the management wanted to victimise them for their legitimate trade union activities; that both these workers had ceased to be the employees of the management by wilful insubordination and disobedience of lawful and reasonable orders of the management, and were, therefore, not entitled to any wages or any benefit of any kind. In para 10 and 11 of its written statement, the management has raised certain legal objections, which it has headed as "additional pleadings"; in para 10 the Company has urged that the cases of these two workmen were governed by the provisions of the Madhya Pradesh Industrial Relations Act, 1960, and not under the Industrial Disputes Act, 1947, because Section 3 of Section (1) of the Madhya Pradesh Relations Act, 1960 provides that where the total number of employees on any day exceeds 100 the provisions of the Madhya Pradesh Industrial Relations Act, 1960, would be applicable. It has stated that the management is running a lime industry, in which the total number of employees engaged in the different operations of working had exceeded 100 on any single day during the year, and therefore, it is the Madhya Pradesh Industrial Relations Act, 1960, which applies. In para 11 of its written reply, it has urged that Shrimati Rukmini Bai, Proprietor, Gupta Lime Works, Barari, has been granted a quarry lease for lime sent for burning purposes. Therefore, the Gupta Lime Works is basically and essentially a lime industry concerned with the manufacture of lime, of which lime-stone extraction is only a part. The dispute, therefore, relates to the lime industry, as these persons were employed at the kilns. This case, is therefore to be governed by the Madhya Pradesh Industrial Relations Act, and the Industrial Disputes Act does not apply, and the Central Government is, therefore, not the appropriate government.

13. After these written statements were filed, by an application dated 16th January 1964, Shri Sharma, the General Secretary of the Union, informed the Tribunal that the parties in this dispute who were also parties to two other Industrial Disputes, viz. CGIT 16 of 1967 and CGIT 17 of 1963, had signed an arbitration agreement on 23rd August, 1963, to refer all these three disputes to the arbitration of Shri I. B. Sanyal, Regional Labour Commissioner (C) Jabalpur, under provisions II(iv) of the Code of Discipline in Industry; that the Regional Labour Commissioner had interfered in the dispute in connection with the stoppage of work at the Barari Lime-stone Quarry, and had held conciliation proceedings on several dates in August, 1963, and a settlement has been brought about. It has in the application, enclosed copies of the Arbitration Agreement (Annexure 'A') and of the Memorandum of Settlement dated 23rd August 1963 (Annexure 'B'). It has also enclosed the Award of Shri I. B. Sanyal, R.L.C. (C), Jabalpur, dated 13th December 1963 as Annexure 'C'; and the Union prayed that this Tribunal should pass an award in terms of the Award of the Arbitrator (W. 1A, W. 2A, W. 3A and W5).

14. In his award in respect of these two workmen, Pardeshi and Tripathi, the Arbitrator has stated in his Award, that he felt that there was an element of victimisation involved in the action of the management against these two and the eight other workmen involved in that dispute. He, therefore, held that all the ten workmen deserved to be taken back in employment and paid reasonable compensation. He, therefore, directed that they should be reinstated in service from the date they were rendered idle, and the entire period of idleness be treated as continuous service, and Pardeshi and Tripathi should each be paid Rs. 200 as compensation for unemployment.

15. Upon receipt of the said application dated 16th January 1964 of the Union, a notice was issued on the 27th January, 1964, by this Tribunal, informing the management of the said application of the Union dated 16th January 1964 and enquiring whether it had any objection to an award being made in this reference in terms of the Arbitration Award of Shri I. B. Sanyal, dated 13th December 1963. To this the Company replied on 5th February 1964 (Ex. W3), stating *inter-alia* that the Award of the said Arbitrator was not binding upon it, as it was given without the Company having been given a reasonable and proper opportunity of being heard. It also urged in that petition that the Arbitration Award was not binding upon it for other reasons stated therein, and therefore, the Tribunal should proceed to decide this reference on its own merits. Thereafter, hearing of this

dispute was fixed at Bombay on 25th September, 1965, but the management expressed its inability to come to Bombay because of the emergency then prevailing, and thereafter, the dispute was taken up for hearing at Jabalpur in November, 1965, when the hearing was concluded on 11th November 1965, after both parties had led oral evidence and had filed documents on which they relied. The Union examined Tripathi (W.W.1) and Pardeshi (W.W.2) and the management examined Shri Santosh Kumar Gupta, Partner in the firm of Gupta Lime Works (E.W.1) and Rock Ambroue (E.W.2), the former Quarry Manager of Gupta Lime Works.

16. Before dealing with the dispute on its merits, I would like to dispose of the legal contention urged by the Company in para 11 of its written statement, which I have stated in para 12 hereto, the objection urged being that as the lease of the Barari Quarry is in the name of Shrimati Rukmani Gupta, and not in the name of Gupta Lime Works, this dispute, which is against Messrs Gupta Lime Works, is not maintainable. This point had, however, come up for decision in the industrial dispute in Reference No. 17 of 1963. From my Award in that dispute the management filed a writ petition under article 226 of the Constitution of India—being Miscellaneous Petition No. 218 of 1964—before the Hon'ble Madhya Pradesh High Court. In my Award in that case on the oral and documentary evidence produced before me, I found as a fact that the Barari Quarry is owned and managed by Messrs Gupta Lime Works, and the workmen concerned of the lime-works were employed in the Quarry. Their Lordships held that such a finding of fact could not be disturbed in proceedings under Article 226 of the Constitution. Their Lordships of the Madhya Pradesh High Court, on this point in para 5 of their judgment dated 12th October 1965 were pleased to observe:—

> "The lease of the quarry may be in the name of the petitioner (viz. Rukamnibai Gupta) alone but from that it does not necessarily be held that M/s. Gupta Lime Works the concern owned and managed by the petitioner and her two sons has no interest in the quarry. Indeed the arbitration agreement concluded on 23rd August, 1963, between Santosh Kumar Gupta, representing the Gupta Lime Works, and Shri R. K. Sharma, representing the workmen, proceeded on the basis that the Barari Limestone Quarry belonged to Messrs. Gupta Lime Works, and that it was being worked and managed by them and the stoppage of work in March, 1963 was in the Barari Lime-stone Quarry. In those arbitration proceedings, the petitioner's two sons, Santosh Kumar and Arun Kumar, appear as proprietors of Messrs. Gupta Lime Works. The settlement was arrived at on 23rd August, 1963 between the Gupta Lime Works and their workmen was also on the acceptance of their position that the Lime-stone Quarry belonged to Gupta Lime Works, and the workmen concerned of Messrs Gupta Lime Works were employed on the Quarry. In the above circumstances, it is impossible to contend successfully that no industrial dispute between the employers, Messrs Gupta Lime Works, and their workmen employed in the Barari Quarry existed. If, as has been found by the Tribunal, the lockout was in the Barari Quarry, managed by Messrs Gupta Lime Works, then clearly the Central Government was the appropriate government under section 2(a) of the Act so as to refer the dispute under Section 10. It would, however, appear from the definition of "apropriate government" and "industrial dispute" given in Section 2(a) of the Act that in order to give power to the Central Government to refer under Section 10 an industrial dispute concerning a mine, it is not necessary that the mine should be owned by the employer. It is sufficient if the industrial dispute is between the employer and the workmen employed in the mine for any work thereon. Therefore, even if the quarry was owned by the petitioner, and not by the Gupta Lime Works, still the dispute that arose between the Gupta Lime Works and their workmen on the Quarry for the purposes of transporting lime-stone would be an industrial dispute concerning the mine, within the meaning of Section 2(a) of the Act, giving the Central Government jurisdiction to refer the industrial dispute to the Tribunal in exercise of the powers under Section 10. The reference made by the Central Government by its Order dated 26th April, 1963, was, therefore, valid."

In fact, at the hearing, in view of this finding, the learned Advocate for the employers, Shri Lele, did not press this legal objection. I, therefore, reject this contention, and hold that the reference is valid and legal and I have jurisdiction to entertain it.

17. It has next been urged on behalf of the employers in this reference that both these two workmen, Pardeshi and Tripathi, were not employed in the Barari Quarry but in the lime-kiln of the Company, where more than 100 workmen are employed; and therefore, the Madhya Pradesh Industrial Relations Act, 1960, applied, and not the Industrial Disputes Act, 1947 (Act XIV of 1947), and therefore, the Madhya Pradesh Government and not the Central Government, was the appropriate government for the purposes of this reference. The Union on the other hand has contended that both Pardeshi and Tripathi were employed in the Barari Quarry, which is a mine as defined by the Mines Act, 1952 (Act 35 of 1952), and therefore, under Section 2(a) of the Industrial Disputes Act, 1947, the appropriate government was the Central Government, and this reference was validly made But the question whether both or either of these two workers were employed in the Barari Quarry or in the lime-kiln owned by the Company is a question of fact, with which I propose to deal when I deal with the dispute on its merits. For the present, it is necessary to deal with the legal point urged by Shri Gulab Gupta, the learned Advocate for the Union, that the lime-kilns herein must also be deemed to be a mine as defined by Section 2(j) of the Mines Act, 1952, and therefore, even if it is held on the merits that both these workmen were employed in the lime-kiln and not in the Barari Quarry, this industrial dispute should be held to be, "a dispute concerning a mine" under Section 2(a) of the Industrial Disputes Act, 1947, and the Central Government would be the appropriate government and this reference must, therefore, be held to be valid.

18. Now, Section 2(j) of the Mines Act, 1952, as amended in 1959, defines a mine as follows:—

2(j) "mine" means any excavation where any operation for the purpose of searching for or obtaining minerals has been or is being carried on, and includes—

(i) all borings, bore holes and oil wells;

(ii) all shafts, in or adjacent to and belonging to a mine, whether in the course of being sunk or not;

(iii) all levels and inclined planes in the course of being driven;

(iv) all open cast workings;

(v) all conveyers or aerial ropeways provided for the bringing into or removal from a mine of minerals or other articles or for the removal of refuse therefrom;

(vi) all adits, levels, planes, machinery, works, railways, tram ways and sidings in or adjacent to and belonging to a mine;

(vii) all workshops situated within the precints of a mine and under the same management and used solely for purposes connected with that mine or a number of mines under the same management;

(viii) all power stations for supplying electricity solely for the purpose of working the mine or a number of mines under the same management;

(ix) any premises for the time being used for depositing refuse from a mine, or in which any operation in connection with such refuse is being carried on, being premises exclusively occupied by the owner of the mine;

(x) unless exempted by the Central Government by notification in the Official Gazette, any premises or part thereof, in or adjacent to and belonging to a mine, on which any process ancillary to the getting, dressing or preparation for sale of minerals or of coke is being carried on.

Shri Gulab Gupta has mainly placed reliance on clause (x) of the above definition, and he has argued that the process of converting the lime-stone into lime was a process "ancillary to the getting, dressing or preparation or sale of minerals or of coke". He has, in support of this contention, relied upon the observations of their Lordships of the Supreme Court in the case of Serajuddin & Company and Their Workmen (1962, I LLJ, page 450). In that case, the question that fell for determination was whether the head-office of a concern engaged in the business of carrying on mining operations in relation to chromite and manganese under a lease granted to the Company by the Orissa Government could be termed "ancillary". The industrial dispute arose between the Company and its employees in the head-office. The staff employed by the concern at the head-office at Calcutta looked after the general control of the mines and the sale of its mine products. Separate staff were employed at the mine-site for supervising the work of mining operations. Certain disputes arose between the workmen employed

at the head-office and the management in regard to certain service conditions. The State Government of West Bengal referred the said dispute for adjudication to the State Industrial Tribunal. The validity of the said reference was challenged on the ground that the appropriate government under Section 2(a)(1) of the Industrial Disputes Act, 1947 in respect of disputes in question was the Central Government and not the State Government of West Bengal. Negativing the said contention, it was held by the Hon'ble Supreme Court that in construing the expression "industrial dispute concerning a mine" occurring in Section 2(a) of the Industrial Disputes Act, 1947, it must be first determined what a mine means, and this must be done without reference to the broad definition of "industry" prescribed by Section 2(j) of the Act. Their Lordships of the Supreme Court held that in the light of the dictionary meaning of the word "mine" or in the light of the word "mine" contained in Section 2(j) of the Mines Act, 1952 (Act 35 of 1952), there would be no difficulty in holding that an industrial dispute between the employees engaged in the head-office at Calcutta and the employer is not an industrial dispute "concerning a mine", as the head-office could not be considered an integral part of the mine. Their Lordships observed, "in the absence of any definition of the word "mine" in the Act, we may take into account the dictionary meaning as excavation of any earth or metal, coal, salt, etc. The Mines Act, 1952 (Act 35 of 1952) also contains a definition of "mine" in Section 2(j). The said definition shows inter-alia that a mine means any excavation where any operation for the purpose of searching for or obtaining minerals has been or is being carried out. It is significant that the definition of "mine" under Section 2(j) excludes the office of a mine. This is separately defined by Section 2(k) as meaning "an office at the surface of the mine concerned", so that there is no doubt that the office of the mine, though it may be situated at the surface of the mine itself, is not within the definition of the word "mine". The definition is further clarified when we consider the definition of a person employed in the mine, which is prescribed by Section 2(h). A person is said to be employed in a mine who works under appointment by or with the knowledge of the Manager whether on the surface or not in any mining operation, or in cleaning or oiling any part of any machinery used in or about the mine or in any other kind of work whatsoever, incidental to or connected with mining operations. 'It is obvious that any person employed in the head-office, wherever it may be situated, cannot be said to do a mining operation within the first part of the definition. In our opinion, they cannot be said to be ordinarily engaged in a kind of work which is incidental to or connected with mining operation either".

19. Shri Gulab Gupta has argued that the conversion of the lime-stone which is extracted from the Barari Quarry, into lime at the lime-kiln of the employers herein, should be considered to be work ancillary to the mining operation. I cannot accept this contention, because the working of the kiln and the conversion of the lime-stone into lime is a distinct and separate manufacturing process from the process of mining lime-stone, and it cannot be said that the manufacture of lime-stone into lime, can be said to be a process ancillary to "the getting, dressing or preparation for sale of minerals or coke." For one thing, the resultant product is no longer a mineral or coke. The kiln is at a considerable distance from the Quarry, and the fact that a licence for burning lime-stone in the kilns has been granted would not make the process ancillary to the process of mining lime-stone. If this analogy of Shri Gulab Gupta were to be accepted, then the process of manufacturing iron and steel would also have to be deemed to be ancillary to the process of mining, because steel plants use both coal and iron-ore. I am, therefore, not satisfied that there is substance in this contention of Shri Gulab Gupta.

20. I must also notice two other further legal objections urged by Shri Lele, the learned Advocate for the employers. The first is that this is an individual dispute, and not an industrial dispute. For this contention, Shri Lele has relied upon the decision of the Supreme Court in the case of Express Newspapers Ltd. [A.I.R. 1957 (S.C.) at page 532]. But I consider that this contention has no force, as the dispute, though relating to the claims of only two workmen, has been espoused by a trade union of workmen of this employer, which undoubtedly has a considerable following. It is on record that it was this Union, viz., the Chuna Mazdoor Congress which raised the industrial dispute, had it referred to conciliation, and later to adjudication. It is also this Union with which the employers entered into an arbitration agreement, as noticed by Their Lordships of the Madhya Pradesh High Court in Miscellaneous Petition No. 218 of 1964, referred to earlier. I am, therefore, satisfied that what may have been an individual dispute initially has become an industrial dispute by the fact that the Chuna Mazdoor Congress which represents a substantial number of workmen of the employers herein, has espoused the cause of these two dismissed workmen. In my opinion, this contention has no merit or validity, and is, therefore, rejected.

21. The last legal objection urged by Shri Lele, the learned Advocate for the employers, is that the reference of this dispute to an Industrial Tribunal is improper and invalid. His ingeneous argument is that as the dispute is in respect of discharge or dismissal of workmen, including re-instatement of or grant of relief to workmen wrongfully dismissed, which is the subject-matter of Item 3 to the Second Schedule to the Industrial Disputes Act, 1947, only a Labour Court has jurisdiction to entertain it and not the Industrial Tribunal. Shri Lele has relied upon the following provision of Section 10(1)(c) of the Act:—

> 10. Reference of disputes to Boards, Courts or Tribunals.—(1) Where the appropriate government is of opinion that an industrial dispute exists or is apprehended, it may at any time, by order in writing—
>
> (a) .....
>
> (b) .....
>
> (c) refer the dispute or any matter appearing to be connected with, or relevant to, the dispute, if it relates to any matter specified in the Second Schedule, to a Labour Court for adjudication.

But Shri Lele has not looked further down into clause (d) of Section 10(1) which provides:—

> (d) refer the dispute or any matter appearing to be connected with, or relevant to, the dispute, whether it relates to any matter specified in the Second Schedule or the Third Schedule, to a Tribunal for adjudication.

Thus, reading sub-clauses (c) and (d) of sub-section (1) of section 10 of the Industrial Disputes Act, it is clear that over the matters specified in the Second Schedule, both the Labour Court and the Industrial Tribunal have jurisdiction and the jurisdiction is not exclusively of the Labour Court, as wrongly sought to be contended by Shri Lele. In other words, in respect of subject-matter specified in the Second Schedule, the jurisdiction of both the Labour Court and the Industrial Tribunal is co-extensive and not exclusively of the Labour Court, and the appropriate government has the option to refer a dispute over a subject-matter mentioned in the Second Schedule to either the Labour Court or the Industrial Tribunal. For this reason, this reference, which is undoubtedly over a subject-matter which is mentioned in the Second Schedule, has been rightly referred to an Industrial Tribunal. This contention of Shri Lele, the learned Advocate for the employers, also, fails, and is rejected.

22. I shall first deal with the case of Pardeshi. I have earlier in this award reproduced the submissions of both parties on the merits. In dealing with the merits, it is necessary to remember that under the terms of reference, what I have to decide in the case of Pardeshi is whether the managment of Barari Lime-stone Quarry was justified in asking Pardeshi, Lime-stone Checker, to work as Truck Conductor, and if the answer to the question is in the negative, then what relief is he entitled to. Therefore, the enquiry in terms of this reference must be confined firstly, to determine whether the management was justified in asking Pardeshi to work as Truck Conductor, and if it is held that the management was not justified, then only is the question of relief to be gone into.

23. Pardeshi (W.W.2) in his evidence has stated that he was a lime-stone checker at the Barari Quarry, which job involved duty of separating bad from good quality lime-stone. With regard to his appointment as truck conductor, his version in his evidence is that he was asked to work as a conductor on the truck plying between the quarry and the kiln, and that when he received the management's order asking him to do this job, he stated that he had never done that work before. He has, however, failed to produce the Company's letter to that effect. He has stated that he was told that he should do the work of conductor for three or four days on a trial basis, which he did, but he found that the work was not congenial and that he could not do that work. He, therefore, asked the management to give him back his original job, but the management did not comply with his request, and dismissed him without calling for his explanation or holding any enquiry. In the written statement of claim, however, the story about his appointment is different. There it is stated that Pardeshi accepted the work of truck conductor because the management had assured him that the new assignment was very much like the one of lime-stone checker, and Pardeshi accepted this appointment in order to maintain good relations with the management and please them. But he found that the nature of the work was different from the work he was formerly doing. No explanation has been offered as to how this inconsistent story came to be put forward. The management's case, on the other hand, is that

Pardeshi was working as a Station-Peon in the kiln. Pardeshi in his cross-examination denied that he was working as a Station-Peon. He was then confronted with his letter dated 15th September 1962 (Ex. E5), in which he has clearly admitted that he was working as a Station-Peon in the kiln, and that he was thereafter asked to work as a Munshi. It is, therefore, established that the Company's version that he was working as a Station-Peon at the kiln is the correct one, and Pardeshi had falsely denied the same. With regard to his appointment as truck conductor, the evidence on behalf of the employers is that Pardeshi himself asked to be appointed as truck conductor. The Company's witness (E.W.2), Rock Ambruse, who was the Quarry Manager at the time and who was also looking after the work of the Gupta Lime Works, has stated that Pardeshi was firstly a Station Peon and thereafter, he worked in the kilns, and upon his asking him whether he was prepared to work as cleaner on the Company's truck, Pardeshi stated that since he knew the work of conductor, he would accept the appointment. This witness has clearly stated as follows:—

> "I say he accepted the appointment as a conductor on the truck and worked for about a week in that capacity. He then wanted to go back to his original job. He said he did not want to continue working as a truck conductor, whereupon I served a notice on him. I say that the copy of notice dated 14th September 1962 is a copy of the notice I served on Pardeshi (Ex. E6). After that Pardeshi did not turn up for work He never worked in his original post at the kilns. It is not true that I harassed Tripathi and Pardeshi because of their trade union activities."

In his cross-examination, he stated that if Pardeshi had not volunteered to work as cleaner of the truck, he would not have appointed him on the truck. I have been impressed by the evidence of this witness, and I am satisfied by the evidence on record that Pardeshi himself had willingly accepted his appointments as conductor on the truck, and that later he declined to do that work and stopped attending to his duties from 14th September, 1962.

24. Nor am I satisfied that there was victimisation of Pardeshi because of his trade union activities. He has stated that he has been an active member of the union and an active trade union worker, and used to collect subscriptions. He has in his evidence tried to connect his dismissal with the stoppage of work that occurred as a result of contract labour being employed for transporting limestone from the Barari Quarry to the kilns. It is admitted that the stoppage took place from 14th December, 1964. Pardeshi in his evidence has stated as follows:—

> "About 150 workers were employed by the Company for the purpose of lime-stone transportation. All the workers employed departmentally were asked to work with the Contractor, but the workers did not agree to this. Hence, the Contractor engaged new hands. The department labour opposed the same. The bullock-cart of the Contractor was stopped, and demonstrations and public meetings were held. At that time I was stopped from work, and I participated in the demonstrations, etc. The management wanted me to work as a conductor with the Contractor, because they wanted to harass me for my trade union activities. I did not volunteer to work as a conductor."

This attempt to connect his dismissal with the events that occurred in December, 1962 cannot be believed. The Union's case is that he was stopped from work in September, 1962, whilst the stoppage of the work referred to in the above quoted passage from his evidence admittedly took place from 14th December, 1962, which is two months later. Therefore, his story that he was dismissed from service because he participated in demonstrations, etc., and because he was taking part in Union affairs, cannot be accepted. There is hardly any evidence to support his case of his having been victimised for his trade union activities.

25. With regard to the Union's contention that Pardeshi was always working at the Quarry and had never worked at the kiln, this is completely demolished by his letter of 15th September 1962 (Ex. E5) in which Pardeshi had admitted that he was working as a Station-Peon. The fact that E.W.2, Rock Ambruse had in his cross-examination stated that Pradeshi's name was not struck off from the Form 'B' register, which is required to be maintained under the Mines Rules, does not by itself establish that he was at the time of his alleged dismissal, working at the Quarry. It appears to me that since both the Quarry and the kiln belonged to the same proprietor, there was no hard and fast distinction, and workers were made to work both at the kiln and the Quarry as required. The Company's witness, Shri Ambruse—the then Mine's Manager—(E.W.2)—has stated that Pardeshi's name was maintained in the Register 'B' required to be maintained under the

Mines Rules. The maintenance of his name in a register required to be maintained under the Mines Act would indicate that he was treated as an employee of the Quarry, and the Central Government is, therefore, the appropriate government.

26. It has been urged on behalf of Pardeshi that even after 15th September 1962 he continued to work in his former post till about five months prior to the date when he gave evidence before me at Jabalpur on 10th November 1965, *i.e.* to say, that he had continued to work 2½ years in his former post without drawing any emoluments. The story appears to me to be improbable and far-fetched, and there is no evidence on record beyond the bare word of Pardeshi to support it.

27. In the result, I am satisfied that the Company was justified in asking Pardeshi to work as a truck conductor. The evidence indicates that he willingly agreed to do so. I am inclined to accept the management's story that he had volunteered to work and had worked as truck conductor there for seven days and had thereafter abandoned the job. In my opinion, no notice of change under Section 9A of the Act was necessary, nor in the circumstances, was a charge-sheet necessary, and the evidence on record shows that he was not justified in refusing to do his job of truck conductor after he had accepted the same. In view of the finding in the affirmative on the first question. The question whether Pardeshi is entitled to any relief does not arise.

28. I shall now deal with the case of Tripathi. I have with regard to him also reproduced the parties' statements on the merits of his dismissal. Tripathi was also examined at the hearing by the Union (W.W.1). This dispute has arisen over Tripathi's refusal to accept the work of Store-keeper, to which post the management appointed him by its Order dated 23rd October 1962 (Ex. E7). The terms of reference with regard to him also is whether the management of Barari Lime-stone Quarry of Messrs Gupta Lime Works, Katni, was justified in asking him to work as Store-keeper, and if not, to what relief he is entitled. Therefore, the only question I have to consider is whether the management's order asking him to do the work of Store-keeper was justified.

29. Now, the first question necessary to be decided is whether Tripathi was working on the date of his dismissal at the Quarry or the kiln. From the evidence of the Company's witness, Rock Ambruse (E.W.2), who was the Mine's Manager at the Barari Quarry at the relevant time, there is little doubt that Tripathi was at that time employed and was working in the Quarry as Quarry-Munshi. Shri Ambruse in his cross-examination by Shri Gulab Gupta, the learned Advocate for the Union, has stated as follows:—

> "I have also not struck out the name of Shri D. B. Tripathi from the Form 'B' Register, as that would have been against the provisions of the Mines Rules."

It is admitted that the Form 'B' Register was maintained as required by the Mines Rules under the Mines Act, 1952. It is thus clear that at the time of his dismissal, Tripathi was employed in the quarry as Quarry-Munshi, and therefore, the appropriate government for the purpose of the reference of this dispute was the Central Government, and therefore, this reference must be held to be valid and competent.

30. Now, on the merits, Tripathi in his evidence has stated that at the time his services were terminated in October, 1962 he was working as a Quarry-Munshi, his duties being to take the attendance of the workers who were engaged in lime-stone breaking at the Quarry. His statement in his evidence that he had put in 17 years service, and that he was the Joint Secretary of the Chuna Mazdoor Congress, has gone unchallenged in cross-examination. He has stated that there was a dispute with the management with regard to proper payment of wages to the workers, but the major part of his evidence in examination-in-chief refers to the subsequent dispute in 1962 over the employment of contract labour in the place of departmental labour, for transportation of lime-stone from the quarry to the kiln; and he has stated that the Union had protested against this by organised meetings, and by holding demonstrations. In his evidence he stated that Shri Santosh Kumar Gupta, son of Rukmani Bai Gupta (E.W.1) had advised him to give up his trade union work, but he declined to comply with the request, whereupon Shri Santosh Kumar Gupta started harassing him in every way. In his examination-in-chief, giving reasons why he had refused to accept his appointment as Store-keeper, he has stated as follows:—

> "The job called for 24 hours duty. The store-man is required to work all the time, because the work of loading and unloading continues all the time, and the Store-man is required to issue kerosene oil, etc. all

the time. I was not capable of this work. I could not have attended to my union work if I had accepted this job. I could not have attended the processions, demonstrations, etc. which were to be organised by the Union at that time. The purpose of the management in sending me to this new job was only to stop me from working with the Union. Including myself, I say that 10 workmen were stopped from work because of the difference of opinion between the Union and the management on the question of contract labour. The Company also declared a lock-out which lasted for five months. The Company also started cases before the Tehsildar Magistrate, Katni, and a case against the workmen in the Labour Court of Jabalpur. I say that I was working at the Quarry and not at the kiln."

I may pause here and state that, as in the case of Pardeshi, so also in the case of Tripathi, it is sought to be made out that he was dismissed because of his having taken part in meetings and demonstrations against the introduction of contract-labour system. This contention is chronologically not supportable, because it is admitted that his dismissal took place in October, 1962 while the stoppage of the bullock-cart and protests against the employment of contract labour took place on 14th December 1962, and it is admitted that the lock-out commenced in March, 1963, and lasted thereafter for 5½ months.

31. The Company's case in cross-examination of Tripathi was that Tripathi had wrongfully and unjustifiably refused to work as a Store-man, because, in fact, he had in 1958 worked as a Store-man. He was confronted with the stock register (Ex. E1) in which he admitted there were entries in his own hand-writing at pages 60, 61, and his signatures appear at pages 57, 59, 77, 80, 81 and 85 and other subsequent pages of that register. Tripathi, however, stated that he had prepared this stock register (Ex. E1) on one day at the order of Shri Choube, the Manager, and he had volunteered that he did this because there was no Munshi. He has, however, tried to explain that though of different dates, the entries were made on one day, as they were copied from some paper which Shri Choube was maintaining. I find it difficult to accept this explanation, as the stock register appears to have been maintained in the ordinary course of business, and it is admitted that the entries in the stock register are in his hand-writing and his signature appears on several pages bearing different dates.

32. It is further the Company's case that Tripathi had done work of loading lime in the kilns. Tripathi's case was that from the beginning he was working only in the Quarry. He was, therefore, asked in cross-examination whether he had done any work of loading lime, which he denied. He was then confronted with a writing dated 11th September 1962 (Ex. E2), and he admitted that it bore his signature. This letter was written by him in reply to a notice addressed to him by the management, which he acknowledges in the letter as having been received by him on 30th August 1962. Tripathi's explanation that the letter referred to the loading of lime-stone and not lime is clearly untrue, because reading the writing, it is clear that it refers to the loading of lime, as it refers to loading in terms of maunds, which can only be in respect of the loading of lime and not lime-stone, as lime-stone is never weighed in terms of maunds. He was next confronted with entries on pages 86 and 87 of another stock register and he admitted that the entries therein were in his hand-writing [Ex. E3, (1)(2)] but he added that only entries on those pages in that stock register were in his hand-writing. But that would make no difference because these entries establish that he had also done the work of making entries in the stock register.

33. It was next contended in justification of Tripathi's refusal to accept the appointment of Store-keeper, that he was incapable of doing the work of Store-keeper; he admitted in cross-examination that his work as Munshi involved reading and writing, and also of making entries. He, however, stated that the work of Store-man was different from that of Munshi, because the Store-man has to work for 24 hours. He had, however, to admit in cross-examination that even as Munshi he had worked on night duty. But he stated that he did that work only when there was no other Munshi available. He denied that the workmen are paid for night working. He was then confronted with the overtime register (Ex. E4) which contains his signature, and he tried to get out of it by saying that he was forced to put his signature in that register. From this evidence, I am satisfied that Tripathi had in the past done the work of making entries in stock registers, and that his statement that he was not competent to do the work of Store-man was not justified. The registers and writings on record (Ex. E1, Ex. E2 and Ex. E3) clearly establish that whenever required, Tripathi also used to do work in the lime-kilns, and that his work was not exclusively confined to the Quarries. His story that he was asked to do the work of a Stores-Munshi to prevent him from

doing his trade union activities is also not at all impressive. I am not at all satisfied that the Union has succeeded in establishing this case. There is not sufficient evidence on record to justify his plea that the work of Store-man requires him to be on duty for all the 24 hours. It is established that even as Munshi he was required to do night duty whenever occasion demanded. The Union's story that he was victimised for his trade union activities is a'so not borne out by the evidence on record. It is true that he was stopped from work in 1959, and was re-instated in February, 1960 by the settlement reached in conciliation (Ex. W1). But there is no evidence whatsoever as to the circumstances under which he was stopped from work. Only the conciliation settlement is filed, but that does not indicate how he came to be stopped from work. In the cross-examination of Shri Santosh Kumar Gupta, it was brought out that in a settlement reached on 14th July 1962, the Company had agreed to pay wages to Tripathi from 7th March 1960 to 28th July 1960 for a certain period of enforced idleness, but that fact would not by itself establish that the management, when it asked him to do the work of Store-man, had the idea of preventing him from doing his trade union work. I am not at all impressed by the story that if he had accepted the Store-man's post, he would not have been able to attend to his trade union work. He has in his examination-in-chief stated that if he had accepted this work, he would not have been able to organise processions and hold demonstrations. But it is clear that he indulged in these activities only after December, 1962, and in any case, that would be no justification for refusing to accept an order which otherwise was justified. There is not sufficient evidence to show that if he had accepted the Store-man's work, he would have been required to be constantly on night duty, and therefore, not be able to do his legitimate trade union work. I think this plea is an after-thought, and one which cannot justify his refusal to work as a Store-man.

34. There is, however, one point which remains to be disposed off, and it is the reference to arbitration agreement of Shri Sanyal, Regional Labour Commissioner (Central) Jabalpur. The arbitration agreement is on record as Ex. W1A. The terms of settlement on which the workers agreed to resume wo.k is on record as Ex. W2A and the Award of the learned Arbitrator is Ex. W5.

35. The evidence of Shri Santosh Kumar Gupta (E.W.1) on the question of the reference to arbitration etc. cannot be believed for a moment. His evidence is not worthy of any credence, and there is no doubt that he spoke a number of un-truths and I am of the opinion that the employers herein had entered into the arbitration agreement but have gone back on it without any regard to their original agreement to abide by the Arbitrator's findings. The Company has, however, objected to the award in arbitration of Shri Sanyal, the then Regional Labour Commissioner (Central) Jabalpur on other grounds, viz. that the Arbitrator did not afford them proper opportunity to put forward their case, etc. The Union has not brought up the question at the hearing before me. Therefore, that question was never argued, and however, wrong the management may be in having denied that it had voluntarily entered into arbitration agreement, I am not called upon to decide the question whether Shri Sanyal's Award is legally binding on the parties and enforceable or not. The reference has been argued before me on its merits, and I must decide it on the evidence on record before me.

36. The Union stated that the management served no charge-sheet and held no enquiry. The management's plea is that Tripathi having refused to accept the appointment of Store-man, no further action on its part was necessary, and that in any case the matter had been gone into fully on merits in this case. The reference to me is whether the order asking Tripathi to do the work of Store-man was justified, and if not, to what relief Tripathi is entitled. The Company's letter (Ex. E7) by which he was asked to do the work of Store-man states that Shri Ramkaran Shukla had left service, and therefore, it was necessary to appoint someone to do the work of Store-man, and the letter directed Tripathi to do that work. The fact of Shri Ramkaran Shukla having left service, and that it was necessary for the Company to appoint someone in his place, is not challenged. The whole story of the Union is that Tripathi was asked to do this work to deprive him of the opportunity to do trade union work, and with a view to victimise him; and as I have pointed out earlier, the Union has failed to make out that case. There is also, in my opinion, no merit in the Union's contention that there is a violation of Section 9A of the Industrial Disputes Act, 1947. As I have stated earlier, it appears, from the documentary record tendered at the hearing that like Pardeshi, Tripathi was also employed both at the lime-works as also the Barari Quarry, and therefore, no notice of change was called for in this case.

37. On the evidence, both oral and documentary on record, I am more than satisfied that the Company was justified in asking Tripathi to do the work of Store-man, and that Tripathi was not justified in refusing to do that work, and

I answer the issue accordingly. As the first question under reference regarding Tripathi is answered in the affirmative, I am not called upon to consider the question whether he is entitled to any relief.

38. No order as to costs.

[No. F. 23/5/66-LRI.]

New Delhi, the 15th April 1966

S.O. 1237.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of Shri N. K. Chaddha, Arbitrator in the industrial dispute between the employer in relation to the management of Messrs Orissa Mining and Engineering Company, Contractors in Thakurani Iron Mine of Messrs Orissa Minerals Development Company Limited and their workmen which was received by the Central Government on the 30th March, 1966.

AWARD UNDER SECTION 10A OF THE INDUSTRIAL DISPUTES ACT

PARTIES:

Sri N. K. Paul, Managing Partner, M/s. Orissa Mining and Engineering Co., Contractors in Thakurani Iron Mine of M/s. O.M.D. Co. Ltd., Thakurani, P.O Barbil, Dist. Keonjhar—*Representing Employer.*

General Secretary, Barbil Workers Union, P.O. Barbil—*Representing Workmen.*

The above referred parties by mutual agreement, dated the 16th December, 1965, had agreed to refer the following for arbitration under Sec. 10A of the Industrial Disputes Act to the undersigned:—

"Are not the workmen of M/s. Orissa Mining and Engineering Co., Contractors in Thakurani Iron Mine of M/s. O.M.D. Co. Ltd., who have been appointed on or after 1st January, 1964 and have been receiving total emoluments exceeding Rs. 65 per month or Rs. 2·50 P. per day entitled to interim increase in wages in accordance with the revised interim recommendations of the Central Wage Board for Iron Ore Mining Industry."

The above referred agreement was published by the Government of India under their order No. 24/35/65-LR-I, dated 14th January, 1966.

The hearing was fixed for 26th March, 1966. On the date of hearing the parties have filed in application (copy enclosed). I accept the request of the parties and give my award accordingly. Government may seek clarification on the issue from the Central Wage Board for Iron Ore Mining Industry and any decision given by the Wage Board shall be final and binding on the parties.

(Sd.) N. K. CHADDHA,

Arbitrator and Regional Labour Commissioner (Central) Cal.

BEFORE ARBITRATOR

The parties beg to submit:

1. They are grateful to the arbitrator for having accepted their request to arbitrate in the dispute in terms of their mutual settlement, dated 16th December, 1965.

2. On reconsideration they have felt that it would be more appropriate if the decision on the issue is given by the Wage Board for Iron Ore Mining Industry.

3. The parties agree that a reference may be made to Wage Board for Iron Ore Mining Industry by the Government. The terms of reference may be

"Whether the workmen who have been appointed on or after 1st January, 1964 and have been receiving total emoluments exceeding Rs. 65 per month or Rs. 2·50 per day are entitled to interim increase in wage in accordance with the revised Interim Recommendations of the Central Wage Board for Iron Ore Mining Industry."

4. That decision of the Wage Board shall be final and binding on the parties.

It is, therefore, prayed that the Arbitrator may dispose of the reference accordingly.

Dhanbad, dated the 15th March, 1966.

AWARD

By its Order No. 20/2/65-LRI, dated the 18th June, 1965, the Government of India, Ministry of Labour and Employment, referred under Section 10(1)(d) of the Industrial Disputes Act, 1947, for adjudication to this Tribunal an industrial dispute existing between the employers in relation to M/s. Eastern Manganese and

Minerals Limited, Domcheanch P.O., Dist., Hazaribagh and their workmen in respect of the matters specified in the schedule annexed to the order of reference which is reproduced below:

"SCHEDULE

Whether the action of the management of M/s. Eastern Manganese and Minerals Limited, (Post Office Domchanch—District Hazaribagh) in transferring the workmen mentioned below from the mines specified against each of them in column (4) to the places so specified in column (5) with effect from the respective dates indicated in column (6) was an act of victimisation of the workmen concerned?

Sl. No.	Name	Designation	Name of the mine where from transferred	Name of the place where transferred	Date from which transferred
1	2	3	4	5	6
1.	Shri Jiwat Singh	Darwan	Domchanch Mica Mine	Sibsagar Factory owned by M/s. Chrestien Mica Industries Ltd. P.O. Domchanch	29-10-64
2.	Shri B. D. Bansal	Checker	Bhelwaria No. 12 Mica Mine	Do.	27-10-64
3.	Shri Jagar Nath Singh	Pump Khalasi	Kukurkelwa Mica Mine.	Sibsagar Workshop owned by M/s. Chrestien Mica Industries Ltd., P.O. Domchanch	4-12-64

II. If so, to what relief are the workmen entitled?".

2. On 26th February, 1966, at D.V.C. Circuit House at Tilaiya Dam, which was fixed as the venue for the hearing of the reference, to suit the convenience of both the parties, Shri B. D. Bansal, one of the three concerned workmen, who is Serial No. 2 in the order of Reference, appeared before me and filed a petition on behalf of himself and Shri Jagannath Singh, the concerned workman, who is Serial No. 3, in the Order of Reference, stating that they had come to know that the union had compromised with the management but they do not know of it and they do not know on what terms the compromise had been effected and, therefore, they prayed that the case be heard on merits and they would accept the award. Shri B. D. Bansal, however, stated orally that the other concerned workman Shri Jiwat Singh, who is Serial No. 1 in the Order of Reference, had compromised and accepted his claim-money and now he had nothing to do with the present dispute.

3. As till 10-45 A.M., as the case was fixed at 9 A.M., at the instance of the parties, neither the union nor the management appeared, I directed both the union and the management to appear on 14th March, 1966, at the same place to file their written statements or their agreed compromise, if they had compromised their disputes. After recording the above order, I left D.V.C. Circuit House at Tilaiya Dam for Patna at 11 A.M. and on the way when I reached Jhumritilaiya at 11-30 A.M., Shri Girdhar Gopal, Labour Officer and representative of the management, handed over to me a joint petition of compromise.

4. The joint petition of compromise dated 22nd February, 1966, referred to above was signed by Shri R. G. Agarwala, General Manager, Eastern Manganece and Minerals Limited; by Shri Harish Chandra Mishra, General Secretary, Abhrak Mazdoor Union and Shri K. K. Sharma, Assistant Labour Commissioner, Hazaribagh and both the parties therein prayed that an award in terms of the compromise be passed.

5. On this petition I directed notices to be issued to (1) the union's General Secretary, Shri Harish Chandra Mishra, (2) Shri Girdhar Gopal, representative of the management, (3) Shri B. D. Bansal and (4) Shri Jagannath Singh, the two concerned workmen, who did not accept the compromise, to appear and to show cause why the compromise should not be recorded.

6. In pursuance of the above order, Sarvashri Jagannath Singh and B. D. Bansal—two of the concerned workmen, who disputed the compromise, appeared

and later Sarvashri Girdhar Gopal, Labour Officer and S. N. Sinha, Law Officer of the management, also appeared and supported the compromise against all the three concerned workmen.

7. Neither the union nor Shri Harish Chandra Mishra, its General Secretary, who had signed the compromise inspite of receiving registered letter on 2nd March, 1966, appeared before the Tribunal to support the compromise as against these two contesting workmen also.

8. Shri Jiwat Singh did not appear nor did he appear at any stage of the proceeding to contest the compromise, and, therefore, it is implied that he accepted the compromise.

9. After hearing the representatives of the management and the two concerned workmen I decided to accept the compromise in part with regard to Shri Jiwat Singh and to reject the compromise with regard to the other two concerned workmen, namely, Sarvashri B. D. Bansal and Jagannath Singh and to hear the reference on the merit at a later stage as against them.

10. The result, therefore, is that the reference is disposed of in terms of the compromise, which is marked Annexure "A", only in respect of Shri Jiwat Singh, Darwan, who is one of the three concerned workmen, Serial No. 1 in the Order of Reference and an award is made and the compromise Annexure "A" is made a part of it. With respect to the other two concerned workmen, Serial Nos. 2 and 3, the compromise is rejected and further award in respect of them will be submitted when both the parties are heard on merits.

11. This is the award which I submit *only in respect of Shri Jiwat Singh*, one of the three concerned workmen, under Section 15 of the Act and it is made clear that the award in respect of the other two concerned workmen, namely, Serial Nos. 2 and 3 will be submitted later on, when their disputes will be decided on merits as the compromise has been rejected as against them.

MEMORANDUM OF SETTLEMENT

Representing the workmen.—Shri Harish Chandra Mishra, General Secretern Manganese and Minerals Ltd., Domchanch P.O., Hazaribagh Dist.

Representing the workmen.—Shri Harish Chandra Mishra, General Secretary, Abhrak Mazdoor Union, P.O. Jhumritalaiya, Dist., Hazaribagh, Bihar.

SHORT RECITAL

This union has raised a dispute regarding the transfer of Shri Jiwat Singh, Darwan, Shri B. D. Bansal, Checker, and Shri Jagannath Singh, Pump Khalasi. This dispute has been referred to adjudication by the Government of India, Ministry of Labour and Employment *vide* their order dated 18th June, 1965.

The union has also raised a General Demand regarding the right of the management for transferring the employees from one place to another or from one sister concerned to another.

After the reference the parties showed a desire to discuss this dispute mutually. As a result of the mutual discussions held on 22nd February, 1966, in the presence of the Assistant Labour Commissioner (Central), Hazaribagh, they have arrived at the following settlement.

Terms of Settlement

(1) It is agreed by both the parties that Shri B. D. Bansal will be paid Rs. 705·54 P. (Rupees seven hundred five and paise fiftyfour only) in full and final settlement of all his dues on this Management, within a week from the date of this Settlement. After the acceptance of this amount Shri Bansal will have no claim whatsoever over this Management. This payment is over and above his leave wages and earned wages.

(2) Shri Jagannath Singh will be given one additional increment with effect from 1st February, 1966. He will have no claim for his transfer and the Union will also drop this matter before the Hon'ble Tribunal.

(3) The Union is not pressing the case of Shri Jiwat Singh, Durwan as he has already taken his full and final settlement.

(4) The Union recognises the right of the Management to transfer the monthly paid employees from one place to another or from one concern to another sister concern and in future they will not raise any demand or dispute in this respect.

(5) The Union is agreeable to send one copy of this Agreement to the Honourable Tribunal with the request that an Award on the line may please be given.

S.O. 1240.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Industrial Tribunal, Hyderabad, in the industrial disputes between the employers in relation to the Singareni Collieries Company Limited and their workmen, which was received by the Central Government on the 12th April, 1966.

BEFORE THE INDUSTRIAL TRIBUNAL, ANDHRA PRADESH, HYDERABAD

PRESENT:

Shri Mohammad Najmuddin, M.A., B.L., Chairman, Industrial Tribunal, Andhra Pradesh, Hyderabad.

INDUSTRIAL DISPUTE No. 51/1964

BETWEEN

Workmen of Singareni Collieries Co. Ltd., Kothagudium.

AND

The Agent, Rudrampur Division, Singareni Collieries Co., Ltd., Rudrampur P.O.

APPEARANCES:

Sri M. Komaraiah, General Secretary, Singareni Collieries Workers' Union, *for workmen.*

Sri T. P. Solomon Raj, Assistant Personnel Officer in the Collieries *for the Management.*

AWARD

The Government of India, in its Ministry of Labour and Employment, New Delhi, have, by its Order No. 7/14/64-LR-II, dated 13th November 1964, referred this case for adjudication. The issues settled as per Schedule annexed to the reference are these:

(1) Whether, having regard to the nature of duties performed by Sri M. J. Samuel, Detention Clerk, at No. 5 Incline, Coal screening plant, Rudrampur, of the Singareni Collieries Company Ltd., the management of the said Collieries is justified in not placing the workman in Grade-II in the scale of Rs. 48—100.

(2) If not, to what relief is the workman entitled and from what date?

2. The reference on hand was made to my learned predecessor Dr. Mir Siadat Ali Khan constituting him as Industrial Tribunal. After I succeeded him as Presiding Officer of the Industrial Tribunal, Andhra Pradesh, the Government of India have by Order dated 31st January 1966 designated me as Industrial Tribunal for disposal of the case.

3. On notice being given to the General Secretary of the Singareni Collieries Workers' Union, Kothagudium, a statement of claims was filed by him on behalf of the worker, M. J. Samuel. It is stated therein that Samuel had been designated as Detention Clerk at No. 5 Incline, C.S. Plant, and that he had been working as such from 1st October 1956, and that while the other clerks have been placed in Clerical Grade-II, he continues to be placed in Clerical Grade-III although his duties are no less responsible than the clerks who are in Clerical Grade-II. The scale of pay of clerks in Clerical Grade-II is Rs. 48—100 while that of clerks in Clerical Grade-III it is Rs. 48—82. It is pointed out that although designated as detention clerk, Samuel had been doing the duties of a loading clerk who is in Grade-II, and it is therefore claimed that Samuel also should be placed in Grade-II with effect from 1st October 1956. What such duties are have been set out in the statement of claims. I will refer to them when discussing the evidence in the case.

4. The management filed counter pointing out that Samuel is not entitled to be placed in Grade-II because as detention clerk the duties he discharges are simple and minor type of clerical duties not requiring any skill, and that any responsibility is not attached to those duties. Reference is made to the Mazumdar Award which became effective from 26th May 1956. That Award was in respect of workers in mines and collieries. It is stated in the counter that three grades of clerks are provided for in that Award, and that the management had, having regard to the duties he performs and to the nature of his work, rightly placed Samuel in Grade-III. It was stated in the statement of claims that two other clerks at the same No. 5 Incline, C.S. plant, who were also designated as detention clerks and were performing the same duties as those of Samuel, have been placed in Clerical Grade-II while Samuel remained in Clerical Grade-III. This point is countered in paragraph 5 of the counter by pointing out that one of the two other clerks was formerly working as magazine clerk and the other was working as man-way clerk, and that, while so, they were in Grade-II. It is explained that as there was surplus of clerks in those departments, and the two clerks referred to being among those who were surplus, the management had utilised their services as detention clerks and therefore had to pay them according to the scale of Clerical Grade-II which they were getting formerly. It is pointed out that Samuel could not base his claim for Clerical Grade-II on the fact that the other two clerks are being paid, as hitherto, in the scale of Clerical Grade-II. Lastly, it is pointed out that any relief cannot be granted to M. J. Samuel.

5. Two witnesses were examined for the workman-claimant. Samuel examined himself as W.W.1. Two witnesses were examined on the side of the management. M.W.1 is L. Viswanadham who is a Junior Engineer in the Collieries. M.W. 2 is a detention clerk. Exs. W1 to W6 were marked on the

side of the claimant, and Exs. M1 to M5 were marked on the side of the employers. My attention was drawn to Appendix XVI of the Mazumdar Award. Three clerical grades are set out in that Appendix. I will refer to this Appendix during the course of discussion.

6. The case for the workmen was argued by Mr. M. Komaraiah, General Secretary, Singareni Collieries Workers' Union, and that for management was argued by Mr. T. P. Solomon Raj, Assistant Personnel Officer in the Collieries

7. The designation detention clerk would appear to be a local one with the Singareni Collieries. Among the three clerical grades enumerated in Appendix XVI of the Mazumdar Award, this designation does not find mention either in Grade-II or in Grade-III. Of course it is not in Grade-I. Among those enumerated under Grade-II in that Appendix are loading clerks. The case of the claimant, Samuel, is that actually he is doing the duties of a loading clerk and that therefore he is entitled to Grade-II pay scale. On the other hand there is no such designation as loading clerk in the establishment of the Singareni Collieries. That is what M.W.2 stated at the end of his cross-examination. The question would therefore be as to what are the duties which Samuel is discharging. Mr. Solomanraj for the Management pointed out that as per Grade-II in Appendix XVI of the Mazumdar Award detention clerk is not one of the categories in the said grade. But it might atonce be pointed that that category is not in Grade-III, either. Therefore, as I said, it is to the nature of the duties performed by Samuel that we should look before deciding the question whether or not he should be placed in Grade-II.

8. Examining himself as W.W.1 Samuel said that although his designation was as detention clerk, he was actually doing the duties of a loading clerk. He gave details of his duties and the nature of work involved. Every day about 150 wagons are received, and they have to be loaded in time and get them ready for despatch in order to avoid demurrage. Loading of each batch of wagons and making them ready for despatch should be completed within five hours. It is the duty of the detention clerk to see that the loading of wagons is completed on time. and he is responsible for any demurrage should the wagons be detained beyond the specified time. He has certain duties to perform in order to avoid demurrage. He prepares the arrival and departure statements of the pilots. Ex. W1 is one such instance. He also prepares the yard book. Ex. W3 is such an instance. He also writes the detention book such as Ex. W4. He should also prepare the demurrage statement. It is as per Ex. W2.

9. A detention clerk would. as normally implied by the words in the designation. be concerned mainly with noting the timings of arrival and departure of wagons, i.e., recording the timings of detention of the wagons. If that is all his duty, then it would be of a minor clerical nature and not involving any particular responsibility worth the name. But that is not all he does. He does more than it. Apart from what Samuel himself has said from the witness box. there is the management's own witness M.W.1 who is an Engineer. He said that he knew detention clerk Samuel and that his duties were these:

(1) To note down the number of empty wagons as soon as they arrive.

(2) When the wagons leave the site he has to note down their numbers when they are despatched.

(3) He should also maintain a register to show the number of hours the empty wagons were detained before they were loaded and despatched.

(4) He has to submit a weekly statement showing whether any wagon was detained in excess of the time allowed, and whether any demurrage was incurred.

(5) He has to intimate to the loading inspectors about wagons which have arrived first, and would ask them to see that they are despatched first.

As to the responsibilities of the detention clerk, the witness said as follows:—

(1) If a wagon is detained so as to incur demurrage, "we the Engineers" ask him why it had been detained beyond time.

(2) The responsibility for demurrage lies upon the loading inspectors, but however "we ask Samuel also about the demurrage for the reason that he has to give the loading inspectors the timings, and the responsibility for demurrage falls upon him if he fails to give timings to the loading inspectors."

It is clear from what M.W.1 said that the duties of a detention clerk, so named, are more than mere clerical work. Demurrage would be incurred if loading is not done on time and the loaded wagons are not despatched in time. If the detention clerk, to use his local designation, is not watchful about the loading of the wagons in time so that they are despatched in time, the company may incur demurrage, and some times such demurrage may be heavy. Therefore it seems to me that detention clerk does not only the duties of a detention clerk as such, but also he has the responsibility to see to it that the loading and despatching is done on time. Ex. W5 is a letter which Samuel wrote to the Engineer intimating that certain empty wagons should be loaded in time and cleared by Pilot No. 3 and giving similar information, and requesting the Engineer to arrange that they should be loaded soon. Ex. W5/1 is letter from Samuel to the loading inspector at No. 5 incline, C.S. plant, intimating that certain wagons were taken into placement and that they should be cleared by Pilot No. 4. It is seen from these two letters that the duties of Samuel were not confined to merely noting the detention timings but also extended to seeing to it that the placements were property made and also to give information to the loading inspectors about the placements and to impress upon them the necessity of loading and clearance on time. The detention clerk prepares the demurrage statement: I have already drawn attention to what M.W.1 said, viz., that if demurrage is incurred for exceeding the time of detention the responsibility for the demurrage falls upon the detention clerk also. M.W.2, Y. Luke, is also a detention clerk. He is in Grade-II. He was formerly magazine clerk in Grade-II, and he is among the staff found to be surplus in that department in the year 1956 whereupon he was transferred to the labour training pool. From that pool he was assigned the work of a detention clerk but continuing to get his Grade-II pay. He made a significant statement in his cross-examination when he said that there is no category of loading clerk in the establishment of the Singareni Collieries. When M.W.2 referred to loading clerks he was presumably referring to the clerks holding the local designation of detention clerks. Quite obviously the detention clerk has to keep a watchful eye on the progress of loading lest any delay might result in demurrage. That is the reason why the detention clerk prepares the demurrage statement. Thus it is seen that the duties of a detention clerk exceed the duties of a mere detention clerk and extend to keeping an eye upon the loading operations also. W.W.2 is a weigh bridge clerk. He said that it is the duty of the detention clerk to give directions to the loading inspector and the loading mazdoors so that the time allotted for loading and despatching is not exceeded, and that otherwise he would be responsible if demurrage is incurred. The witness said that it is also the duty of a detention clerk to keep an eye on the yard position. It is in evidence that the yard is nearly one mile long. Thus it is seen that expedition in loading operations depends upon the alertness and watchfulness of the so-called detention clerk, and since he may be held responsible for any demurrage, he has to see to it that loading is done on time and the wagons are destpatched according to priority. This is evident from Ex. W5 and W5/1.

10. It may be that the management have locally created the designation of detention clerk. Part of the duties are no doubt of a detention clerk as such, but the more important part of his duties are of a loading clerk as pointed in the paragraph above. There is no category of detention clerk in either Grade-II or Grade-III appearing in the Appendix XVI to the Mazumdar Award. On the other hand the management do not have a category called loading clerk. I am clear that M. J. Samuel has been discharging the duties of loading clerk besides performing the duties of a mere detention clerk. That being so, the management is not justified in not placing M. J. Samuel in Grade-II in the scale of Rs. 48—100. My finding under Issue I is that he should be placed in the Grade-II in the scale of Rs. 48—100.

11. The next question is as to what is the point of time from which the scale in clerical Grade-II should be given to Samuel. The management have filed five documents. Ex. M1, dated 18th September 1961 is a memorandum of settlement between the management and the representatives of the workmen about Y. Luke (M.W. 2). According to it he was promoted from Grade-III to Grade-II with effect from 26th May 1956. It will be noted that Y. Luke (M.W. 2) has told us from the witness box that he was formerly a magazine clerk and that even though he was posted as detention clerk, his former grade-II was continued. But it will be noted that it was not until the workers' representative made an issue of it with the management that Y. Luke was given Grade-II in the month of September 1961 with retrospective effect from 26th May 1956. It was on this date that the Mazumdar Award had come into effect Ex. M2, dated 16th March 1961 is a petition from a detention clerk K. Joseph for being given Grade-II because formerly he was working in that grade in the main stores.

Ex. M3 is information furnished about Joseph. Ex. M4 is a letter to the Pay Master intimating that Joseph's pay has been revised to the scale of 48—100. Ex. M5 is actually the order in respect thereof with retrospective effect from 26th May 1956. If anything, Exs. M1 to M5 help the claim of Samuel for payment in Grade-II scale with retrospective effect. But the question is what should be such point retrospectively. In respect of Luke and Joseph retrospective effect was given from 26th May 1965 because even at that point of time they were in Grade-II, viz., Rs. 48—100, and that is the date on which the Mazumdar Award came into effect. In other words, they should not have been put in Grade III at a'l by reasons of exigencies over which they had no control. The case of Samuel is somewhat different. It was not until early in the year 1964 that he had claimed that he should be given Grade-II. The efore I direct that he shall be placed in the pay scale of clerical grade-II with retrospective effect from 1st January 1964. He shall be paid his arrears of pay accordingly. That is my findings under Issue No. 2.

Award passed accordingly.

Given under my hand and the seal of the Tribunal, this the 4th day of April 1966.

Dated at Bombay this 1st day of April, 1966

INDUSTRY: Major Port. STATE: Maharashtra.

AWARD

1. On a joint application of the parties abovenamed, the Central Government, by the Ministry of Labour and Employment's Order No. 28/99/64-LRIV, dated 12th October, 1964, made in exercise of the powers conferred by sub-section (2) of section (10) of the Industrial Disputes Act, 1947, was pleased to refer the industrial dispute between the parties abovenamed in respect of the subject-matters specified in the following schedule to the said Order, to me for adjudication:—

SCHEDULE

"Whether there is any justification for the grant of risk allowance to the Assistant Cashier (Bunders) and to the indoor clerks of the Docks Department employed as Cash receivers in the Cash office in the Docks, having regard to the T.R. No. 687 of 1946 and the award of the learned Arbitrator, Shri F. Jeejeebhoy relating to the demand No. 19 in Arbitration No. 2 of 1959 between the Trustees of the Port of Bombay and their employees, represented by the B.P.T. Railwaymen's Union? If so, what should be the quantum of such allowance?"

2. After the usual notices were issued, the B.P.T. General Workers' Union (hereinafter referred to as the Union) filed its written statement of claim, dated 7th November, 1964, and the Bombay Port Trust after a considerable delay, filed its reply, dated 22nd February, 1966.

3. The history of this dispute appears to be that on 3rd January, 1962, the Union addressed a letter to the Secretary, Bombay Port Trust, claiming grant of risk allowance to employees having to handle cash. In that letter he referred to the T.R. No. 687 of 12th October, 1946, which has been annexed to the B.P.T.'s written statement as Annexure No. 2. The Union submitted that the said resolution supported the demand of special pay to the staff working in the cash offices of the various other departments of the Port Trust on the ground that employees handling large amounts of cash deserve some compensation for the risk that they run and the responsibilities they shoulder in the discharge of their duties. On that basis, the Union claimed that the Assistant Cashier (Bunders) and the indoor clerks of the Docks Department employed as Cash receivers should be granted special risk allowance. Certain correspondence ensued, which has not been filed before me, and on 13th August, 1964, the Assistant Secretary of the Port Trust forwarded to the General Secretary of the Union the terms of reference for adjudication of that dispute, which are the same as in the schedule to the order of reference herein, and asked for his concurrence which the latter conveyed by his letter, dated 7th September, 1964. It is admitted that the draft of the terms of reference is that of the Bombay Port Trust, and that the reference to the Jeejeebhoy award therein was made at the instance of the Bombay Port Trust. At the hearing before me, neither party led any evidence and both parties have relied on the annexures to the B.P.T.'s written statement. Before entering on the merits of the demand, I must state that this demand has been made on behalf of only 9 clerks at the Alexandra Docks, 7 clerks at the Princess and Victoria Docks and 1 Assistant Cashier (Bunders).

4. In support of the demand, Shri S. Moitra, mainly relied upon the memorandum of the Chief Accountant of the Bombay Port Trust, dated 15th November, 1946, by which he forwarded a petition from the cash office staff of his department for the grant of some compensation for the risk and responsibility borne by them in the discharge of their duties, which entailed handling of large amounts of cash and working at odd hours. In his remarks, the Chief Accountant observed as follows:—

"Certain men working in the cash offices of this Administration have to work as Paymasters. They have to make payments to a large number of men and have to deal quickly with varying sums comprising currency notes and coins of various denominations. Their duties are

onerous and involve a certain amount of risk of making over payments which they have to make good.

In his memorandum, the Chief Accountant said that both in the Railways and in the Bombay Municipality a special pay is paid to the staff who handle cash and he gave the particulars of the special pay granted by these two bodies. The Chief Accountant recommended to the Board of Trustees the grant of special pay of Rs. 10 per month with effect from 1st November, 1946 to the holders of the 17 posts shown in the lists annexed to the memorandum. The Chairman of the Port Trust gave prior approval to the said proposal and remarked that the practice in other organisations would justify the allowance. Thereupon, the financial and general committee recommended that the Chief Accountant's proposals be approved with effect from 1st November, 1946, and the Trustees by Resolution No. 687, dated 10th December, 1946, approved of the recommendation of the Committee (Ex. E2). Shri Moitra relying upon (Ex. E2) has urged that the special pay was granted to those categories of workmen because they handled the cash, and that nowhere was it stated in Ex. E2 that these cashiers and clerks were granted the special pay because they were disbursing cash. He has urged that the principle underlying T.R. No. 687 was that grant of cash allowance would be justified because of the risk involved in handling cash. He has at page 7 of his written statement relied upon observations made by the Port Trust in its written statement in reply in arbitration No. 2 of 1959 where the B.P.T., after referring to the grant of special allowance to clerks 'B' scales and clerks 'A' scale in certain departments of the Port, had observed as follows:—

> "under the circumstances, in order to compensate them for the risk involved and for the extra responsibilities shouldered by them in carrying out these additional duties which do not form part of their normal duties, A and B scale clerks should be compensated by payments of special pay of Rs. 10 only per month, which is termed as risk allowance."

He has, therefore, urged that the special allowance must be deemed to have been granted for the additional risk, these workmen run on handling large amounts of cash. As instance thereof he showed from the records that the Assistant Cashier (Bunders) on 1st March, 1962, had handled the sum of Rs. 8,842 through "chappas" and Rs. 268 through bills and on 5th March, 1962, he had handled Rs. 23,541 through "chappas" and Rs. 10,653 through bills. He has stated that both the Assistant Cashiers Bunders and the indoor clerks of the Docks Department employed as cash receivers in the docks have to receive large sums of monies and that they run the risk of receiving less amounts or counterfeit notes or coins. He has stated that these workmen also run the risk of returning more money than is required to be returned by way of change. He has urged that there is no rule by which parties making payments are asked to deposit the exact amounts due from them. In other words, his contention is that the Assistant Cashier Bunder and these clerks who are asked to act as cash receivers, handle large amounts of cash in receiving payments and handling out change, for which they are entitled to be compensated by grant of a risk allowance. With regard to the Assistant Cashier, he has argued that in as much as the Assistant Cashier in the Docks Department is entitled to payment of risk allowance under the terms of T.R. No. 687, the Assistant Cashier Bunder would also be entitled to the same. I may pause here and state that there is only one person holding the post of Assistant Cashier (Bunder) and therefore, this demand as far as the assistant cashier bunders is concerned is in respect of one employee only.

5. With regard to the award in reference No. 2 of 1959, Shri Moitra has stated that the employees concerned in this reference were not parties to that arbitration, which was in respect of the clerks in the Goods and Commercial Departments of the B.P.T. Railways. He has urged that there could be no application of the principle analogues to the principle of resjudicata on the basis of the award in Reference No. 2 of 1959. He has urged in conclusion that the Assistant Cashier Bunders and the A and B clerks are not trained to handle cash, and therefore, as in fact they do handle cash though only in receiving amounts and paying out change they, all the same, run a risk and should, therefore, be compensated by payment of a cash allowance, particularly when they have on occasions to make good shortage in cash.

6. Shri R. K. Shetty, the Deputy Legal Adviser to the B.P.T. has urged that as the Assistant Cashier Bunders and the A and B scale clerks do not disburse cash, they are not entitled to lay a claim for a cash allowance. He has for that relied upon the decision of the Supreme Court in the case of the Canara Bank Limited and another and Anant Narayan Surkand (1963 II LLJ, page 343). The question that fell for consideration in that case was whether the concerned clerk was entitled to the monthly special allowance of Rs. 15 under the provisions of para

164(b)(7) of the Sastry Award. The concerned clerk had, by an application under Section 33(c)(2) of the Industrial Disputes Act, 1947, claimed that he was entitled to the special allowance as he was working as a cashier in charge of the cash at a branch of the Bank. On the evidence on record, it was found that the clerk was in-charge of cash at the branch and their Lordships held that the reference to charge of cash in para 164(b)(7) of the Sastry Award could only mean such charge as is effective during the day while transactions are going on in the Bank. Their Lordships held that where the evidence on record showed that the paying-cum-receiving clerk employed at one of the branches of the Bank used to receive first thing in the morning cash in the single lock-box and such other sums as might be withdrawn from the double-lock-box, and he had to carry on both receiving and paying transactions during the course of the day with the help of the cash to be dispersed in the morning and at the end of the day he had to account to the Agent, it must be held that throughout the day the concerned workman was in charge of the cash in the single-lock and had to account for it at the end of the day, and therefore, he was entitled to the special allowance of Rs. 15 admissible to these workmen as cashiers-in-charge of the cash at the branch of the Bank. Relying upon this decision and the provisions in para 5·257 of the National Industrial Tribunal (Bank Disputes) (Award of Justice Shri K. C. Desai) Shri Shetty has argued that unless it was established that the Assistant Cashier (Bunders) and these clerks were also disbursing cash they could not be deemed to be entitled to payment of any risk allowance.

7. In my opinion, under the terms of reference, the claim has to be decided on the basis of T.R. No. 687, dated 10th December, 1946. No doubt that T.R. does refer to the practice prevailing in the Railways and Municipality of granting special allowance to these workmen who handle cash, but reading the note of the Chief Accountant and the specific mention of the fact that those workmen for whom the claim was made were working as pay masters and bearing in mind that the memorandum contained the following observation:—

> "They have to make payment to a large number of men and have to deal quickly with varying sums comprising of currency notes and coins of various denominations. Their duties are onerous and involve a certain amount of risk of making over-payments, which they have to make good",

it must be held that T.R. No. 687 contemplated payment of cash allowance to those who also did the work of disbursing cash. In the instant case, it is not denied that these Assistant Cashier (Bunders) and their clerks have not to make payments to parties. The only thing they do by way of payment is to give out change, but such payment cannot possibly involve so much risk as was contemplated by the T.R. No doubt they do receive cash and in that sense they do handle cash to which work also there is reference in the T.R. But the emphasis in the T.R. is on the work of pay masters and the risk involved in that work. Therefore, reading that resolution as a whole it must be held that the special pay was granted to those categories of clerks because of the risk involved in their handling large amount when making payment, which would involve greater risk of over payment than the handling out change or when receiving amounts.

No doubt the workmen concerned in arbitration reference No. 2 of 1962 were workmen concerned in two departments of the B.P.T. but there the allowance was revised because the function of those clerks was only to receive money from consignees at the Station. Reference in that Award is also made to the Classification and Categorisation Committee (Jeejeebhoy Committee) having not granted any special allowance or risk allowance to these categories of workmen. To the workmen concerned in this reference also, the Jeejeebhoy Committee did not grant any extra allowance.

Though I cannot say that there is complete absence of risk in the work of handling the amounts which the workmen concerned in this reference receive from customers, it appears that there is no practice in the Bombay Port Trust of paying any special allowance for workmen who merely receive such amounts. Certainly T.R. No. 687 does not provide for payment of the risk allowance to those who do not make payments of substantially large amounts. I am told that in various departments of the B.P.T. there are Bill Receivers who are not paid any risk allowance because they only receive cash. I, therefore, hesitate to create a precedent by allowing this demand, particularly as the question of scales of pay for various categories for Port and Dock Workers are under consideration by the Wage Board for Port and Dock Workers, and it will be more appropriate for these workmen to agitate this claim before that forum.

8. In the result, I hold that the Union has failed to make out that there is justification for the grant of risk allowance to the Assistant Cashier Bunders and the indoor clerks of the Docks Department employed as cash receivers in the Docks offices in the Docks and I award accordingly.

9. No order as to costs.

S.O. 1249.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Industrial Tribunal, Bombay in the industrial dispute between the employers in relation to the Bombay Port Trust, Bombay and their workmen which was received by the Central Government on 5th April, 1966.

BEFORE THE CENTRAL GOVERNMENT INDUSTRIAL TRIBUNAL AT BOMBAY

REFERENCE NO. CGIT 5 OF 1965

Employers in relation to the Bombay Port Trust, Bombay.

AND

Their Workmen.

PRESENT:

Shri Salim M. Merchant, Presiding Officer.

APPEARANCES:

For the Bombay Port Trust.—Shri M. R. S. Captain, Solicitor, I.O.M. Legal Adviser, with Shri R. K. Shetty, Deputy Legal Adviser, and Captain S. Chatterjee, Harbour-Master, B.P.T.

For the workmen.—Shri S. K. Shetye, Asstt. Secretary, Bombay Port Trust Employees' Union.

Dated at Bombay this 1st day of April, 1966

INDUSTRY: Major Port. STATE: Maharashtra.

AWARD

1. On a joint application of the parties, the Central Government, by the Ministry of Labour and Employment's Order No. 28/138/64-LRIV, dated 21st January 1965, made in exercise of the powers conferred by sub-section (2) of section 10 of the Industrial Disputes Act, 1947 (Act XIV of 1947), was pleased to refer the industrial dispute between them in respect of the subject-matters specified in the following schedule to the said Order, to me for adjudication:—

SCHEDULE

"Whether the existing system for the Signalling staff at the Port Signalling Stations at Ballard Pier and Butcher Island under which each shift consists of 8 hours normal duty, 2 hours overtime and 2 hours variable recess, needs any modification, and if so, in what respect?"

2. Though the joint application to Government for reference was signed on behalf of the workmen by the Bombay Stevedores and Dock Labourers' Union, the written statement of claim herein dated 1st November 1965, has been submitted by the Bombay Port Trust Employees' Union, another registered trade union of the workmen of the Bombay Port Trust. This has given rise to the first legal objection urged by Shri R. K. Shetty, the Deputy Legal Adviser to the Bombay Port Trust. Shri Shetty has urged that this reference cannot be prosecuted by the B.P.T. Employees' Union (hereinafter referred to as the Union), because the Joint application for reference to government was made by the Bombay Stevedores and Dock Labourers' Union. He has, in support relied upon the judgment in the case of the workmen of Dharampal Premchand and Dharampal Premchand (1965 I LLJ, page 668) and the Award of the learned Industrial Tribunal at Dhanbad, reported in the Gazette of India, dated 1st January 1966, page 73 para. 77, both of which can have, in my opinion, no application to the admitted facts of this case. It is admitted that in all 15 workmen employed at the Port Signal Stations at Ballard Pier and Butcher Island are involved in this dispute. Shri H. N. Trivedi, President, Bombay Stevedores and Dock Labourers'

Union, by his letter dated 8th March 1965 informed this Tribunal that the workmen concerned in this dispute had resigned from his Union, and therefore, his Union did not propose to file the written statement of claim in this dispute. Thereafter, the written statement of claim was filed by the Bombay Port Trust Employees' Union on 1st November 1965, and it is admitted that all the 15 workmen concerned in this reference joined the Union on 2nd February 1965. The fact that they joined the Union after the dispute was raised and the joint application was made by the Bombay Stevedores and Dock Labourers' Union would in my opinion, make no difference. The important fact is that these workmen were members of the Bombay Stevedores and Dock Labourers' Union, on the date the disput ewas raised. The only thing that has happened is that instead of being represented by that Union, they now desire to be represented by the B.P.T. Employees' Union. The fact that there has been a change of affiliation from one union to another does not put an end to this industrial dispute and under Section 36(1) of the Act, these workmen are entitled to be represented at the hearing by the office-bearers of the Union to which they now admittedly belong. In my opinion, there is no substance in the contention urged by Shri Shetye against the maintainability of this dispute, and the right of the Bombay Port Trust Employees' Union to represent these workmen, and the first legal objection therefore is rejected.

3. The second objection urged by Shri Shetye is that this dispute must be deemed to have already been adjudicated upon by the Award of Shri Meher, the learned Industrial Tribunal, in Reference Nos. ITCG 1 and 3 of 1963 [Gazette of India Part II, Section 3(ii), dated 2nd January 1965 at pages 21—43 at para 54], and on the principle analogous to the principle of resjudicata this dispute must be deemed not to be maintainable. Now, the dispute referred to Shri Meher was with regard to the removal of anomalies in the scales of pay prescribed by the Classification and Categorisation Committeee (popularly known after its Chairman as the Jecjeebhoy Committee). The terms of reference in ITCG 1 and 3 of 1963 and 1 of 1964 to Shri Meher were:—

(a) whether there are any anomalies in regard to any of the pay-scales recommended by the Tripartite Committee set up by the resolution of the Central Government in the Ministry of Transport and Communications, Department of Tfansport No. 23-PLA(91)/58, dated 23rd August, 1958, published in Part I of the Gazette of India Extraordinary of the 25th August, 1958, in respect of the category of posts listed in the Annexure?

(b) if so, what modification, if any, would be made in the scales of pay recommended by the said committee of the posts listed in the Annexure having regard to the directions contained in para 2 of the said Resolution?

Shri Shetty for the B.P.T. has also relied upon the written statement filed in the proceedings before Shri Meher by the B.P.T. General Workers' Union on behalf of these workmen in support of the better scales of pay which these workmen had claimed in the references before Shri Meher. It may be stated that Shri Meher by his award in the disputes referred to him rejected the claim put forward by these workmen for better scales of pay than had been fixed by the Jeejeebhoy Committee. Shri Shetty has also sought to support this legal objection by the observations made by me in my award, dated 19th October 1965 published in the Gazette of India Part II, Section 3(ii), dated 13th November 1965 at pages 3690 to 3691 in an earlier dispute between the Bombay Port Trust and the B.P.T. Employees' Union in respect of extra payment to 'A' scale clerks attending to the issue of materials in the Stores Department. The subject-matter of that dispute was whether 'A' scale clerks attending to the issue of materials of the Stores Department should be given any extra payment, and if so, what should be the quantum of payment and from what date should the payment be made. In my opinion, there is no substance in this contention of Shri Shetty, which, incidentally, was not urged in the written statement filed by the Bombay Port Trust in this dispute, but has been put forward at the hearing as a legal objection going to the root of the matter. The dispute that has been referred to me in this reference is whether the existing system of work with regard to employees at the Port Signalling Station of the Bombay Port Trust at Ballard Pier and Butcher Island under which each shift consists of 8 hours normal duty, 2 hours overtime and 2 hours variable recess, needs any modification, and the claim as made by the Union in correspondence and in the statement of claim herein is for 4 hours overtime in the existing 12 hours shift. This is thus, not a reference with regard to improvement of the scales of pay of these workmen, which was the subject-matter with which Shri Meher was directly concerned. In my award in reference No. CGIT 4 of 1965, I have referred to

Shri Meher's award in reference Nos. ITCG 1 and 3 of 1963, because in that dispute the question to be decided was whether the scales of pay for 'A' scale clerks needs a revision. That demand had come in for consideration both by the Jeejeebhoy Committee and by Shri Meher, and it was for this reason that I felt a fresh adjudication on the demand for revised scales of pay for 'A' scale clerks in the reference to me was not justified. The nature of the demand in the instant case is different from the one which Shri Meher was called upon to consider in Reference Nos. ITCG 1 and 3 of 1963 in respect of the employees at the Port Signalling Station, and that award or the written statement made by the Union in the proceedings before Shri Meher, cannot be deemed to be a bar for adjudication of this dispute, for which there was a joint application both by the Bombay Port Trust and the Union then representing these workmen. I am inclined to think that this legal objection urged is an after-thought, and has no merit. The objection is, therefore, rejected.

4. On the merits, both parties have filed a number of documents in support of their respective contentions, and the Union has examined two Signalmen of the Port Signal Station, Sarvashri V. D. Bhaksi and Gillan Salamath, whilst the Bombay Port Trust has examined Shri S. V. Mudras, Senior Clerk in the Deputy Conservator's office.

5. It appears that originally till 1947, the Port Signal Station was worked in 2-shifts of 12 hours each. Sometime thereafter, however, 3-shift working was introduced. Later, on 7th February 1957 (see Annexure 2 to the B.P.T's. written statement), the workmen of the Port Signal Station addressed a representation to the Chairman, requesting him to reintroduce the 2-shift system. One of the grounds in support of the change was that it would enable the Signalmen to earn increased emoluments on account of the incidence of overtime. Their demand was for 2 shifts, each shift to consist of 8 hours work, with 2 hours overtime and 2 hours variable recess. On 22nd July, 1959, the Port Signal Staff addressed another representation to the Deputy Conservator for some additional appointments of Chief Signalmen, and leading signalmen. Thereafter, a settlement was entered into on 30th May 1960, between the Bombay Port Trust and Shri H. N. Trivedi, President, Bombay Stevedores and Dock Labourers' Union, which then represented these workmen, by which it was agreed, "to introduce with effect from about 1st July 1960, 2-shift working of 12 hours each, with a variable recess of 2-hours in each shift, at the Port Signal Station at Ballard Pier and Butcher Island for the signal staff", and this system has been in force since then. The Union's demand in this reference is that the Port Signal staff should be granted 4 hours overtime in each shift of 12 hours instead of the existing 2 hours overtime. The Union has in its written statement and the evidence oral and documentary tendered by it at the hearing, sought to support this demand on the following main grounds:—

(1) that shipping generally and the docking and undocking of ships in the Port of Bombay has increased considerably during the last few years from 1951-52 to 1964-65, thereby increasing the work of the staff at the Port Signal Station to such an extent that they are not able to avail themselves of the 2 hour variable recess.

(2) that because of the increase in the shipping and consequent pressure of work on the present staff of the Port Signal Station, the present staff of the Port Signal Station is inadequate, as a result of which the staff posted at these stations are not able to avail themselves of their recess.

(3) that the nature of the duty of the staff of the Port Signal Station is such that it keeps them busy throughout the working hours; that their work is such that it must be attended to promptly and cannot be kept pending for any reason.

(4) that the workmen at the Port Signal Station have to work in unfavourable working conditions without proper amenities and sanitary arrangements.

On these grounds, in para 13 of its written statement, the Union has made the following prayer:—

"For the reasons stated above and also for the various other reasons the Hon'ble Tribunal may be pleased to pass an order directing the employers to modify the existing working rules of the Port Signal Staff granting them 4 hours overtime in a shift of 12 hours".

The Union in para 14 of its statement of claim has pressed for retrospective effect to be granted to their demand from 1st April, 1961.

6. The Bombay Port Trust, in its written statement dated 19th January 1966, has opposed this demand. It has denied the various statements in support of the demands made by the Union in its written statement. Briefly, the Bombay Port Trusts' case is that there has not been a substantial increase in the shipping and pilotage acts in Bombay Port between 1959-60 and 1964-1965. It has in a statement (Annexure 1 to its written statement) given the details of the work-load of the signalling staff, and in support of the correctness therein has examined Shri S. V. Mudras, Senior Clerk in the Deputy Conservator's Office (EW.1). According to the Port Trust, the Signalling Staff is actually employed at work for not more than 2 to 3 hours in each shift and that they have sufficient leisure to enjoy their recess period. It has also relied upon the various statements made in the excerpt from the proceedings of the meeting of the Trustees of the Port of Bombay held on 31st May 1960, when T.R. No. 449 was passed sanctioning the introduction of 2 shift working of 12 hours each at the Port Signal Station with 2 hours overtime and 2 hours variable recess (Annexure 3 of its written statement). It has also relied upon a report made by Shri R. D. Railkar (Annexure 4 to the written statement of the Port Trust), who was the then office superintendent in the Deputy Conservator's office, and in which he had on inspection noticed that all the Port Signal Staff were not fully employed on their duties.

7. In this dispute, the demand of the Union as stated earlier, is for payment of 4 hours overtime instead of the present practice of paying two hours overtime. The main ground urged in support of this demand is that the Port Signal staff is kept continuously so busy that they in fact are not able to enjoy the 2 hours recess, provided for them. The onus of proving this would, of course, be on the workmen. At the outset, I may state that I readily accept the Union's contention that the Port Signal staff both at Ballard Pier and Butcher Island are doing really important and responsible work. They are, in a sense, as urged by Shri S. K. Shetye, Asstt. Secretary of the Union, the eyes and ears of the Bombay Docks. I, therefore, deprecate the attempts made by Shri R. K. Shetty the Deputy Legal Adviser of the B.P.T. to belittle and minimise the importance of the work of the Port Signal staff. But in terms of this dispute, I am not called upon to consider what should be the proper or fair remuneration for the type of work which these Port Signal staff are doing. What I am called upon to decide, is whether the existing system of work in which each shift consists of 8 hours normal duty, two hours overtime and two hours variable recess needs any modification. The modification which the Union seeks, as stated in Para 13 of its written statement of claim is that the Port Signal staff should be granted 4 hours overtime in a shift of 12 hours. Therefore, the question for determination is whether the Union has succeeded in establishing that the Port Signal staff in each shift is so continuously engaged in work that they are not in a position to avail themselves and in fact do not avail themselves of two hours recess.

8. At the hearing, the muster-rolls of attendance at the Port Signal Station for the period 14th September 1962 to 27th March 1963 (Ex. E1) and for 28th February 1965 to 31st December 1965 (Ex. E2) have been produced. Now, in Ex. E1, as also in part of Ex. E2 the entries with regard to recess hours for each of the staff have been duly entered. No entries, with regard to the recess period have been made in Ex. E2 after 17th April, 1965. I am not at all impressed by the argument that the absence of any entry in the recess period column in the Muster Roll Ex. E2, goes to prove that these workmen did not in fact enjoy any recess in their respective shifts during that period. With regard to the period in the Muster Rolls (Ex. E1 and Ex. E2), for which entries of the recess hours have been made, the Union's case is that these workmen were forced and coerced into making those entries, though in fact they did not enjoy those recess periods. If that was really so, one would expect the Union to have raised a protest reparding it from the time the workmen were asked to make such entries on the introduction of two shift working. Certain letters which the Union had addressed to the Bombay Port Trust are on file as Ex. W2, 3, 4, 5. Of these, Ex. W3, which is the letter dated 29th September 1961, is the first in the chronological order. That letter really enumerates the grievances which these workmen wanted to be redressed. In para 4 of that letter the Union had stated that the duties of the staff at the P.S.S. at Ballard Pier were continuous and onerous and that they were in fact unable to take two hours recess that they are expected to take in the 12 hours shift. They then referred to the Trustees having resolved to grant three hours overtime wages in the twelve hours shift to the shore-crew of Alexandra Docks, and the Union has stated that the case of the P.S.S. men was similar. Incidentally this letter was addressed by the President of the Bombay Stevedores' and Dock Labourers' Union, and it is clear from the perusal of that letter that the [illegible]d for three hours overtime was inspired because the same had been granted to the Alexandra Docks workers. If the P.S.S. were not enjoying any

recess whatsoever, surely the demand would not be for three hours overtime, but would be for four hours overtime. It appears to me that in the demand for three hours overtime was made by this letter more because the shore-workers at Alexandra Docks had been granted three hours overtime. I have in my previous awards dealt with the special circumstances under which the B.P.T. came to grant three hours overtime to its shore-crew at Alexandra Docks, and there is absence of any such special circumstances in the case of the Port Signal staff. The next letter on which the Union relies is a letter dated 8th October 1963 addressed by the President of the former union, the Bombay Stevedores and Dock Labourers' Union, where several demands were made on behalf of the Port Signal staff. No doubt there the demand is made for the Port Signal staff being granted four hours overtime instead of two hours overtime per shift. The ground is stated that they do not find time to avail themselves of the two hours recess. The next letter in its chronological order is Ex. W5 which was addressed on 5th February 1964. That letter is a justification of the demands made by that union on the 8th October, 1963 i.e. by Ex. W4 and with regard to the demand No. 6, the Union has stated further details, which were as follows:—

> "The demand is self explanatory. The Signal Station is in close proximity to the Alexandra Docks. It is not possible for the men to take even variable recess and many times in view of the urgent work which the men on duty cannot cope, they are called up for duty and they have to leave their meals in the middle. We feel that this consciousness of duty on the part of Signalmen is not only not appreciated but not even taken notice of. Perhaps only when they follow somebody else's advise and show you in actual practice that some very important messages remained unattended due to shortage of staff, you will realise the gravity of their demand."

The next letter is dated 17th August 1965 (Ex. W2) and it was addressed by the General Secretary of the Employees' Union, which is representing the workmen at the hearing. In this letter, Union has stated that the Port Signalling staff are being asked to make entries regarding the recess hours, and were threatened that disciplinary action would be taken, and that it was not part of their duty to make such entries. The General Secretary of the Union further stated that the nature of the work of the Port Signal staffs was such that none of them could have any recess. But with regard to this letter, it is significant that it was addressed on 17th August 1965, long after the dispute had been referred to adjudication, and it is difficult to resist the temptation to consider it as more in the nature of an attempt to create evidence in support of the demand pending adjudication than otherwise. No doubt these letters show that the Port Signal staff had been stating that they have not been able to enjoy their recess period but there is not sufficient convincing of evidence, either documentary or oral, to support this story.

9. I have had the benefit of inspection of the Port Signal Station at Ballard Pier, with the representations of the parties, it is admitted that the Port Signal staff do go down to the first floor of the station where, there is a kitchen and a bhandari annexed to a dormitary in which some members of the staff reside. On the evidence on record. I am inclined to think that though the specified two hours recess is entered in the muster-roll as being a continuous period of two hours in actual practice these workmen do avail themselves of the two hours recess, though it may be that they do not always take it altogether in one stretch. It is admitted that the provisions of the Minimum Wages Act apply to these workmen and if, as stated, by these workmen, they have since 1961 not enjoyed any recess at all, and have been made to work during the recess hours also. it would be difficult to believe that they would have remained quiet and not made a complaint to the Inspectorate under that statute, for being thus not only deprived of their recess period, but also not being paid for having worked extra overtime during the recess period. The Union's case is that there has been such an increase in the general shipping in the Bombay Docks and in the docking and undocking of ships, and consequent increase in their work as not to leave them any time to avail themselves of the recess period. I do not accept Shri Shetty's argument that from the figures cited at the hearing, it is established that there has not been any increase in shipping or in the docking and undocking of ships and consequent increase in the work of these workmen. There is no doubt that their work requires vigilance during the shift, but I am not satisfied that though there are three and at times four signalmen in each shift they are all so busy that they cannot find time to enjoy their recess.

10. With regard to the work of the signalmen, I accept the evidence of (E.W.1). I am satisfied that the statement annexed to the B.P.T's writt[illegible]ment

(Annexure 1) gives a correct picture of the number of messages by (1) radio telegraphy, (2) by light and flags and telephone recorded by the signalmen in these logs. I also accept entries of arrival and departure of ships at Ballard Pier and Butcher Island, made in the logs maintained for the purpose. In 1965, there were in all during that year 34,833 entries made in those four logs, which would mean that there were on an average 96 entries made per day in these four logs. On the basis that in the day shift there are four signalmen (including the head signalmen) on duty and three signalmen on duty in the night shift, the number of messages received and other entries relating to the arrival and departure of ships made in the log books would work out to about 14 entries per day per signalman. There was considerable discussion at the hearing as to how many minutes on an average it takes a wireless message by radio telephone and message by light, flags and telephone to be received or sent out. I am afraid, the workmen have tried to exaggerate and Shri Shetty the Deputy Legal Adviser for the B.P.T. to minimise the average time taken over each such message. But even on a liberal estimate, there is no doubt that the entries made in the four logs, referred to above, could not be occupying each signalman for more than half the period in each shift. I readily accept the workmen's statement that all messages received are not entered nor are required to be entered into the log-books. There are many messages of a routine nature which are in fact received but not entered in the log book. Even so and allowing that when they are not engaged in actual receiving or sending out messages and entering them in the log books, the Port Signal staff has to be vigilant and on the look-out for any messages that may be being sent out to them, I am not satisfied that the Union has established that the Port Signal Staff are kept so busy throughout the period of each shift that they do not have sufficient time to enjoy or in fact do not enjoy the two hours recess in each shift. I am inclined to think that in fact they have more than sufficient leisure to enjoy their recess. It may be that each member of the signal staff may not be getting his recess of two hours at a stretch, but there is no doubt in my mind that they in fact do enjoy two hours recess during each shift, and my visit to the P.S.S. created an impression which supports this conclusion.

11. Much has been made of the fact that there are entries in the log books of messages received by signalmen during the period when according to the muster-roll they were supposed to be having their recess. Gillan Salamath (W.W.2) in his evidence has tried to support this story of the Union. Though I was impressed by the manner in which this witness gave evidence, yet I am of the opinion that his evidence taken as a whole cannot be said to have substantiated the case of the Union. It appears to me that the practice in the P.S.S. is to treat the recess period which is variable as being available in broken periods during the 12 hours shift. The fact that it is not denied that the majority of the Port Signal Staff do take their meals on the first floor of the Port Signal Station at Ballard Pier where there is a dormitory and the service of a bhandari for the residents of the dormitory would lead to the conclusion that these Port Signal Staff members do avail themselves of the facilities offered there for the purposes of taking their meals at the time they take their recess. I am inclined to think that these workmen have made this claim because the shore-crew in the Alexandra Docks have got three hours recess and the flotilla crew are getting four hours overtime.

12. Whilst I am of the opinion that the Union has failed to establish that these workmen do not enjoy their recess period, I am at the same time of the opinion that these men are doing very important work vis-a-vis the running of the major port of Bombay. They seem to be suffering from a feeling that their service conditions should be improved, and at the hearing before me expression to this was given to this feeling in rather strong terms by their Union representative as also by their witnesses. It is not for me to decide whether they have any case or not for improvement in their existing scales of pay and other terms and conditions of service, but I cannot help recording that they seem to be feeling that they are not getting their just dues nor is proper recognition being accorded to the important work they are doing. There is at present a Wage Board constituted by the Central Government which is going into the question of the proper wage-structure for various categories of Port and Dock workers, including these workmen. These workmen have got an interim wage increase recommended by the Wage Board, and it would be for them to project their case for a proper wage increase before that Wage Board. That does not, however, justify their demand for 4 hours overtime.

13. In the result, I hold that the Union has failed to make out a case that the existing system of work for the signal staff at P.S.S. at Ballard Pier and Butcher Island under each shift consists of 8 hours normal duty 2 hours overtime and 2

hours recess needs any modification. The demand of the Union, therefore, fails, and is rejected.

104696. J. R. Geigy A. G. Process for the production of 1, 2, 8,9-Tetraazaphenalenes.

104697. J. R. Geigy A. G. Process for the production of 1,2,8,9- tetraazaphenalenes.

104698. J. R. Geigy A. G. Process for the production of 1,2,8,9- tetraazaphenalenes.

104699. Allied Chemical Corporation. Process for the production of liquid polyisocyanate compositions and process for the production of urethane polymers therefrom.

104700. Estefil Company Establishment. Production methods and filter plugs for tobacco products. particularly for cigarettes. (28th April 1965).

104701. Osterreichisch-Amerikanische Magnesit Aktiengesellschaft. Process of manufacturing unfired refractory bricks and compositions of magnesia-chrome and chrome-magnesia.

104702. Joseph Lucas (Industries) Limited. Flasher units. (29th April 1965).

104703. International Nickel Limited. Welding steel.

104704. Symington Wayne Corporation. Method of casting metals.

104705. E. A. Simpson. Variable constant-speed drive mechanism.

104706. Nippon Rayon Co., Ltd., Process of preparing polyamide fibres.

104707. Gebruder Buhler. A flat-link conveyor chain.

104708. Amsted Industries Incorporated. Mold and method of casting.

5th April 1966

104709. Westinghouse Electric Corporation. Vending machine empty signal indicating mechanism.

104710. Westinghouse Electric Corporation. Improvements in or relating to vending machine.

104711. Westinghouse Electric Corporation. Improvements in or relating to refrigerated vending cabinet.

104712. Westinghouse Electric Corporation. Vending machine and check control apparatus therefor.

104713. Westinghouse Electric Corporation. Vending machine article delivery chute arrangement.

104714. J. M. Huber Corporation. Pigment and process of producing same.

104715. Eaton Yale & Towne Inc. Automotive device.

104716. Westinghouse Electric Corporation. Electrical apparatus.

104717. T. M. M. (Research Limited. Improvements in means for driving and locating textile silver containers in relation to sliver-coiling apparatus. (25th April 1965).

104718. N. Annaswamy. Multipurpose kitchen unit for treating grains and cereals.

104719. J. R. Geigy A. G. Process for the production of new substituted phenylacetic acids.

104720. Dunlop Rubber Company Limited. Improvements in and relating to the production of flexible sheet materials. (24th April 1965). [Addition to No. 94588].

104721. Imperial Chemical Industries Limited. Manufacture of organic bases. (7th April 1965).

104722. Imperial Chemical Industries Limited. Thermoplastic compositions. (9th April 1965).

104723. T. J. Smith & Nephew Limited. Improvements in and relating to surgical dressings. (8th April 1965).

104724. Y. Miyagi. Pressure rollers attached cleaning device and antiwrap rollers.

104725. Kureha Kagaku Kogyo Kabushiki Kaisha. Mercury-cathode chlorine cell.

104726. Marchon Products Limited. Improvements in the manufacture of phosphoric acid.

104727. The United States Time Corporation. Improvements in or relatig to horological instrument.

104728. Phillips Petroleum Company. Improvements relating to the disproportionation of olefin hydrocarbons.

104729. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for printing textile materials of natural or regenerated cellulose with reactive dyestuffs.

104730. Beteiligungs-Und Patentverwaltungsgesellschaft Mit Beschrankter Haftung. Bridge or elevated roadway which can be dismantled.

104731. Ministerul Industriei Constructiilor de Masini. Protective device for three-phase induction-motors.

104732. Owens Corning Fiberglas Corporation. Acoustical tilevinyl faced acoustical tile spray coating method.

104733. Veb Funkwerk Dresden. Improvements in or relating to pulse code systems.

104734. Veb Funkwerk Dresden. Improved arrangement for monitoring the operation of a binary decoding matrix.

104735. Deutsche Gold-Und Silber-Scheideanstalt vormals Roessler. Process of production of amino ketones. [Addition to No. 87847].

104736. S. Mallikar Junaiah. Pivot hinge fixtures.

104737. Sandoz Ltd. Improvements in or relating to organic compounds. (7th April 1965).

104738. Sandoz Ltd. Improvements in or relating to organic compounds (7th April 1965).

104739. Nestle's Products Limited. Drying method.

104740. Landbouwwerktuigen- En Machinefabriek H. Vissers N. V. Improvements in and relating to harrow beams.

104741. Georges Lesieur & Ses Fils. Improvements in or relating to method of and device for the ejection and removal of light objects manufactured by moulding.

104742. Georges Lesieur & Ses Fils. Improvements in or relating to method of and device for positioning, on a mechanical conveyor, light object moved by a pneumatic conveyor.

104743. Sekiden Kagaku Kogyo Co., Clip device.

104744. Medimpex Gyogyszerkulkereskedelmi Vallalat. Process for preparing dispersions to be percutaneously employed.

104745. Ciba Limited. Manufacture of aryl ethers. [Divisional date 17th April 1963].

104746. Ciba Limited. Manufacture of aryl thioethers. [Divisional date 14th May 1963].

104747. Ciba Limited. Manufacture of aryl thioethers. [Divisional date 24 January 1964].

6th April 1966

104748. Metallwerk Plansee Aktiengesellschaft. A thermoelectric device for continous measurement of the temperature of corrosive media and a method for its manufacture.

7th April 1966

104749. V. N. Kapur. Improvement in and relating to heat insulating materials.

104750. Roussel-Uclaf. Chemical compounds.

104751. Roussel-Uclaf. Chemical compounds.

104752. Rexall Drug and Chemical Company. Improved method for polymerizing propylene.

104753. Whiffen & Sons Limited. Process. (20th April 1965).

104754. Gunavantrai Bhimjibhai Mehta. Improved gas fired cooking range or stove.

104755. Szerszamgepipari Muvek. Improvements in or relating to belancing device for rotating parts of machines, and more particularly for rotating grinding wheels.

104756. Sentralinstitutt for Industriell Forskining; and Norsk Tkstilforskningsunstitutt. Process for the treatment of fabrics containing cellulose fibres with liquid ammonia. (13th April 1965).

104757. Fisons Pest Control Limited. Chemical compounds. (15th April 1965).

104758. Whiffen & Sons Limited. Manufacturing process. (23rd April 1965).

104759. United States Rubber Company. Improvements in stabilized elastomeric terpolymer composition.

104760 Phillips Petroleum Company. Process and apparatus for producing either isaf or haf carbon black.

104761. Koppers Company, Inc. Self-Extinguishing expandable styrene polymers.

104762. Koppers Company, Inc. Expandable styrene polymers.

104763. Opti-Holding A. G. Process for making the top and bottom parts at zip fasteners with plastic zipper link chains and device for carrying out the process.

104764. Ramenskoe Otdelenie Vsesojuznogo Nauchno-Issledovatelskogo Instituta Geofizicheskikh Metodov Razvedki. Device for perforating wells to fracture formations.

104765. Ernst Freyberg. Aluminium phosphide.

104766. Sandoz Ltd. Improvements in or relating to organic compounds. (9th April 1965).

104767. International Standard Electric Corporation. Amplifier terminating network. (9th April 1965).

104768. Roussel-Uclaf. Process for preparing new unsaturated steriod compounds, and the compounds thus prepared. (9th April 1965).

104769. Werner Greutert. Accumulator.

104770. Ciba Limited. Manufacture of aryl-alkyleneimines.

104771. Ciba Limited. Manufacture of diphenylalkanes.

Alteration of Date

95875. The claim to priority date 7th October, 1963 has been abandoned and the application dated as of 30th September 1964, the date of filing in India.

96726. The claim to priority date 5th December, 1963. has been abandoned and the application dated as of 27th November 1964, the date of filing in India.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of the Gazette of India give notice to the Patents office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot. 8 Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

94364. General Electric Company. Improvements in or relating to process of oxidizing phenols and polyarylene ethers made by said process. Accepted on 22nd March 1966.

Monohydric, substituted monocyclic phenols are oxidized in the presence of a solution containing a basic supric salt and a primary or secondary amine.

94402. J. H. Engel. A structural unit or assembly, structural members used therein and methods of making same. Accepted on 27th March 1966.

Comprising a self-supporting skeleton structure resting on a foundation through foundation structural members, said skeleton structure also having additional structural members and having prefabricated or in-situ formed members

94441. G. Fritzmeier and R. Fritzmeier. Sprung seats such as one for heavy duty vehicles. (17th April 1964). Accepted on 26th March 1966.

Having a column for forming a guideway behind the back rest of the seat swingable radius rod adapted to hinged to the forward end of the seat and the other end to the floor and elastic members for connecting the column and the back rest.

94443. Veb Chemiefaserwerk "Friedrich Engels". Process for preparation of polyesters or copolyesters of high molecular weight especially of such on a polyethylene terephthalate basis. Accepted on 25th March 1966.

Polymeric-phosphoric-acid esters of polyhydric alcohols or their derivatives or salts are added to the glycol ester before or during the polycondensation which is conducted continuously or discontinuously in the presence of active polycondensation catalyst or their mixtures.

94460. Rexall Drug and Chemical Company. Process for preparing block polymers from alpha-olefins Accepted on 28th March 1966.

Comprising the steps of (a) polymerizing an alphaolefin in a hydrocarbon diluent (b) removing the volatile hydrocarbon constituents from the slurry in a low pressure zone to obtain a substantially dry prepolymer containing active catalyst residues (c) contacting said substantially dry prepolymer containing active catalyst residue with at least one alphaolefin monomer in a continuously agitated reaction zone, (d) polymerizing said monomer onto said prepolymer to an extent of from about 1 to 40% by weight based on the weight of the final block ploymer.

94504. Rheinstahl Industrie-Planung G.m.b.H. Dr. H. Schenck and Dr. W. Wenzel. Improvements in or relating to the reduction of iron ores with liquid or gaseous hydrocarbons and apparatus therefor. Accepted on 30th March 1966.

Comprises contacting preheated and prereduced iron ores with gaseous or liquid hydrocarbons and cracking separating the cracked carbon produced from reduced material and waste gases and the returning to the ore burden of the furnace.

94508. Bimal Kumar Ghosh. Improvements in or relating to jute or textile bobbins. Accepted on 1st April 1966.

The shank or barrel of the bobbin is provided at both ends thereof with flange holders securedly fitted thereto and adapted to grip the said flanges in a releasable manner.

94526. Caroni Limited. Plant growth medium. (2nd July 1963). Accepted on 1st April 1966.

Comprises at least 50% of coconut fibere waste and plant growth nutrient material.

94564. Indian Oxygen Limited. Water-cooled oxygen lance. (5th July 1963). Accepted on 1st April 1966.

Comprising a central tube for oxygen supply with a nozzles, the tube being surrounded by a water-jacket comprising an inner and outer tube, forming two co-axial annular passages and having connections for the supply and discharge of cooling water to and from the passages.

94576. V. D. Roosa. Fuel injection nozzle. Accepted on 2nd April 1966.

A bendable tube is provided having one end bonded in pressure tight fluid flow communication with the bore of the nozzle, the other end having means for connection to a fuel supply line.

94583. C. Otto. Multiple gun flue coke oven battery. Accepted on 5th April 1966.

In combination with a coke oven battery having a plurality of spaced apart heating walls with coking chambers therebetween, means for supplying the heating flues; means for controlling the supply of rich gas to the two pairs of gun flues, each of said means comprising a housing external of said battery.

94622. M. B. Damania. Improvements in or relating to hydraulic dampers or shock absorbers. Accepted on 1st April 1966.

The inner most tube is fitted with a piston having a one-way valve, the bottom end of the inner most tube carries a second one-way valve between the interior of the inner-most tube and the space between the inner-most and the middle tubes and a third one-way valve connects the space between the inner-most and the middle tubes with the space between the middle and the outer most tubes.

94654. Farbenfabriken Bayer Aktiengesellschaft. Triarylmethane dyestuffs. (2nd June 1964). Accepted on 5th April 1966.

Tetraalkyl-p-diaminobenzhydrol is condensed with 1-N-methyl-or-ethyl-N-benzylamino-3-methyl-or-3-ethyl-benzene and the leuco compound obtained is oxidized by methods known per se.

94657. Girling Limited. Improvements in master cylinders for hydraulic braking systems. Accepted on 1st April 1966.

Communication between the first pressure space in the cylinder and a reservoir being controlled by a tilting spring-loaded valve, and the communication between the second pressure space and the same or another reservoir being controlled by an axially movable valve.

94699. Pittsburgh Corning Corporation. Cellular glass nodules and method of manufacture thereof. Accepted on 7th April 1966.

Comprising admixing formulated glass particles and a cellulating agent, wetting the admixture, forming wetted admixture into discrete pellets, coating the outer surface of the pellets with a particulate glass former refractory oxide, and heating the pellets.

94795. Imperial Chemical Industries Limited. Pesticidal compositions. (24th July 1963). Accepted on 7th April 1966.

Comprising a 4-aryl 1,3 4-oxadiazol-5-one in admixture with a solid diluent or a liquid diluent and a surface active agent.

95020. The Gleason Works. Gear cutting machine. Accepted on 4th April 1966.

Having rotatable cradle support a pair of guides for reciprocating tool-carrying slides, said guides being mounted on the cradle for angular adjustment thereon.

95023. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Metalliferous disazo-dyestuffs and process for preparing them. Accepted on 5th April 1966.

Comprises coupling of 1 mol of 1 : 3 dihydroxybenzene or any derivatives thereof with 1 mol of a diazo compound of benzene and naphthalene series and the mono azo dyestuffs so obtained is coupled with a further mol. of same or different diazo compound and the water soluble disazo dyestuff so obtained are treated with an organic or inorganic salt of copper, cobalt or nickel as agents yielding metal.

95063. Inpower Works (Proprietary) Limited. Fluid torque transmitter by inertia. Accepted on 2nd April 1966.

A carrier adapted to rotate about its axis, at least two liquid retainer wheels mounted on the carrier to rotate about their own axes, and drive connecting means connected to the carrier for connecting it to a source of rotary power.

95085. Kirloskar Electric Company Limited. A time-delay unit. Accepted on 31st March 1966.

The meter is operated from a low voltage d.c. source and employs a transistor, a potentiometer, a relay, a resistance, a switch and a capacitor, wherein discharging of the capacitor is effected through the resistance in the set position of the switch.

95182. Council of Scientific and Industrial Research. A torque limiting spanner. Accepted on 4th April 1966.

Providing a predetermined torque to a bolt thereby controlling the upper limit of the torque by ceasing to apply any higher torque.

95281. Standard Telephones and Cables Limited. Automatic telecommunication exchange switching network. Accepted on 31st March 1966.

Having four-wire incoming circuits, outgoing four-wire and two-wire circuits, common control means, a pre-selection switching chain, a four-wire selection chain, a two-wire selection chain, four-wire to two-wire conversion circuits and connections from the common control means.

95291. T. J. Smith & Nephew Limited. Improvements in and relating to material in sheet form (27th August 1963). Accepted on 7th April 1966.

Characterised by the fact that at least one surface of the material is formed as an embossed surface of small solid bosses or raised in figures arranged with spaces between adjacent bosses in longitudinal and transverse row.

95352. N. V. Philips Gloeilampenfabrieken. Improvements in and relating to flash-light lamps. Accepted on 4th April 1966.

The gas in the flash-lamps being of fluorine or one or more volatile fluorine compounds, which react with solid substance in the flash-lamp upon ignition.

95463. Veb Lokomotivbau-Elektrotechnische Werke "Hans Beimler". Electron-beam generator. Accepted on 4th April 1966.

Prefocussing is done by means of radii and curvatures of the cathode by the shape of focussing electrode, the shape of the anode and by means of distance between the cathode and focussing electrode, and electron beam is focussed and guided on its further path by magnetic lenses.

95524. Societe Nationale DesPetroles D'Acquitaine. Process, apparatus and installation for obtaining sulfuric acid. Accepted on 4th March 1966.

The process for obtaining sulfuric acid characterises in that the volume and concentration of the solution is kept constant by continuously extracting and concentrating the increment in the solution by allowing it to flow countercurrent to the gaseous sulfuric oxide, before its contact with sulfuric acid solution.

95758. Toms River Chemical Corporation. Novel blue and green disperse dyes, process for their manufacture, and dyeing with such dyes. Accepted on 22nd March 1966.

Heating 4-amino-3-halogenanthraquinone-2, 1(N)-benzacridone with copper-I-cyanide and hydrolysing the product.

95766. The Eimco Corporation. Feed introduction means in clarification apparatus. Accepted on 23rd March 1966.

Feeding means in clarification apparatus comprising a sedimentation tank with a sludge outlet and a liquid level defining outlet, an arm in tank's centre terminating in tank wall, an outlet port in its end, means for supplying feed to it and it rotates.

95799. Birfield Engineering Limited. Improvements in or relating to universal joints. (3rd October 1963). Accepted on 26th March 1966.

Having two component torque transmitting universal joints in which torque being transmitted from an inner member to an outer member trough rolling elements.

95800. Head, Wrightson & Company Limited. Improvements relating to the control of flow of particulate solid materials through pipes. (24th October 1963). Accepted on 26th March 1966.

Controlling flow of material through a pipe acting as the core of a transformer a transducer responsive to the output of pipe and flow control device actuated by the said output.

95822. Director of Industries, Govt. of West Bengal. A machine for obtaining strips of mat grass from mat stalk. Accepted on 28th March 1966

Includes means for initially splitting the mat stalk, an inclinably disposed scraper and a vertically disposed cleaning blade.

95875. Anglo American Corporation of South Africa Limited. Improvements in the segregation process. Accepted on 30th March 1966.

Comprising fluidizing mineral beading material, withdrawing heated material and adding to it reagents necessary for segregation reaction.

95881. Westinghouse Electric Corporation. Protector wiring device for the connection to building wiring systems to provide lightning or overvoltage protection for equipment or appliances associated therewith. Accepted on 1st April 1966.

Comprises a housing of insulating material, voltage surge discharge means and at least two elongated conductor means, arranged to provide a surge discharge path for surges from the source of potential.

95884. The Bendix Corporation. Power brake system. Accepted on 1st April 1966.

A first piston slidably mounted in the stepped bore of the housing of the combined master cylinder and power control valve and a second piston slidably mounted in said bore ahead of the first piston.

95895. G. P. R. Pillai. A process for the manufacture of dicalcium phosphate and mono or diammonium or mono or dialkali phosphates from natural rock phosphates. Accepted on 4th April 1966

Comprises reacting powdered rock phosphates with sulphuric or phosphoric acid, extracting with water, adding ammonia, acidifying the filtrate and repeating it no. of times.

95915. Ranjit Kumar Dutta. Fuse indicator device. Accepted on 5th April 1966.

Comprising a pilot-lamp, a lamp holder, a fuse wherein the pilot lamp is connected parallel across the fuse wire.

95984. N. V. Onderzoekingsinstituut Research. Improvements in or relating to the treatment of yarn. Accepted on 2nd April 1966.

Characterised in that points of contact of the yarn with the wall of the yarn channel at the inlet and at the outlet thereof are one point on the same side of the longitudinal axis of the yarn channel and the other point on the opposite side thereof respectively and the yarn supplied has no practical twist.

96019. Elitex, Sdruzeni podniku textilniho strojirenstvi. Device for automatic transfer of fibres. Accepted on 6th April 1966.

Characterised in that the piston rods are mounted under the pressure force of the springs inside the cylinders which are mounted by means of their eyes.

96022. Tos Kurim, Narodni Podnik. Rotary device for picking up position. Accepted on 6th April 1966

Characterised by the fact that a toothed disk is connected through an electromechanical storage with a driving shaft and engages in the slot of two inductive pick up devices, spaced with respect to each other through one half of the pitch of the circumferential slots of the toothed disc, the number of the circumferential slots of the toothed disk determining the accuracy of the measured length and of the directional sense of the movement.

96034. United State Machinery Corporation. Improvements in methods of improving uniformity and strength of paper and improved paper. Accepted on 2nd April 1966.

Comprises mixing an aqueous suspension of collagen fibre with paper pulp suspension, and then supplying this mixture over screen and straining water from the suspension to form a felted fibre web.

96087. G. D. Thakoor. A gas cock unit. Accepted on 7th April 1966.

Comprising a rotatable plug, a small hole and a large hole.

96090. Fabrica Italiana Magneti Marelli S.p.A. A clip or the like, resiliently engageable into peripheral grooves in pivots to restrain against axial movements members mounted on such pivots. Accepted on 1st April 1966.

Characterized in that it is shaped as a spring stirrup partially engageable with its arms in a peripheral groove of the pivot which at least one of the arms of clip is bent through about 180° so as to be parallel to the other portion of the arm.

96135. Mrs. Balasubramaniam Vijaylakshmi, V. K. S. J. Sah and A. P. S. Durai. Improvements in or relating to electrical connectors for low tension overhead lines. Accepted on 5th April 1966

Comprises a base, a central threaded screw hole provided in the base and flanged head, a stud, and a clamp provided with a curved slot adapted to accommodate the over head line at one end of a face.

96142. Westinghouse Electric Corporation. Fuse structures. Accepted on 5th April 1966.

Comprising a pair of concentrically arranged insulating fuse tubes defining an annular space therebetween and at least one of the said fuse tubes has groove means formed in the surface thereof facing the other fuse tube.

96143. Westinghouse Electric Corporation. Current limiting fuse. Accepted on 5th April 1966.

Includes a fusible element adapted to fuse at a current value intermediate the current values of first and second portions, and, when intact, restrains the connector member against movement in circuit open direction.

96281. Associated Electrical Industries Limited. Improvements relating to motor compressors. (8th November 1963). Accepted on 1st April 1966

Including a compressor cylinder wholly constituted by a separate flanged cylinder block accommodated with clearance in a pressure caste frame.

96333. Morgan Refractories Limited. Improvements in and relating to furnaces. (7th November 1963). Accepted on 30th March 1966.

Wherein an anchorage assembly comprises an anchor bracket and a refractory anchor body.

96536. K. Fujii. Apparatus for reducing wears on rail or axle wheel of a rolling stock by coating oil thereon. Accepted on 2nd April 1966.

Oil-coating wheel means being pivotally supported on a part of a rolling stock and arranged to be urged in the contacting direction with said axle wheel or rail.

96726. Grasso's Koninkliike Machinefabrieken N. V. Replaceable shaft seal. Accepted on 4th April 1966.

Characterised by additional sealing elements in series with the usual sealing elements.

96845. Standard Telephones and Cables Limited. Replaceable plug-in unit printed circuits. Accepted on 1st April 1966.

A printed circuit board, a knife blade strip, a spring strip, means for mechanically and electrically coupling.

97180. Tokyo Shibaura Electric Company Limited. Control system for electric cars. Accepted on 7th April 1966.

Provides a control system for an electric car comprising a direct current series motor and a current regulator for said driving motor.

Opposition Proceedings

The opposition entered by F. Racek & Co. (Private) Ltd. to the grant of a patent on application No. 90960 has been treated as withdrawn.

Printed Specification Published

RESERVE BANK OF INDIA

Department of Non Banking Companies

Calcutta-1, the 4th April 1966

No. DNBC. 172/*MRC.*95/66—In exercise of the powers conferred by Sections 45J and 45K of the Reserve Bank of India Act, 1934, the Reserve Bank of India, being satisfied that it is necessary in the public interest to do so, hereby directs that the directive No. ED. DPPR. 1209/MRC.95-66 dated 7th January 1966 shall be amended in the following manner :

1. *Clause* (2) : After the words "deposit is" in sub-clause (ii) delete the next word "made" and insert the following : "converted or renewed so as to make it".

In clause (2)(ii)(a) for the words "date of the deposit" substitute the words "date of such conversion".

Insert the following as the second proviso to clause (2)—

"Provided also that nothing in this clause shall be deemed to preclude the repayment, subject to the preceding proviso, of any deposit, as aforesaid, after the deposit has become repayable".

2. *Clause* (4) : Insert the following as sub-clause (iii) in clause (4)—

"(iii) Where during any period in any financial year of a company, the company holds deposits accepted by it, the company shall deliver to the Reserve Bank of India, unless it has done so already, an audited balance sheet as on the last date of each such financial year and an audited profit and loss account in respect of that year as passed by the company in general meeting within fifteen days of such meeting; and shall also deliver to the Reserve Bank of India interim accounts, certified by the Manager or the Chief Executive Officer of the company, as on the last date of the half-year succeeding each such financial year and a profit and loss account in respect of that half-year, within three months from the expiry of the said half-year.

3. *Clause* (5) : Insert the following as proviso to sub-clause (iv) of clause (5)—

"Provided that if the company keeps the books of accounts referred to in sub-section (1) of Section 209 of the Companies Act, 1956 (1 of 1956) at any place other than its registered office in accordance with the proviso to that sub-section, it shall be sufficient compliance with this clause if the register aforesaid is kept at such other place subject to the condition that the company shall deliver to the Reserve Bank of India a copy of the notice filed with the Registrar under the proviso to said sub-section, within seven days of such filing".

4. *Clause* (7) : In sub-clause (d)(iii) of clause (7) for the words "by way of security" the words "by way of security or otherwise" shall be substituted.

Insert the following as new sub-clause (d)(iv) of clause (7)—

"(iv) any money received by a holding company from its subsidiary or by a subsidiary from its holding company or by a company from a holding company of its holding company".

Note :—For the purposes of this sub-clause, the expressions "holding company" and "subsidiary company" shall have the same meaning as assigned to them under the Companies Act, 1956 (1 of 1956).

5. *New Clause to be added* : "(8) The Reserve Bank of India may, if it considers it necessary for avoiding any hardship or for any other just and sufficient reason, exempt any company or class of companies from all or any of the provisions of this directive either generally or for any specified period or subject to such conditions as the Reserve Bank may impose".

No. DNBC. 173/*MRC.*95-66—In exercise of the powers conferred by Sections 45J, 45K and 45L of the Reserve Bank of India Act, 1934, the Reserve Bank of India, being satisfied that it is necessary in the public interest to do so, hereby directs that the directive No. ED.DPPR.1210/MRC.95-66 dated 7th January 1966 shall be amended in the following manner :

THE SOUTHERN GUJARAT OILSEEDS MERCHANTS' ASSOCIATION, LTD., PALEJ

NOTIFICATION BY THE SOUTHERN GUJARAT OILSEEDS MERCHANTS' ASSOCIATION, LTD., PALEJ

The approval of the Secretary, Forward Markets Commission, under Sub-section (i) of Section 11 of the Forward Contracts (Regulation) Act, 1952 (74 of 1952) read with the Government of India, Ministry of Commerce and Industry, Notification No. S.O. 1162, dated the 4th May 1960, has been obtained on the 5th January 1966 to the following amendments made to the Bye-laws of the Southern Gujarat Oilseeds Merchants' Association, Ltd., Palej, the same having been previously placed on the Notice Board of the Association, under Section 11 of the said Act and Rule 11 of the Forward Contracts (Regulation) Rules, 1954.

AMENDMENTS

In the said Bye-laws add Chapter XXVII as under :—

Additional Bye-laws for Non-transferable specific delivery contracts for Cottonseed.

Definition.—"Non-transferable Specific Delivery Contract means a non-transferable specific delivery contract as defined in the Forward Contracts (Regulation) Act, 1952, entered into, performed and regulated in accordance with Bye-laws 293 to 309.

(293) Bye-laws 293 to 309 are additional Bye-laws relating to non-transferable specific delivery contracts for cottonseed. All the other Bye-laws of the Association as may be in force from time to time shall also be applicable to such contracts, and shall be binding on the members in so far as they are not specifically dealt with in and are not repugnant to these additional Bye-laws.

Provided that the provisions in the other Bye-laws regarding clearing shall not apply to non-transferable specific delivery contracts for cottonseed.

(294) Every non-transferable specific delivery contract made subject to these Bye-laws shall take effect as a contract wholly made at Palej.

(295) The non-transferable specific delivery contract shall be entered into only between members or between a member and a non-member.

(296) All non-transferable specific delivery contracts shall be made in the prescribed form, serially numbered and supplied by the Association. The contract shall be made in quadruplicate, one copy each to be retained by the parties to the contract, one to be submitted to the Association forthwith and the fourth to be kept by the broker. The parties to the contract shall not include any special terms in the contract which are repugnant to the terms and conditions laid down in these Bye-laws.

(297) Every member shall send to the Association periodical statements of non-transferable specific delivery contracts entered into by him in such form and manner as may be prescribed by the Board of Directors.

(298) (a) The Board of Directors of the Association shall, before permitting non-transferable specific delivery contracts for any month, obtain the approval of the Forward Markets Commission for the same.

(b) The Forward Markets Commission shall have power not to grant such approval whenever it is considered expedient in the interest of the trade or in public interest so to do.

(c) No member shall enter into a non-transferable specific delivery contract for delivery in any month unless the Association has notified that such contracts are permitted.

(299) Every non-transferable specific delivery contract shall result in the delivery of goods in accordance with and subject to the provisions and procedures laid down in the relevant Bye-laws.

No non-transferable specific delivery contract once entered into, shall be settled mutually or by offsetting or by hawala or in any manner nor shall delivery under the contract be postponed to a later date except in accordance with the provisions of these Bye-laws.

(301) The parties to the contract by mutual agreement may extend the delivery date by a period not exceeding 15 days subject to the condition that they shall notify to the Association in writing the original date and the extended date of delivery. If it becomes necessary to extend further the date of delivery mutually agreed upon, the parties shall apply to the Association in writing setting forth the reasons for extension of time. The Board of Directors or Sub-Committee appointed for this purpose shall have absolute discretion to extend or not the delivery time.

(302) With a view to ensuring due compliance with the terms and conditions of the contract, the Board of Directors or Sub-Committee (whenever it finds necessary or if called upon by the Forward Markets Commission) may ask the members to furnish the following, as also other particulars, and members failing to do so will be liable to be penalised under the disciplinary Bye-laws of the Association :—

(i) Copies of the bill claiming monies;

(ii) Number of the cheques, issued for payment;

(iii) Railway receipt number or the delivery order number, the date of delivery etc.;

(iv) Other relevant particulars to show the mode of delivery.

(303) Subject to the provisions of Bye-law (305) :—

(1) In case the seller fails to give delivery, the buyer shall exercise any of the following options :—

(i) Buy on the seller's account either railway receipt or ready goods on the subsequent day of the date of delivery (due date) and claim from the seller the difference of the contract price and the purchase price.

(ii) Close the transactions on the due date and claim from the seller the difference between the contract rate and the rate registered by the Association.

(iii) Cancel the contract.

(2) The buyer may exercise one option for some part of the contract and another option for another part of the contract at his discretion.

(304) Subject to the provisions of Bye-law (305) :—

(1) In case the buyer refuses to accept a railway receipt or delivery instructions or if he fails to take delivery of the goods against the delivery instructions, the seller shall exercise any of the following options :—

(i) Sell on the buyer's account railway receipt or ready goods before the end of next working day of the day on which the buyer refuses to accept the railway receipt or delivery instructions and claim from the buyer the difference of contract price and sale price.

(ii) Close the contract on the day on which the buyer refuses to accept the railway receipt or delivery instructions or the buyer fails to take delivery of the goods against delivery instructions and claim difference between the contract price and the rate registered by the Association.

(iii) Cancel the contract on the day on which the buyer refuses to accept railway receipt or delivery instructions or the buyer fails to take delivery of the goods against the delivery order.

(2) The seller may exercise one option for some part of the contract and another option for another part of the contract at his discretion.

(305) In each of the cases mentioned in Bye-laws (303) and (304) the buyer and the seller shall communicate to the Association in writing the failure or refusal, as the case may be within 5 days. The party failing to give or take delivery shall give reasons for such failure and the opposite party shall, if it has exercised the option given in clause 1(ii) or 1(iii) of Bye-law (303) or (304), explain the reasons why he preferred the option. If he has exercised the option given in clause 1(i) of Bye-law (303) or (304), the party shall give particulars of the purchase or sale, as the case may be, effected by it.

The Board of Directors or a Sub-Committee appointed by it in this behalf, shall from time to time examine the aforesaid communication, taking into account all relevant circumstances and if it is satisfied with the reasons or explanation furnished by any party or if it is not satisfied about the purchase or sale claimed to have been made by the party under clause 1(i) of Bye-law (303) or (304) it may subject the party to such disciplinary action including imposition of fine, suspension and expulsion as it may deem fit, after giving the party an opportunity of being heard in the matter. With a view to restricting the use of the non-transferable specific delivery contracts only for the purpose of giving or taking actual delivery of goods and with a view to ensuring uniformity in dealing with cases of failure to give or take delivery, the Board of Directors may frame suitable rules under this Bye-law with the concurrence of the Forward Markets Commission.

(306) (a) The Board of Directors of the Association may with the approval of the Commission, require at any time and from time to time, the buyer or the seller or both to deposit, in the interest of the trade, margins in respect of their outstanding non-transferable specific delivery contracts at the Association at such rates as may be fixed by the Board.

(b) The Forward Markets Commission may, in the interest of the trade or in public interest exercise the powers contained in clause (a) above.

(307) No member shall enter into any non-transferable specific delivery contract for cottonseed otherwise than on the terms and conditions prescribed under these Bye-laws. Nothing contained in this Bye-law shall apply to a non-transferable specific delivery contract for cottonseed entered into on the terms and conditions prescribed in the Bye-laws of another recognised Association between members of that Association or through or with any such member.

(308) Any non-transferable specific delivery contract entered into for cottonseed which at the date of the contract is in contravention of the provisions of the Bye-laws (296), 297), (298), (299), (300), (301) and (307) shall be illegal under the provisions of Section 15 (3-A) of the Forward Contracts (Regulation) Act, 1952.

(309) The delivery period, delivery centres, quantity and quality specifications in respect of non-transferable specific delivery contract shall be as specified in the respective contract.
